1 Ball of Candle Wick
Plumber's & Helper's Time 62 hours @ \$1.75

1	25
	15
108	50
208	36

This account was occasioned largely by the installing of the heating system in the west end of the building, and various plumbing and heating apparatus having to be moved, including hot water storage tank, jacket heater and water softener. It was also found necessary to repair a number of units which had developed defects.

MEMORANDUM

Mr. Orr

I return herewith voucher No.17 for \$800.13 in favour of F. H. Lepper and Company and beg to say that the account of \$28.77 would not appear to be a charge against P.W.C.A. funds. It apparently is for some repair work in the old section of the building.

In connection with the charge of \$208.36, "Extra to contract", I beg to say that this firm's contract of \$1,043.00 is for installing plumbing in the new addition to the building and there is nothing to show that it does not include the work billed for in the account of \$208.36. If they are entitled to this extra payment it should be approved by the Minister. Kindly see your memorandum of January 18 in which you state that the three prices submitted including the one from F.H.Lepper and Company are for additional plumbing required in alterations and additions.

M. J. Lepper

Representative of the Treasury.

Re- Indian School at Morley.

Dear Mr. Orr:

As the work on the above building nears completion, the Rev. Mr. Staley, Principal, has requested me to bring to your attention a few additional matters pertaining to the school.

You will recall that when you last visited this school he mentioned the need for more lavatory accommodation in the boys' basement consisting of more wash-basins, and two more toilets, and it was suggested that these services be placed in the room off the play-room then used as a kitchen store-room. You replied that this matter had better be deferred until towards the completion of the building, by which time it could be seen if any money would then be available.

As a result of the alterations in the older building, the room formerly used as the Principal's office has been retained as a kitchen store-room in place of the basement store-room, and it is in this latter room that the suggested lavatory fixtures be located.

F.H. Lepper & Co., who installed the plumbing in the new addition of the school, quote a price of \$160.00 to provide "one large wash-sink, P-6483-A Standard Sanitary Catalogue, 8 ft long- this sink being equal to 3 basins." This firm also quote a price of \$150.00 to instal two toilets in the same room, or \$105.00 for one toilet, including the necessary drains, traps and vents. Prices quoted are exclusive of the breaking and making good of the concrete floor. To install the wash-basins and two toilets as quoted, plus the floor work, and plus the toilet stalls, would bring the cost of these services up to approximately \$350.00, or to about \$295.00 if only one toilet were supplied.

Rev. Mr. Staley has also asked me to mention that the matter of renewal of defective wood floors has been in abeyance for some time, and had been asked for in their estimates. These floors are badly worn, and he would like to know if they can be replaced with new flooring where necessary. To meet his request would require about 2000' of E.G. fir flooring, and the labour and materials would amount to about \$250.00.

A third request is for the replacement of the platform and steps at the rear of the school, being the boys' entrance to the basement play-room. These steps and platform are now falling to pieces, and if rebuilt might better be done in concrete. We have just about enough cement and gravel on hand to do this work, and could thus be done at no great cost, - probably for \$25.00.

We have already had to do a great deal of inescapable work in the existing building, and this added to the work called for in the new addition, in labour and materials, leave no margin for the additional requests, unless this further outlay be authorized. I am therefore passing on these requests to the Department, and will await your instructions before undertaking this further outlay.

2.

In the event of the Department granting the request for the additional wash-basins for the boys, it is proposed to transfer the three existing wash-bains in the boys' play-room to the girls' basement play-room to supplement the three basins there, which change would entail but a nominal cost. There would then be the equivalent of 8 wash-basins in the boys' basement lavatory, and 6 basins in the girls' end, which the Principal says would be about right.

My 4 carpenters are now working at making the cupboards, lockers, shelving, new dining-room tables and benches, etc; and 4 painters are doing the outside painting of the old building and new addition. The building will look immeasurably better in its new colours.

Last Sunday Dr. G.D. Stanley, M.P. paid a visit to this Reserve, and he told me next day how very pleased he is over the way the money granted has been expended here, and the good value obtained in the new buildings. He addressed a large gathering of Indians and whites in the church, it being a Silver Jubilee service.

On the advice of Mr. Christianson, I have deferred my trip to Grouard until the 13th instant in consequence of another heavy fall of snow on the 6th, and he feared there might be still more snow farther north. The snow hereabouts is now all gone except the heavy drifts, and by next week the conditions should be favourable for my inspection of St. Bruno's School. I will report promptly after my inspection. I expect to be absent from Morley for about a week.

Awaiting your valued instructions regarding the foregoing requests of the Reverend Principal of the Morley school,

Your obedient servant

E. Gardner Smith

Building Supervisor.

Morley, Alta. April 30th, 1935.
The Secretary.
Department of Indian Affairs.
OTTAWA.

Report on Addition to Indian School.

Sir:

Nearly all the work indicated as yet to be done in my Report of the 3rd instant is now completed, and the new rooms provided are now in occupation.

The plasterers returned on the 22nd instant, and spent a busy week plastering the new partition separating the enlarged boys' and girls' dormitories, the lavatory extension, the old and new stair areas, and considerable patching in the older building. Also, while here, they repaired the ceilings of the class-rooms building where plaster had fallen. All this work is now completed, and has been well done by the plastering contractors, Jonathan & Sons, of Calgary.

The basement floor of the new addition has also been laid, and the plastering contractors did the trowelling of the finish coat, some of which had to be done in overtime hours so as to catch the cement at the right stage. We used "Master Mix" concrete hardener on this floor, so as to insure a hard dust-proof surface. It took 10 gals, costing \$1.90 per gal.

The Department authorized an extra expenditure of \$125.00 to provide a stage off the new basement, for which object we left an opening of 14' in the centre of the divisional wall. This stage will have a lumber floor 13" higher than the basement level, and be provided with accordion doors hung from an overhead track. This work has yet to be done.

The metal ceilings throughout the new addition are now completed, and look very well. We have painted them white. I was able to give them a variety of pleasing patterns without extra cost. It was necessary to renew the metal ceilings in the existing building in places where excessive corrosion had taken place, and a great deal of patching had to be done where the furnace pipes and risers had passed through.

The electrical work has also been completed. The electrical contractor, Mr. Lloyd Orr, of Calgary, carried out this work very efficiently, doing both the wiring of the new addition in conduit, and supplying and hanging the fixtures. It was necessary to change and extend the gong wiring and bells; and to make a number of changes in the existing building to improve the service, and to comply with the more recent requirements of the Electric Code. The Underwriters' Inspector, Mr. R. Wagner, checked over the work, and issued the required certificate.

I was duly advised by the Indian Agent that authority had been granted to spend \$750.00 on cupboards, lockers, shelving, etc, and a start is being made to-day in providing these requirements. It will take tight squeezing to get this work done for the sum allowed as there was an entire absence of lockers in the existing building, and a shortage of tables and cupboards.

The plumbing contractor, F.H. Lepper & Co., of Calgary, is now setting up the plumbing fixtures in the lavatory extension and dormitory, this work having been deferred until the completion of the plastering, and it will be completed to-morrow. The plumbing service in the new dormitory has been in operation for some time. Certain repairs in the plumbing of the existing building seemed unavoidable, and have been done while the plumber was on the job. For instance, the floor drain in the boy's basement play-room beside the wash-basins has been long out of commission, so I had the concrete broken and an examination made. This revealed that the trap was broken and the drain blocked, so I am having a new trap installed and this service restored. Other repairs of like nature will have been noted in the plumber's accounts. I felt sure it was the Department's intention that all services be left in good working order in the old as well as in the new building, and I have given orders accordingly.

I was also advised of the authority to re-paint the walls, roof and trim of the existing building so that the entire structure would conform with the colours of the adjacent Department buildings. This outside painting is well started, but is being much interrupted by unfavourable weather. We are experiencing one of the most backward seasons on record, and even to-day, the last day of April, we are getting a further fall of snow, and the ground is as white as in mid-winter. The inside painting and staining is now well advanced, ^{and} as soon as the weather permits, we shall resume the outside painting. I am employing two Indians to help with the outside painting, but am unable to use them on interior work. Two competent white painters are doing the inside work, now nearly completed.

The new heating plant is proving very advantageous compared with ~~what~~ the former hot air furnaces. The Dunham Heating Co's engineer, Mr. Alex. Walker, who has recently returned from Ottawa, intends to visit the job again, and make a final check of the heating service; and I am also arranging for an early visit of the Provincial Boiler Inspector who will inspect the two boilers at the school as well as the hospital boiler, and from whom we shall obtain the required Certificates.

The costs are running very close to the estimates, and with the additional sums authorized for the extra work, I think we shall about break even. I will send a segregated statement of costs at an early date.

Speaking generally, the work is now on the last lap, and should be entirely completed within the next two or three weeks. I am arranging to be absent for a week or so to make the inspection of the St. Bruno's School, as instructed, and intend leaving for the north on May 9th.

I have the honour to be, Sir,

Your obedient servant

E. Gardner Smith
Building Supervisor.

- Accompanying Account of Lloyd Orr Electric for \$372.98.

Segregation

1. New Building,	\$66.68
2. Fixtures.	74.31
3. Bells & Alarms	50.15
4. Dining Room,	30.35
5. Alterations,	18.16
6. Change Switch- ing in Dorms.	9.77
7. Attic Lighting	25.67
8. Fire Escapes	14.89
9. Pressure Tank	20.68
10. Lamps Elec.	21.00
11. Basement Alter- ations Switch	8.21
12. West Porch	4.08
13. Rear Entrances	11.87
14. Drying Room	7.53
15. Laundry	9.63

Page 374
\$372.98 - \$372.25
Explanations of Above Items.

1. New Building, \$66.68. The labour & materials shown under this heading together with the account of \$197.32 previously rendered and paid for brings the cost of wiring the new addition to \$264.00, exclusive of fixtures and lamps.
2. Fixtures, \$74.31. This charge is for all the lighting fixtures required, exclusive of light bulbs.
3. Bells & Alarms, \$50.15. The bell system and fire alarm signals had to largely changed, and extended. Two new fire gongs and one signal bell, with extra push buttons were supplied and installed.
4. Dining Room, \$30.35. In removing walls and stairway to enlarge the Dining Room, the existing wiring concealed in said walls had to be run elsewhere and changes made.
5. Alterations, \$18.16. At the request of the Rev. Principal a hall and store-room were incorporated in the ground floor plan of the new addition, which accounts for the labour and materials charged under this heading.
6. Change Switching in Dormitories, \$9.77. The building of a new divisional partition across the existing girls' dormitory made it necessary to alter the circuit and switching.
7. Attic Lighting, \$25.67. The attic over both the existing school and the new addition are used for storing clothing, etc, when not being used. This item covers the cost of conduit lighting, switches and outlets for the entire attic.
8. Fire Escapes, \$14.89. Formerly open wiring carried light to fire escape platforms. This is contrary to the Electric Code, and has been replaced with conduit wiring.
9. Pressure Tank, \$20.68. We found the pressure running wild in this tank. Both the obsolete safety valve and the electric cut out were not functioning, with danger to the system. The plumber installed a new safety valve; and the item under this heading covers the cost of a dependable automatic pressure switch and connections.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Explanations of Electric Account cont'd.

10. Lamps (Electric), \$21.00. This item covers the cost of the 46 lamps required, of varying strength, as requested.
11. Basement Alterations, \$8.21. It became necessary to change the switching in the existing basement, and provide an extra switch.
12. West Porch, \$4.08. The cost of a light extension to this porch.
13. Rear Entrances, \$11.87. The two rear entrances were formerly supplied with drop lights from open wiring brought from circuits in the main building. These have been replaced with conduit wiring in compliance with the Code.
14. The former east furnace room has been converted into a drying room, with a doorway cut through from the adjoining laundry. This item covers the cost of providing this new room with suitable lighting, at a cost of \$7.53.
15. Laundry, \$9.63. The wiring in the laundry has been extended, and conduit outlets brought to the laundry machines. This outlay makes the operation of the laundry both safer and more convenient.

These three 16" vents go from ceilings of
dormitories, through to large weather-proof cupulas on roof.
Chimney alterations deprived two dormitories of their
original vents, and the third vent is placed in dormitory
of new addition. They are proving very efficient.

R.
Morley, Alta, May 8th, 1935

Sir:-

In answer to your letter 119-1-5D of the 4th ultimo, I now enclose details of Vouchers No 238 - 239 and 240, Anderson Plumbing Co.

The delay has been caused by finding it difficult to get proper details as it appears hard for this firm to itemize their account.

The receipts attached, for Freight, Board etc., you will note, also covers freight, board and room for Vouchers No. 35 and 36 same date as this letter. I have itemized these accounts on the face of both receipts.

I trust you will now find the accounts in order for payment.

Your obedient servant,

W. B. Murray
Indian Agent.

Office of the *Stony* Indian Agency,

Verlay, Alta, May 6th, 1935.

Sir,

I enclose herewith Vouchers Nos. 38

amounting to \$ 44.94 in favour

of F. H. Lepper & Co. Calgary, Alta.

for Alterations & Repairs etc., plumbing, Indian Residential School.

This expenditure was authorized by Departmental

Letter No. 119-1-5 dated Oct. 24th, 1934. E. R. No. 2562

Your obedient servant,

W. B. Murray

Indian Agent.

The Secretary,

Department of Indian Affairs,

Ottawa.

DEPARTMENT OF INDIAN AFFAIRS

OTTAWA, CANADA

May 17th, 1935.

FILE NO. 119-1-5

Memo.

1. Mr. Orr
2. Accountant

I beg to call your attention to the following unpaid accounts on this file.

Voucher No. 38	\$44.94	F.H. Lepper and Co.
Voucher No. 35	144.15	Anderson Plumbing Co.
Voucher No. 37	372.25	Lloyd Orr Electric

These accounts are certified to by you. If they are chargeable to P.W.C.A. they should be marked accordingly.

The funds provided for by the P.W.C.A. are to cover construction work. Do you consider that vouchers No. 35 and 38 come within this category?

I wish also to draw your attention to voucher No. 17 for \$800.13 in favour of F.H. Lepper and Co. Please see my memorandum of May 1st re the charge of \$208.36 contained in this account for extras to the contract. There is nothing on the account, which is returned herewith, to show that this charge for extras to the extent of \$208.36 meets with the Minister's approval.

Samuelly
for Representative of the Treasury.

Memorandum:

The Honourable the Superintendent General.

On January 18th you approved of a memorandum authorizing the awarding of the plumbing work at the Morley School to F. H. Lepper and Company of Calgary, at their tendered price of \$1,043.00.

During the course of the alterations it was found that it was necessary to carry out some changes in the old portion of the building, the cost of which amounts to \$208.36.

I would ask your approval for this additional expenditure.

Alvance

Deputy Superintendent General.

119-1-5

May 20, 1935.

Memorandum:

The Honourable the Superintendent General.

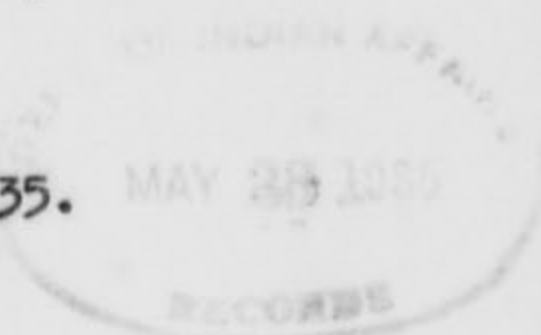

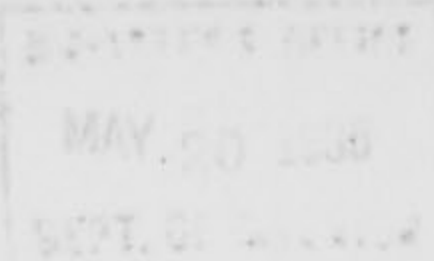

On January 18th you approved of a memorandum authorizing the awarding of the plumbing work at the Morley School to F. H. Lepper and Company of Calgary, at their tendered price of \$1,043.00.

During the course of the alterations it was found that it was necessary to carry out some changes in the old portion of the building, the cost of which amounts to \$208.36.

I would ask your approval for this additional expenditure.

Harold W. Hill

Deputy Superintendent General.

INDIAN AGENT

R.

Morley, Alta, May 28th, 1935

Sir:-

I beg to request that \$500.00 additional advance be forwarded to this office, to pay for labour in connection with the building operations at the Morley Indian Residential School.

I may say I received the \$500.00 asked for in my letter of the 9th instant, and as stated in that letter, I was of the opinion that amount would complete the job. However, it was overlooked that your Department had been requested to grant authority for extra work etc., and to complete the general and additional work as authorized in your letter 119-1-5 of the 15th instant, the money as per above will be required.

I would appreciate receiving the money in time for the next pay-day, which will be June 7th, next.

Your obedient servant,

W. B. Murray
Indian Agent.

His Excellency

The Governor General in Council.

The undersigned has the honour to report that a further sum is required to complete the alterations and additions to the Morley Indian Residential School, at Morley, in the Province of Alberta, which work was authorized to be constructed by day labour under P. C. 1757, dated August 11, 1934.

The undersigned accordingly has the honour to recommend that the sum of \$5,000.00 be set apart for the above mentioned purpose, pursuant to the provisions of Section 2 of the Public Works Construction Act.

Funds for this purpose are available from the said Public Works Construction Act, 1934.

Superintendent General
of Indian Affairs.

Morley, Alta, May 28th, 1935

Sir:-

Enclosed herewith find Receiver General Cash
Return for period ending May 26th, 1935.

Regarding the collection \$3.26, refund from
Western Steel Products Limited, for ceiling material;
I have attached a copy of their invoice and credit memo,
also freight receipt covering this transaction.

Ceiling material for the addition to Morley Res-
idential School, was purchased complete, as per Agency
Voucher No. 3, dated April 5th, last, amount \$420.04. The
additional order as per the attached invoice, was to
complete a pattern, thus leaving material to be returned.

Dear Dr. McGill:

We wish to very respectfully call your attention again to a suggestion we made to you and to your department some few months ago, in regard to an automatic stoker for your new school at Morley.

We have gone into the matter very thoroughly with your Mr. Christensen and Mr. Phalen, and they are both very well impressed with the stoker we are selling, and they indicated to us that if a favorable suggestion came from the Indian Department, that they would be very glad to confirm this suggestion.

I have in the previous letters, pointed out to you the advantages to be gained from the use of this stoker, and I am quite sure that the proposition would meet with your entire approval if you fully realize the net value to this institution at Morley.

I shall be pleased indeed if you will write both Mr. Phalen and Mr. Christensen and get their comments on the advisability of installing this stoker.

We shall appreciate very much your usual prompt attention to this matter, and remain

Yours very sincerely,

O. H. Patrick

Dear Sir,-

I have your telegram of today advising that funds are required for the labour for the completion of the Morley School.

I regret the delay but all the funds are exhausted that were authorized under previous Order in Council, and it has been necessary to obtain an additional one before the advance could be made. This memorandum is at present before Council and it is hoped that the money will be available in the very near future.

Yours very truly,

A. F. MacKenzie.

Sir:

Re- New Addition to Morley Indian School.

Your letter of recent date, addressed to Dr. W.B. Murray, Indian Agent, in reply to his telegram of the 11th instant, was duly received, and it was noted that no further funds will be available until an Order-in-Council is passed, for school construction.

The work on this job is completed with the exception of two or three more days' painting, and only the painter is still on the pay-roll. He should finish on the 20th, on which date I shall return to Morley for a day in order to complete the pay-roll and check up on the final work. My time ended on the 15th inst.

About \$500.00 is owing to the workmen, for the last 3 weeks' period, and when this sum is received Dr. Murray can distribute the cheques as called for on the completed pay-roll. I have had the workmen sign the pay-sheets in advance, before they left for their homes, so he will simply have to mail their cheques to them.

On the completion of the painting I shall prepare and forward a full segregation of the costs on this work.

I am now available for other employment, and I trust it may soon be my privilege to be of further service to the Department.

I have the honour to be, Sir,

Your obedient servant

E. Gardner-Smith

Calgary, Alta. June 25, 1935.

DEPT. OF INDIAN AFFAIRS
JUN 28 1935
RECEIVED

The Secretary.
Department of Indian Affairs.
OTTAWA.

Re- Building Work at Morley.

Sir:

Enclosed herewith please find Segregations of Costs of the new Hospital Building, and also of the Addition to the Residential School, on the Stony Reserve. All outlays which have passed through the books at the Indian office are included. My own expense accounts vouchered monthly to Ottawa (board & mileage) are not included, as it was thought that the Department may carry a separate account for charges of this nature.

The Rev. Principal of the school requests that window shades be provided for the new addition. These, of fair quality, would cost approximately \$65.00 installed. He asks, also, that woven wire guards be placed over the windows of the new basement, and this cost would be about \$30.00 installed. I promised Rev. Mr. Staley that I would refer these two requests to the Department for decision.

I have the honour to be, Sir,

Your obedient servant

E. Gardner Smith

Building Supervisor.

OFFICE OF
INDIAN AGENT

JUN 25 1935

RECORDS

119-1-5
Morley, Alta. June 21st, 1935.

Sir:

I beg to acknowledge your letter of the 11th instant, File 119-1-5, in which I am advised that the additional money asked for to complete the work at the Indian school will not be available until an Order-in-Council is passed to provide the required funds.

I may state that only this week has this work been entirely completed. A great deal of "making good" had to be done in the original building, especially where partitions, stairways, etc, had been removed, and floors patched.

According to our books here, and to meet the final pay-roll, the sum of \$532.08 will be required. If the \$500 previously asked for has already been sent, then I would respectfully request that the further sum of \$32.08 be also sent, to meet the said pay-roll of \$532.08.

I have the honour to be, Sir,

Your obedient servant

W. B. Murray
Indian Agent

W. B. Murray

July 4, 1935.

Dear Sir,-

Replying to your letter of the 21st of June with reference to work at the Morley Indian Residential School, I beg to advise you that the Order-in-Council has today been passed authorizing the additional funds required for this work. The Treasury Branch have been asked to forward you a cheque amounting to \$532.08 to pay for labour, and you will no doubt receive this in a few days.

Yours very truly,

A. F. MacKenzie.
Secretary.

Spelling
 Certified to be a true copy of a Minute of a Meeting of the Committee
 of the Privy Council, approved by His Excellency the Governor
 General on the 29th - JUNE - 1935

*Revised
 By [unclear]
 [unclear]*

The Committee of the Privy Council have had
 before them a report, dated 6th June, 1935, from the
 Superintendent General of Indian Affairs, stating that
 a further sum is required to complete the alterations
 and additions to the Morley Indian Residential School,
 at Morley, in the Province of Alberta, which work
 was authorized to be constructed by day labour under
 P.C. 1757, dated August 11, 1934.

Copied

The Minister recommends that the sum of
 \$5,000.00 be set apart for the above mentioned purpose,
 pursuant to the provisions of Section 2 of the Public
 Works Construction Act.

Funds for this purpose are available from
 the said Public Works Construction Act, 1934.

The Committee concur in the foregoing recom-
 mendation and submit the same for approval.

A. L. [Signature]
 Clerk of the Privy Council.

The Honourable
 the Superintendent General
 of Indian Affairs.

SUPER FYR-FYTER

1 Qt. and 1½ Qt. Vaporizing Liquid

The "Super" Fyr-Fyter, a "fool-proof" and "panic-proof" Fire Extinguisher, bears the Label of Approval issued by the Underwriters' Laboratories. Also approved by the Department of Commerce Steamboat Inspection Service.

Operates by Air Pump—shoots a continuous stream of flame-killing liquid 20 to 25 feet. The Fyr-Fyter Fluid changes immediately to a heavy gas blanket on coming in contact with flames or hot coals smothering the fire.

Underwriters' Label
(with Bracket and Filled)
½-quart Polished Brass
¾-quart Polished Nickel

"Captain" 1 Gal Size

A large size non-freezing Vaporizing liquid Fire Extinguisher. Made with the Fyr-Fyter continuous stream Duplex Air Pump—always ready for instant use. Shoots a steady stream of flame-killing liquid 25 to 30 feet.

For the Public Garage, Hotel, School, Church, Factory, Warehouse, Electric Light and Power Companies, Department Stores, Hospitals, Theatres, Public Buildings, Factories, Mills, Grain Elevators, Farm Buildings, etc.

The Captain has an extra heavy brass shell—non-corrosive monel metal valves—Panic Proof Handle and is equipped with a continuous stream duplex air pump.

BEARS UNDER-
WRITERS' LABEL.

1 Gallon "Captain" Complete and Filled

Page Three

The Central Station

(Vaporizing Liquid Type)

It is especially adapted for use in Electric Power Stations, Sub-Stations, Transformer Houses, Electric Locomotives, Car Barns, Industrial Plants, Paint Stores, Gasoline Filling Stations, Dry Cleaning Establishments, etc., where the added quantity of extinguishing liquid is of importance.

The Central Station Fyr-Fyter is simple and rugged in construction. It will throw one or two gallons of Fyr-Fyter Fluid through the ½ inch nozzle over a distance of from 40 to 45 feet—with very little pumping effort.

The pump is of the single acting double discharge type provided with a compression chamber which renders the stream continuous. There is appreciable dying down of the stream between strokes of the pump.

Approved by Underwriters' Laboratories

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The "Fyr-Man" Fyr-Fyter Liquid Type QUART SIZE

The "Fyr-Man" Fyr-Fyter is designed for Autos, Homes and other places where a low priced extinguisher is in demand. While the "Fyr-Man" does not carry the Underwriters' Label of approval and the construction is different from our approved Super, it is substantially built and will put out as much fire as other 1-quart Extinguishers.

The "Fyr-Man" discharges the stream from a nozzle located at the top of the extinguisher instead of from the bottom.

The regular Fyr-Fyter Air Pump and Panic-proof handle are used in the construction of the "Fyr-Man". The shell or container is made of heavy brass and all parts are made of first class material.

The Fyr-Man
Made in 1-qt.
Size.

Built only in 1-quart size, Polished Brass Finish.

Does not bear the Underwriters' Laboratories' Label.

The "Fyr-Man" Fyr-Fyter
Complete with Bracket and Filled

The New Model "C"

INSTANT Fyr-Fyter ANTI-FREEZE

A 3 for 1 Extinguisher

1st. Will operate efficiently at 40° below zero.

2nd. Will extinguish wood and general fires.

3rd. Will extinguish incipient oil, gasoline, grease and paint fires.

The "Instant" operates upon inversion and bumping the plunges which pierces a CO2 gas cartridge, which expels the extinguishing liquid—Karbaloxy. Karbaloxy is an anti-freeze extinguishing liquid with tremendous fire-killing qualities.

The extinguisher is easily recharged, yet does **not** require (like the Soda-Acid and Foam) annual recharging.

Built In
1 1/4 Gallon
Size

An Exclusive Fyr-Fyter Product
Approved by Underwriters' Laboratories

Page Six

Soda-Acid

Our Soda-Acid is fully built of the best and have incorporated the best features in all makes.

The body of the Extinguisher is built of solid cold-rolled copper and all the interior parts are lead coated to prevent corrosion. We claim that our Soda-Acid Extinguishers are the best that can be produced.

Each Fyr-Fyter Soda-Acid Extinguisher bears the Underwriters' Laboratories' Label.

For use in all heated Factories, Warehouses, Railroads, Schools, Churches, etc., where the nature of the risk requires the extinguishing effect of water.

Complete with Wall Hanger and
2 1/2—3-Gallon Size

RECORDS

Dear Sir;

Re Fyr Fyter Fire Extinguishers
for addition to Indian School also
Hospital at Morley, Alta.

I was at Morley recently and noticed considerable
new Fyr Fyter Fire Extinguishers, will be required for the Indian
School, also the Hospital.

We would recommend either the 1 quart or 1½ quart size
Super Fyr Fyters, or the Soda and Acid, or 5 gallon Pump Tanks as
shown on the enclosed leaflet.

We recently supplied the Indian Department at Gleichen
also at Cardston, Fyr Fyter Fire Extinguishers of different types,
and we shall be pleased to supply the requirements at Morley.

We are the only Fire Extinguisher representatives in
Calgary, who maintain a permanent service department for servicing
Fire Extinguishers, which we have found to be absolutely essential,
to keep Fire Extinguishers in proper condition for service, when
the emergency of a "Fire" arises.

We are on the "list" either under the Fyr Fyter Co of
Canada, or Factory Distributors.

Trusting we will be favoured with the order, we are,

Yours very truly,

Factory Distributors,
Per

OFFICE OF
INDIAN AGENT

SEP 3 1935

Morley, Alta, August 29th, 1935

Sir:-

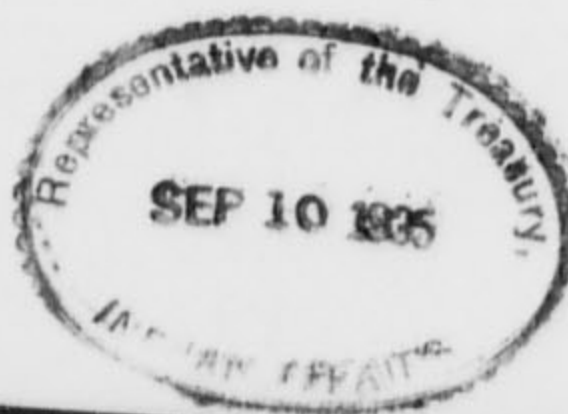

I am enclosing herewith, Return of Labour Forms, covering the completion of the work on the addition to Morley Indian Residential School, also the new Hospital. The accounts concerned are now nil.

I am of the opinion that as pay-lists have been forwarded covering the entire expenditures, it will not be necessary to make out Credit Vouchers to cover the various cheques advanced. However, if the later procedure is necessary I shall be pleased to be advised.

Your obedient servant,

W. R. Murray
Indian Agent.

The Secretary,
Department of Indian Affairs,
Ottawa, Ont.

Dear Dr. McGill.

1st Oct 1935.

I have made the enclosed clipping from the "New Outlook" and I thought you would be interested in the fact that the members of the Calgary Presbytery visited the Morley School, and expressed themselves so freely in appreciation of the action of the Department of Indian Affairs in enlarging the School building.

I trust you are keeping well and fit for your strenuous duties!

Many kind regards

Yours sincerely
Arthur Barner

NEW OUTLOOK
SEP 25th
1935

The Calgary Presbytery held its September meeting at the Indian School at Morley, when the members were the guests of Rev. E. J. and Mrs. Staley. Deep appreciation was expressed of the fine new school and hospital erected during the past year by the Dominion Government.

October 5th. 1935.

Dear Mr. Barner,

Upon my return to the office today I find your letter of October 1st and enclosed clipping regarding the visit of the members of the Calgary Presbytery to Morley and their expressed approval of the new school and hospital.

We are always very pleased to receive letters written in appreciation of our efforts as it so often happens that it is only considered necessary to communicate with us when there is cause for complaint. Letters of commendation are therefore a source of tremendous comfort to the Department.

I have been confined to the house for the last few days with a severe cold but am able to be back in the Department today. I trust that you are enjoying good health.

Yours sincerely,

Reverend Arthur Barner,
Board of Home Missions

DEPARTMENT OF INDIAN AFFAIRS - CANADA

Office of Indian Agent,
Morley, Alta.,
October 2, 1935.

Dear Sir:

I beg to report that an attempt was made last night and again this morning to set fire to the Indian School here, by a school-boy, Jock Simeon, age 14.

This boy procured gasoline from Mr. Staley's garage, got matches from a boy who says he found them, whittled some shavings, and set them alight in the coal bin against the wall. He had a young boy help him, age 10, and not at all bright. Another boy about the same age acted as lookout. The fire was kindled last night and went out. This morning it was started again and burned through the wall boards of the coal bin, and if it had had another 15 minutes start, the building would have gone.

The local R.C.M.P. got the story from the boys this morning and in the presence of Mr. Staley, and myself, and we are all agreed that the best punishment as well as deterrent, would be for all three boys to be severely strapped, and the ringleader, Jock Simeon, be sent to the Indian School at Edmonton until he reaches the age of discharge.

The three boys are being kept in confinement pending your approval.

Yours obediently,

#W. BARR MURRAY,

Indian Agent.

M. Christianson, Esq.,
Inspector of Indian Agencies,

Sir:

I beg to attach hereto copy of a letter which I have just received from Dr. W. Barr Murray, Indian Agent at Morley, from which you will note that an attempt was made to set fire to the School. I was talking to Doctor Murray on the telephone this morning, and it now develops that another boy is implicated in the matter.

It is my intention to go up to Morley tomorrow afternoon, and on my return I shall report further to the Department.

Your obedient servant,

M. Christianson,
Inspector of Indian Agencies,
Alberta Inspectorate.

School-Morley, Alta. All. Arson.

Headquarters

Sub-Division

Detachment

1. On the 2nd. inst. the above named informed me that an attempt had been made to burn the Indian School at Morley and asked that an investigation be made;

Accompanied by the Indian Agent, Dr. W. Murray, a patrol left at once for the school and on arrival were taken to the scene of this fire. In the coal bin, on the south west corner of the building there was found evidence that there had been a fire. In the corner of the coal bin was found some cut chips and a small piece of burnt paper. The wall in the corner of the bin had been badly burnt the inside wall burnt through and the sills badly charred. The fire had started to eat into wall and the draft had carried the flames upward toward the first floor. The fire was out at this time, about 10.00 a.m., watch was being kept in the event of any smouldering in the inside timbers.

2. This is the old part of the school and the wood wall comes below the ground. There is a window in the coal bin. The covering boards had been torn away and outside the window were tracks of running shoes. Near the window on the ground were some more cut chips. These chips had been cut with a jack knife.

4. The amount of damage done was very small to the prompt action taken by the staff in putting fire out and about \$2.00 worth of lumber will repair damage done.

Mr. Stayley was asked if he had any idea of person responsible for setting the fire and he said a boy, named Jock Simeon, had admitted setting it and he had been assisted by another boy Paul Dixon.

Jock Simeon was questioned. He stated that he was 12 years and that he had set this fire so that he could have to go to school. On the night of the 1st. he took some gasoline from the school garage and attempted to start the fire but his match did not light it would not burn. When he got up in the morning he had taken two other boys with him. One, named Paul Dixon, stayed outside the furnace room to keep any person from coming along so that they could get away without being seen. Simeon took some kindling, poured the gasoline over it and then Paul Dixon who had lit the fire. Both boys were taken off to make a draft, and the Lefthand boy on his way up

File numbers must be quoted.

7. The time was about 7.30 when this fire was set. At 7.45 a.m. Mr. J. Hogarth, one of school staff, smelt smoke in the staff dining room and went to the basement thinking that the water heater was smoking. This is a very usual thing and at that time he did not think any thing unusual of the smoke. On his return the smell of smoke was much stronger and accompanied by Mr. Locke, another member of the school staff, they went to the basement again when they saw smoke and sparks coming from the S.W. corner of the coal bin. Steps were at once taken to put out the fire and with their prompt action no further damage was done and the fire got no further along inside of the walls. The doors were not locked into any of these rooms and the pupils had free access to this part of the building.

8. Paull Dixon stated that he had assisted the Simeon boy in the morning to start this fire. Simeon had given him the matches to light the fire. Dixon's age is ten years and there is no doubt but that Simeon being an older boy was the leader of this party. The Left Hand boy acting as the Look Out had nothing to do with the setting of the fire but was only acting on the instructions of the older boy.

9. Both of the small boys connected with this are well spoken of by their teachers and as yet never mixed in any mischief of any serious nature.

10. The Simeon boy has a very low mental rating, and is considered not very bright by his teachers. He is of a sullen manner and when reprimanded tends to sulk.

11. The Indian Agent pointed out that if this fire had started the night before it would of been very serious and no doubt if the school had burnt some of the children might of been burnt to death. This boy did not seem to consider this and stated so. Dr. Murray is recommending to the Indian Dept. that this boy be transferred to the Indian School at Edmonton. The other two boys will be given their cane for their part in the affair.

12. Dr. Murray and Mr. Stayley consider that sending this boy to Edmonton and having him attend the school at that point would be much better and have a more lasting effect on the boy than any other punishment. The school at Edmonton is a fire proof building and he will have no chance to repeat his offence. There is no doubt but this boy planned this fire and took much time to make his plan successful.

13. In the p.m. of yesterday's date Oct. 1st. the parents of this boy were warned and a meeting was held at the Indian Agency where the whole matter was explained to them. This patrol was made by private car.

14. Further report will be submitted when the Dept. decide on the transfer of this boy to Edmonton

INDIAN RESIDENTIAL SCHOOL
UNITED CHURCH OF CANADA
REV. E. J. STALEY, PRINCIPAL

MORLEY, ALTA.
Aug, 8th. 1935.

Mr Christianson,
Dept. of Indian Affairs,
Calgary.

Dear Mr. Christianson,

As a result of what transpired at your investigation Saturday into the series of efforts to set fire to the school I wonder if you would be willing to suggest to your Department the following.

That the punishment in the cases be as follows, that the boys concerned be given a severe strapping but that action be suspended on sending them away for this offence.

I am quite prepared to accept full responsibility for their future conduct providing only that the authority be placed in your hand to take immediate action should any similar difficulty arise with these or any other pupils.

This request is of course my mature judgment on the matter and I would ask that any other requests be negatived.

May I thank you for considerations given during the course of your inquiry.

Yours truly,

E. J. Staley

PE CALGARY, ALTA., October 7th, 1935.

IN YOUR REPLY REFER TO
No. 409-11B.
ALSO TO DATE OF THIS LETTER

Sir:

I beg to attach hereto police reports on the attempted arson at the Morley Indian Residential School by some boys there. I am aware that the Department receive these police reports, but in case these have not been received as yet, I am forwarding them to you.

At the request of the Agent and the Indians I went up to Morley on Saturday afternoon and met the Band at the Agency, and the Indians themselves were very much worried over what had taken place and to explain it in the Indians' way they stated that they blamed themselves for this having happened as they had not trained their children properly before sending them to school, and during the time they were there, and that the boys would not have taken this action had they (the parents) been more strict with them. The Indians requested me to point out to the Department they did not want the boys sent away from the reserve to another school and that they would do everything in their power to see that the children behaved in future, and that they would talk to them and warn them. If anything of this nature were ever attempted again, the Indians were prepared to suffer the consequences, but they were quite confident it would not happen again. I am attaching hereto a letter from Mr. Staley, the Principal, who is of the same mind, and I concur with him in his opinion that the children should be let remain there. The Stony Indians are a very law-abiding lot, and as I have said before they feel the matter keenly, and if the boys are soundly strapped either by the Principal or the Parents in the presence of the Indian Agent, I feel this should suffice. I would ask that I be directed as soon as possible in this connection.

Your obedient servant,

The Secretary,
Dept. of Indian Affairs,
OTTAWA.

Sir:

A request has been received, from the Principal of the Morley Indian Residential School, to be supplied with 6 school desks for pupils in the 7th and 8th grades and 6 school desks for pupils in the second and third grades.

I would request that you ascertain definitely from the Principal the size and type of desk he requires and arrange for the purchase. It would be advisable, in order to have uniformity in the seating equipment, that the new desks be of the same type as those at present in the classroom.

After the purchase has been made, please forward an itemized account, in triplicate, properly certified, covering the cost.

Your obedient servant,

T. R. L. MacInnes

119-1-5.

Ottawa, October 15, 1935.

Sir:

I have your 409-11 B of the 4th and 7th instant, with attached correspondence, relative to the attempt that was made by certain of the pupils of the Morley Indian Residential School to set fire to the building.

The Department considers that this is a very serious matter and that punishment should be administered to the boys who made the attempt to set fire to the building. It is noted the Principal recommends that the boys be given a severe strapping instead of having them placed in other institutions and that you concur in this action; also that you concur with him in his opinion that the boys be allowed to remain at the Morley School. It is noted, further, that the Principal is prepared to accept full responsibility for their future conduct.

The boys concerned in an attempt to set fire to the building should receive adequate punishment, which will serve as a deterrent to them and as an example to the other pupils, and this should be administered either by the Principal or the parents, in the presence of the Indian Agent. The Department will approve of their punishment, as recommended by the Principal and yourself, rather than having the boys concerned sent to a reform school. This action is taken in view of the wishes of the Indians of the Stony Band and also the fact that the Principal has accepted full responsibility for the future conduct of these boys. The punishment should be carried out at the earliest date and all pupils should be informed that any further attempt on the part of anyone to damage the building by fire or otherwise will be more severely punished by having the pupil responsible committed by a magistrate to a term in a reform school.

Your obedient servant,

T. R. L. MacInnes,
Acting Secretary.

JAN 20 1936

119-1-5
Morley, Alta., Jan. 16, 1936.

Staley
Sir:-

At the request of Mr. Staley, I beg to ask authority to change some radiators at the Residential School.

There are two radiators in the kitchen which are never turned on as the large range there keeps the room warm enough.

In the sewing room there is one radiator on the east wall, which does not heat the room enough. This morning I found the sewing instructress out in the kitchen to warm up.

remove one
Mr. Staley wishes to have a plumber out to take the two radiators out of the kitchen and put one in the sewing room. The other radiator might be turned over to the plumber in part payment of his work, or kept on hand for some other use in the future.

I beg to recommend that the change be made.

Your obedient servant,

W. B. Murray

Indian Agent.

Ottawa, January 22, 1936.

Dear Sir:

I have your letter of the 16th instant, relative to the request of the Principal of the Morley Indian Residential School to change two of the radiators in the kitchen and have one installed in the sewing room and the other kept on hand for future use.

In reply I have to say that the Department will approve of your arranging with a plumber for the removal of one of the radiators in the kitchen and its installation in the sewing room. It is considered, however, that the other radiator should remain in the kitchen where it may be required for future use.

No unnecessary expense should be incurred in the removal of the radiator and its installation in the sewing room. After the work has been completed, you should forward an itemized accounts, in triplicate, properly certified, covering the cost.

Yours truly,

A. F. MacKenzie,
Secretary.

OFFICE OF
INDIAN AGENT

JAN 21 1936

RECORDS

Morley, Alta, Jan 15th, 1936

Sir;-

I beg to report that the grate in the kitchen range at the Morley Indian Residential School completely burned out and it was necessary to have it replaced immediately, at a cost of \$7.50, purchase being made through the Hall Hardware Co., the only firm stocking this article here. The lining of the fire box is also very badly burned and in need of replacing, the retail cost of which I find on enquiry would be approximately \$21.00. I am informed by the Rev. Principal of the school that the Alberta Iron Works have a pattern for these linings, and could make them up for \$7.50. However, this may be slightly underestimated, and I beg to request authority to expend (if necessary) \$10.00 for this, and authority to pay for the grate already purchased, \$7.50, making a total authority of \$17.50.

It is understood that the linings, if authorized, will be purchased at the smallest cost possible.

Your obedient servant,

W. B. Murray

Indian Agent.

Dear Sir:

I have your letter of the 15th instant, regarding the condition of the kitchen range at the Morley Indian Residential School. It is noted that you have arranged to have the grate replaced, at a cost of \$7.50. You may incur the expense required in renewing the lining of the firebox. The Department notes that the cost of repairs to the range would be approximately \$17.50. After the work has been completed, please forward an itemized account, in triplicate, properly certified, covering the expense in repairs to the range.

Yours truly,

A. F. MacKenzie,
Secretary.

MAR 5 1936

Sir:

I beg to inform you that Mr. Staley, the Principal of Morley Indian Residential School, was in the office here today and he informs me that the compressor in his refrigerator is out of order, and that it will be necessary to get a man to come up from Calgary to have it repaired. As immediate action was necessary he was getting the man to go out with the understanding that if the Department refused to pay the bill, it would have to be met by the school. I trust, however, that the Department will give this consideration.

Mr. Staley also informed me that the cesspool was out of order and they have baled it out and tried to get it in working order, but have been unable to do so. Mr. Snyder from the city here is at present out there attending to the cesspool at the R. C. M. Police Barracks so I got him to do the other work as well. Mr. Staley evidently knew nothing about this when he came in.

Your obedient servant,

M. Christianson,

INSPECTOR'S OFFICE

PB CALGARY, ALTA., May 13th, 1936.

Dear Doctor McGill:

I have the honour to report on an inspection of the Indian Residential School at Morley. I must say I have very little to report on this institution, as when the new addition was put on the school last year it was repaired throughout, and is in first class shape in every way, well furnished and well kept throughout. The furniture and fixtures are well arranged and well taken care of. The machinery is all in good shape.

There were 78 children present at the time of my visit. I believe everyone was under the impression that with the addition to the school it would take care of approximately 100 pupils. This did not work out, and from personal observation I would say it actually only takes care of the overflow under the previous arrangement. In going over the school and discussing it with Mr. Staley, I believe he should only have from 80 to 82 children in this institution at any one time.

The children all looked well and there was no sickness in the school at that time.

Doctor Harold W. McGill,

Deputy Superintendent General,
Department of Indian Affairs,
O T T A W A .

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

- 2 -

The school has 40 head of cattle, 22 of which are cows, and they were milking 14 at the time of my visit, so the children are getting all the milk they require. They also make butter.

They have 9 horses at the school, 9 pigs and some chickens.

The Department are well aware that this school have no land of their own, and have to buy all the feed for their stock, &c. Some time ago I was advised by the Department that Lot 6 and part of Lot 7 in the Morleyville settlement that was used by the old MacDougall orphanage might be available. I sincerely hope it will be possible to procure these lots for the use of the school, which will give them just the amount of land they require for their farming operations.

Their gardening activities never meet with much success owing to frost during the summer.

BUILDINGS:-

As the Department are aware, the two classrooms are separate from the school in another building. This building is in A1 shape, except that it requires exterior painting. No paint has been put on the building since it was built several years ago, and the sooner this is done, the better. The shingle stain has practically been all washed off and the same may be said of the paint on the siding.

The outbuildings are not very pretentious and these also require painting. Mr. Staley informed me that if the paint for these buildings was supplied by the Department, it could be put on by

Indian Affairs. School Files.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

- 3 -

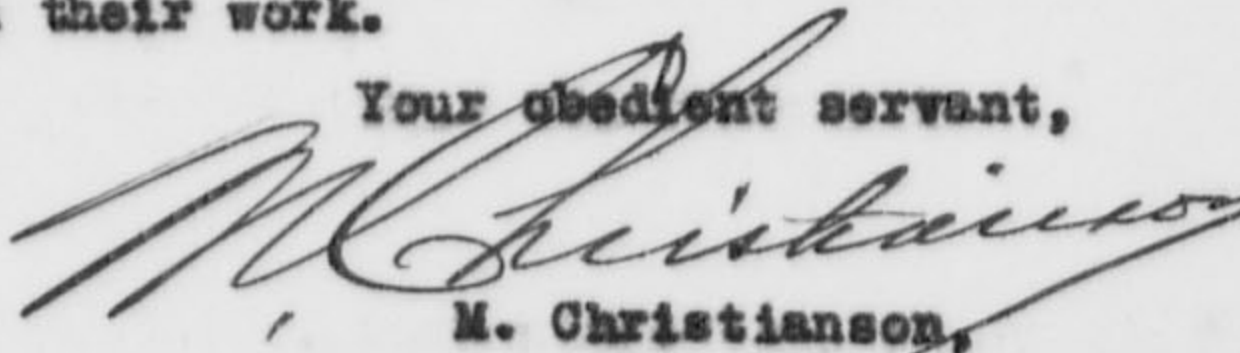

the Staff with the aid of the older boys, with no cost to the Department for labour. If any funds are available for this, I can give the Department an estimate of the amount of paint required.

The girls are getting a fairly good training in domestic science, and I always go into this phase of the work very thoroughly. The boys are getting very little outside training, except for doing the chores around the school and a little gardening. A certain amount of repair work is done in the shop by the older boys. This matter came up last December and I have a letter from the Department, No. 119-1-6 of December 27th, last, asking me for the approximate cost of tools required. This is attached to this report.

I also went into the matter of the food the children are receiving, and I am of the opinion that they are well fed and clothed, and there is an ample supply of clothing for both boys and girls. I would say this institution is well run in every way.

The Staff consists of Rev. E. J. Staley, Principal; an engineer, labourer, male teacher and 6 lady members. There has been only one change in the personnel of the staff during the year. Mrs. Locke, formerly a teacher, is now Matron, and there is a new lady teacher on the staff. The Department have the school inspector's report on the classroom work and I would say from my own personal observation that the teachers are quite satisfactory and are interested in their work.

Your obedient servant,

M. Christianson,
Inspector of Indian Agencies,
Alberta Inspectorate.

The school has 40 head of cattle, 22 of which are cows, and they were milking 14 at the time of my visit, so the children are getting all the milk they require. They also make butter.

They have 9 horses at the school, 9 pigs and some chickens.

The Department are well aware that this school have no land of their own, and have to buy all the feed for their stock, &c. Some-time ago I was advised by the Department that Lot 8 and part of Lot 7 in the Morleyville settlement that was used by the old MacDougall orphanage might be available. I sincerely hope it will be possible to procure these lots for the use of the school, which will give them just the amount of land they require for their farming operations.

Their gardening activities never meet with much success owing to frost during the summer.

BUILDINGS:-

As the Department are aware, the two classrooms are separate from the school in another building. This building is in A1 shape, except that it requires exterior painting. No paint has been put on the building since it was built several years ago, and the sooner this is done, the better. The shingle stain has practically been all washed off and the same may be said of the paint on the siding.

The outbuildings are not very pretentious and these also require painting. Mr. Staley informed me that if the paint for these buildings was supplied by the Department, it could be put on by

the Staff with the aid of the older boys, with no cost to the Department for labour. If any funds are available for this, I can give the Department an estimate of the amount of paint required.

The girls are getting a fairly good training in domestic science, and I always go into this phase of the work very thoroughly. The boys are getting very little outside training, except for doing the chores around the school and a little gardening. A certain amount of repair work is done in the shopeby the older boys. This matter came up last December and I have a letter from the Department, No. 119-1-6 of December 27th, last, asking me for the approximate cost of tools required. This is attached to this report.

I also went into the matter of the food the children are receiving, and I am of the opinion that they are well fed and clothed, and there is an ample supply of clothing for both boys and girls. I would say this institution is well run in every way.

The Staff consists of Rev. E. J. Staley, Principal; an engineer, labourer, male teacher and 6 lady members. There has been only one change in the personnel of the staff during the year. Mrs. Locke, formerly a teacher, is now Matron, and there is a new lady teacher on the staff. The Department have the school inspector's report on the classroom work and I would say from my own personal observation that the teachers are quite satisfactory and are interested in their work.

Your obedient servant,

M. Christianson
M. Christianson,

Inspector of Indian Agencies,
Alberta Inspectorate.

EXD.

Ottawa, May 22, 1936.

Dear Sir:

I have your 409-11 of the 13th instant, reporting on your inspection of the Morley Indian Residential School. The Department is pleased to note that conditions, generally, are satisfactory.

With reference to transferring Lot 8 and part of Lot 7 in the Morleyville Settlement to this Department, for use of the school, I have to say that this matter is now before the Department of the Interior. We are advised, by the Lands Branch of that Department, that they have not yet been instructed what action to take. It is hoped to have the transfer arranged at an early date, and you will be advised when a decision has been made.

Regarding the exterior painting of the building in which the two classrooms are located, I would inform you that the sum of \$300 is available in the Appropriation for the current fiscal year, for paint and miscellaneous repairs at this school. The Department will approve of you arranging for the purchase of the paint, from a firm on the approved list, to have the exterior of this building painted. Should there be a sufficient amount available after obtaining the paint for the classroom building, you may utilize the same in the purchase of paint for the outbuildings. It is to be understood that all labour will be carried out by the staff, with the aid of the older boys, without cost to the Department. I would suggest that the painting of the classroom building be satisfactorily completed before incurring any expenditure in painting the outbuildings.

The Department has also the list and cost of the tools required for the manual training of the boys. I return the list herewith, and you may arrange for the purchase of the various items mentioned therein, at a cost not to exceed \$132. You should obtain an itemized account, in triplicate, covering the cost, which you should attach to proper voucher forms, certify in the usual manner and forward for payment. You should also obtain itemized accounts for the quantity of paint, oils, etc., certify and forward for payment.

Encl.

Yours truly,

M. Christian
M. Christian, Esq.,

INSPECTOR'S OFFICE

PB CALGARY, ALTA., July 9th, 1936.

Sir:

I beg to bring to the attention of the Department that on May 22nd authority was given to expend \$300.00 in the purchase of paint for the outbuildings and classrooms at the school at Morley. I have today forwarded a voucher for \$276.30 covering the total cost of paint for all outbuildings and classrooms. The work was done by the older boys and the staff and they have made an excellent job of it. I was there a few days ago.

There is still a balance of approximately \$24.00 which may be used for some other decorating around the school if required. I trust this will be satisfactory to the Department.

Your obedient servant,

M. Christianson

(2)

If the well does require cleaning it is impossible to quote an accurate figure, but we estimate that it should be from \$25.00 to \$50.00, unless a real caving proposition, which we think very unlikely, is met with. This part of the work should really be done by day work.

We offer to furnish and install a pumping unit complete with $1\frac{1}{2}$ H.P. motor, $3\frac{1}{4}$ " working barrel, 4" sand point, 2" drop pipe, 1 $\frac{3}{8}$ " wood pump rod with mall. couplings, $1\frac{1}{2}$ " discharge pipe from pump to tank, with water Check and Gate Valves; complete with automatic switch, relief valve, also extra relief valve on the line, and have a capacity of 775 gallons per hour, for the sum of \$475.00 (four hundred and seventy five dollars).

This unit will be double the capacity of the existing one.

Yours very truly,

Snyder & Co.

Gentlemen:-

With reference to the pumping system at the Morley Indian School, we find that there are several reasons for this pump not being able to furnish sufficient water for the school, as follows:

1st:- The cylindr valves on this pump are not in good order and the sand point also is very likely clogged, which condition will reduce the quantity of water to some degree.

2nd:- We know that there is some sand trouble in the well, and it is possible that it will require cleaning out. We cannot, however, say definitely that this is so until the pump is removed and the well examined.

3rd:- We find that what we consider to be the main cause is, that the school has been enlarged considerably, also that a modern Laundry has been installed; so that the water requirements are very much more than the present pump is able to handle, as this is only a small outfit which is used for ordinary residence purposes. The pressure tank is, however, of good size--4' by 16'.

In view of the above conditions, we consider and recommend that this well should be examined, and if found to have an accumulation of sand or silt that it be removed, and then a pump of much larger capacity be installed. We are pleased to quote you as follows:

We offer to remove the cylinder and piping from the well and find if the well requires to be cleaned, for the sum of \$25.00 (twenty-five dollars).

PB CALGARY, ALTA., July 14th, 1936.

IN YOUR REPLY REFER TO
No. 409-11A.
ALSO TO DATE OF THIS LETTER

Sir:

I beg to inform you that the Morley School have been having some difficulty with a shortage of water, and it appears that the present equipment for pumping, and the cylinder that is in the well, are simply too small for the quantity of water now used by the School since the addition was built. Mr. Snyder from Calgary here installed the pumping outfit at the time the school was built, and in passing there a few days ago he called in at the school and Mr. Staley asked him to examine the equipment and report the matter to me. I am attaching hereto a letter which Mr. Snyder handed to me.

I might say for the information of the Department that the well is only 40 feet deep, and apparently there is nothing wrong in the well itself, but the pumping outfit, as I have said before, is too small for the amount of water it is called upon to handle.

Your obedient servant,

M. Christianson

EX'D.

Ottawa, July 20, 1936.

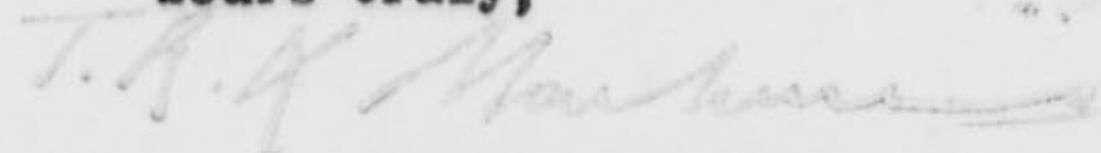

Dear Sir:

The Department is in receipt of your letter of the 14th instant, with reference to the pumping equipment at the Morley Indian Residential School.

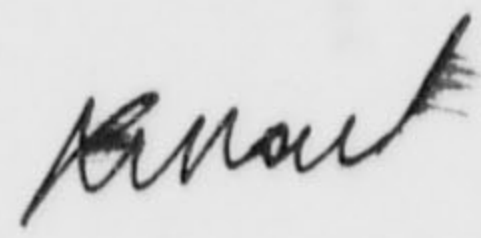

You may arrange for the removing of the cylinder and piping from the well, at a cost of \$25. If the well requires cleaning, you may also expend an amount for this purpose, not exceeding \$50.

No provision was made in this year's Appropriation for a new pumping unit for this school and, as our funds are limited, it will not be possible at the present time to consider Mr. Snyder's offer to install a new pumping unit, at a cost of \$475.00.

Yours truly,

T. R. L. MacInnes,
Acting Secretary.

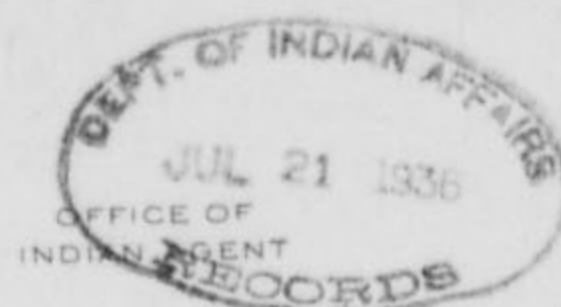

M. Christianson, Esq.,
Inspector of Indian Agencies,
Calgary, Alta.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

119-1-5
Morley, Alta., July 17, 1936.

Sir:-

I have been informed by Rev. E. J. Staley, principal of the Residential School, that there is almost no water available in the school well. This he considers is due to failure of the source of supply rather than a need of cleaning.

The well is drilled down to shale and as the depth of the shale is not known, further drilling is not considered feasible. The C.P.R. have an electric pump about 500 yards from the school used to pump water from the river to their tank at the station. Mr. Staley suggests that an arrangement might be made with the railway whereby their pump could be used to pump water from the river through a pipe line to supply the school, thus assuring an adequate supply at all times.

If the drought continues as at present, it will not be possible to open the school at the usual time owing to lack of water. I would recommend that a survey of the situation be made immediately by a member of the Water Branch in Calgary who could give the best solution of the problem.

Your obedient servant,

W. B. Murray
Indian Agent.

Ottawa, July 27th, 1936.

Dear Sir,-

The Indian Agent at Morley, Alta., reports that there is almost no water available in the well at the Morley Indian Residential School.

I would appreciate if you would arrange to have your engineer at Calgary visit this school at once and report to the Department what he considers is required, giving an estimate of the cost.

Yours truly,

OFFICE OF
INDIAN AGENT

Aug.
Morley, Alta, ~~July~~ 13th, 1936

Sir;-

I enclose herewith, Voucher No. 93, amounting to \$14.80, infavor of the Sherwin-Williams Co., of Canada Limited, for paint purchased by the Principal of the Morley Indian Residential School, a year ago, and used on the concrete walls of the school building.

Mr. Staley having ordered the material himself, the invoice was turned over to him on its receipt here. Inadvertently it was lost sight of until a letter of the 8th instant, was received from the Sherwin-Williams Co., by this office. On taking the matter up with Mr. Staley, he assures me the paint was used as mentioned above, and requested that the account be paid from an unexpended balance, authorized by Department letter No. 119-1-5, to Mr. Christianson, dated, July 14th, 1936.

If the foregoing procedure is not in order, please return the voucher to me and I shall instruct Mr. Staley that it will be necessary for him to pay the account from school funds.

Your obedient servant,

W. Barr Murray

for, W. Barr Murray,
Indian Agent.

Report
on
Water Situation at Indian Residential School
Morley, Alberta.

1. Purpose of Report.

A letter dated July 28, 1936, Ottawa file 41167-W, was received from the Director requesting that an investigation be made of the domestic water situation at the above-named school and that an estimate be made of the cost of rehabilitating the water supply plant.

This office was afterwards informed by the Inspector of Indian Agencies that an amount of \$75 had been appropriated for repairing the well machinery and cleaning out the well. It was intimated that Mr. R.W. Snyder of Lepper & Co., Plumbers, was to visit the school and make repairs. Consequently, the writer proceeded to Morley on August 4 to survey the situation alone. The main visit was made on August 10 with Mr. Snyder when temporary rehabilitation was made.

2. Causes of the trouble.

The working head had to be disassembled and the pipes, cylinder and sand point removed. The cause of trouble was at first very obscure. Decisions had to be made on the spot as to possible remedies. It was decided to install a 3" cylinder. The leather washers were partially worn and leaked badly. The sand point screen holes were partially filled with oil. The six-inch conical point of the sand point had been driven into the shale. None of these difficulties, however, explained the total inability of the pump to raise practically any water, even when working 24 hours per day. It might be mentioned that on August 4 the writer caused the pump to be activated for four hours. As far as could be noted very little water was delivered to the tank, although the pump head leaked water to the floor at every stroke. The principal stated that it would be absolutely impossible to open the school until the water supply was assured. This decision was concurred in fully by the writer. The pump had been activated for 24 hours per day in order to obtain a very limited amount of water for limited purposes.

However, after a full examination of the equipment (the 2½" cylinder was scored) the well was baled out. It was found that during the last few years 10 gallons of oil had entered the pipe from the working head. Seven feet of pipe is under water level and probably only a foot or so of the sand point was in water. Although this seemed to be the primary cause of lack of supply, it was considered advisable to leave the 3" cylinder in the well. The question of general inability of the plant to supply sufficient water will be dealt with at a later point in this report. The actual water supply appears to be unlimited.

Indian Affairs. School Files.
(RG 1C, Volume 6357, File 757-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

3. Temporary Removal of Cause of Trouble.

As mentioned above a new 3" cylinder was installed, under the 2 $\frac{1}{2}$ " pipe. The sand point was removed as it was considered that there is no sand present now to interfere with the working of the pump. The oil was entirely removed from the pipe. The working head was replaced, together with the pipe and valves, and the whole reconnected with the pressure tank.

The pump was started, and in three hours the tank was pumped from a state of emptiness to full capacity (55 pounds pressure). The total amount pumped in amounted to about 900 gallons, or about 300 gallons per hour.

4. Ultimate Necessary Activities.

(a) Present Physical conditions

Although the pump was working well after repair, it does not follow that the difficulties are overcome. This plant (working head and drop portion) was repaired during the winter. Frequent repairs have been and will be necessary. The fact is that the plant is entirely inadequate to provide the requirements of the present capacity of the school. Too much stress cannot be put on this statement. The $\frac{3}{4}$ h.p. motor is undoubtedly doing more work than it should do. The working head is entirely too small to provide sufficient water. It will surely again break down due to overwork. Although it may last a short while in its present condition, the whole plant should be renovated, as breakdowns may occur at crucial times, such as fire, when the school is full. This well is the only water supply available.

(b) Requirements of the School.

The population of the school, and Principal's house, together amount to about 100 people. A laundry, which is in use every day, has been added lately, together with a 40% or 50% addition to the main building. At a modest requirement of 30 gallons per capita per day the school should use at least 3000 gallons per day for domestic purposes, with some addition for lawn watering etc. A fair total estimate of total requirements would be 3,500 gallons. Even this amount is less than that estimated for certain other schools of similar population, there being no stock to water.

(c) Present Plant.

The present plant consists of a Fairbanks-Morse enclosed working-head about 18" by 12" activated by a $\frac{3}{4}$ h.p. motor, installed 5 or 6 years ago. This working-head, No. 9, is not manufactured now. The rated capacity is 275 gallons per hour, although it was apparently increased to 300 gallons by the 3" cylinder on August 10.

Indian Affairs. School Files.
(RG 1C, Volume 6357, File 757-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

At least 12 hours continuous pumping is required at present for a day's supply. This is too long. The time occupied should not be for more than 4 or 5 hours. The present rate is 50 strokes per minute.

The pressure tank is 16' by 4' horizontal type. At full capacity (34½ inches at 57 pound pressure) it holds about 950 gallons. Thus it needs to be filled four times per day to provide for requirements.

It seems evident that another tank should be provided. The lean-to building, with 3' of concrete basement and 5' of frame, is 20½' by 11½' inside measurement with the tank at one side and the pump near the centre. It would be necessary to extend the building westward about 8' for installation of a second tank. The concrete wall, 3' high, could be left intact except for a door. The roof would be extended at a flatter angle than at present.

(d) Water Supply for Principal's House.

The house occupied by Rev. Mr. Staley, Principal, is about 600 feet from the school. The water supply for the house is provided by means of barrels filled at the school and carried by team to the house. This is obviously a laborious method. A pipe could be laid from the school to the house and proper plumbing facilities installed. An alternative plan would be the sinking of a well at the house and installation of a pumping system.

A rough estimate of cost of taking water by pipe line to house, including cost of pipe, would be \$600 exclusive of plumbing. This is considered to be expensive. The most economical method is to excavate a well (drillers dislike drilling in gravel) within three or four feet of the house basement. A small extension 6' square could be constructed from the basement, directly connected with it, and the machinery installed therein. The soil consists of coarse gravel for over 20 feet depth.

5. Estimate of Cost of Plant Extension.

1 Pressure Tank 5/16 inch shell, 2" openings, 1250 gallons, 3000 pounds with pipe, valves	etc... 550.00
1 working-head and motor, capacity 800 gallons per hour.....	350.00
Extension of housing building from 21' by 11' to 21' by 18'.....	300.00
Provision for water supply at house by well	
(a) well machinery.....	300.00
(b) excavation of 4' square well.....	100.00
(c) housing.....	100.00

1700.00

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The water system of the school has gradually been repaired because of inadequacy of the water supply plant as the school was enlarged, until the limit is passed. Consequently provision should be made for a real extension as described above.

6. The Pumping Plant at the Agent's House.

Dr. Murray can obtain only a small amount of water at each pumping. Apparently the syphon at the well leaks as he can only lower the well to the outlet pipe. This pipe is upright from near the bottom of the well for 2 feet. It then bends westward and horizontally to flow downhill to the house. This, again, needs repair, as only a few gallons can be pumped at a time.

7. R.C.M. Police Barracks.

The writer's attention was called by the Agent, Dr. Murray, to the condition of the well at the bungalow which serves as residence and barracks for the Mounted Police.

This well, 4' square, is excavated underneath the kitchen basement. It is concreted for 10 feet. The base of the concrete rests on shale. The portion of shale immediately below the concrete wall was left intact, but that within and below the concrete wall was excavated in the form of a seepage cavity in the shape of a bowl with a capacity of 20 or 25 gallons.

A good pumping plant is installed over the well on the basement floor. The water appears and disappears, apparently being influenced by the height of the Bow river, although not likely. An expenditure of \$50 would increase the capacity of the cavity to a sufficient amount to provide water supply for the household. It could be deepened from a maximum depth of less than 2½' in the bowl, to say 4' by 4' by 4', i.e. a square cavity. The concrete walls could be extended downward by an orthodox method.

8. Recommendations.

(a) Provision in the 1937 estimates for a complete renovation of the Water Supply at the School	\$1200.00
(b) A well or a pipe line at the Principal's house including well machinery and extension to basement but excluding plumbing fixtures	500.00
	1700.00
15% for contingencies	255.00
Total for (a) and (b) & contingencies	\$1955.00

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-5, part 4)

ARCHIVES PUBLIQUES
CANADA

Not for
Estimate
1937-38

(c) Further excavation of well at Police residence and barracks\$50.00

The last estimate is not to be included in the Indian Department estimates.

9. Plans.

A sketch plan of the layout of buildings accompanies this report under separate cover. In addition, comparative levels were also obtained, and are shown in the form of an elevation on the plan. If it be decided to go ahead with this work, more detailed plans can be prepared in preparation for next year.

RECORDED

R

Sir,

In further reference to your letter of the 27th ultimo, regarding the condition of the water supply at the Morley Indian Residential school, I enclose herewith a report dated August 19 by Mr. P. A. Fetterly on this subject.

The reports recommends that extensive repairs be made to the pumping equipment at the school, estimated to cost about \$1400, and that a new water system be provided for the Principal's house at an estimated cost of about \$600, this work to be carried out next year and suitable provision be made in that year's estimates to cover the cost.

LaBrosse

Morley, Alta, Sept 9th, 1936

R

Sir;-

Enclosed herewith you will find account for \$15.00, also boiler inspection certificates for the two boilers installed by the Anderson Plumbing Co, at the Morley Residential School, when the new addition was built there.

In the absence of Dr. Murray, and in talking it over with Mr. Staley, the principal of the school, we were of the opinion that in taking over the boilers after installation, there would be no expense.

You will note on the certificate the repairs necessary in accordance with the Boilers Act. These I would think should have been attended to before the job was accepted, and according to Mr. Staley, the blowing down of the boilers was done by a small hose, and he was informed by the Inspector that it could not be done properly in that way.

I realize the certificates are to be placed in the boiler room, but thought it best to forward them along with the account to you, for your perusal and advice.

Your obedient servant,

W. Barr Murray

EX'D.

Sept. 15, 1936.

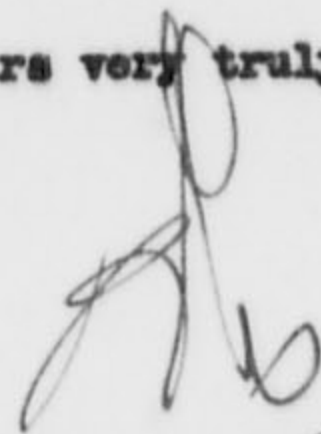

Dear Sir,-

I am enclosing herewith copy of letter which has been received today from the office of the Indian Agent at Morley, with reference to the inspection of the boilers in the Morley School.

I am also enclosing the Boiler Inspector's Certificates, which I would ask you to please return to the Principal, but you will notice on these certificates that the Inspector remarks regarding the water column, also the Agent's remarks regarding the blowing down of the boilers.

You will remember that Mr. Walker of the Dunham Heating Co. of Calgary was good enough to look after the installation of the heating system for us in this building last year, and I would ask you to kindly phone him, giving him the particulars as reported by the Boiler Inspector, and advise me if the request is necessary.

Yours very truly,

A. F. MacKenzie.

OFFICE OF
INDIAN AGENT

119-1-5

Morley, Alta, Oct 22nd, 1936

Sir;-

On the 9th ultimo, I forwarded to you Boiler
Certificates for the Morley Indian Residential School,
for your perusal.

The Rev. Principal of the school advised me these
have been returned to him, but is anxious to know if he
could get authority to have the repairs as were mentioned
on the certificates, attended to before the severe weather
sets in. These were as follows:-

Water column to be raised to comply with regulat-
ions. $\frac{1}{2}$ " drain valve fitted in bottom of water column.
Requires good blow down.

It is hard to arrive at what this may cost, but
outside of bringing a man from Calgary to perform the
work, I would think the expenditure would be small. I
would recommend that Mr. R. W. Snyder of 919 - 4th Ave W,
be allowed to do this work, if authorized.

Your obedient servant,

W. B. Murray
Indian Agent.

Ottawa, October 27th, 1936.

Dear Sir,-

With reference to your letter of the 22nd instant, you may arrange for the following work at the Morley Indian Residential School recommended by the Boiler Inspector:-

"Water column to be raised to comply with regulations. $\frac{1}{2}$ " drain valve fitted in bottom of water column. Requires good blow down."

The cost of the above should be kept as low as possible and you should consult Inspector Christianson regarding who should be employed for this work.

OFFICE OF
INDIAN AGENT

119-1-5

Morley, Alta, Nov 6th, 1936

Sir;-

Rev. E. J. Staley, Principal of the Morley Indian Residential School, has asked that he be supplied with 10 storm sash for the sun porch part, of the addition to the school.

The size of the windows would be approximately, 42 $\frac{1}{2}$ X 62 $\frac{1}{2}$ inches, O.S.M., 9 lights; cost, not more than \$40.50, F.O.B., Morley. (The material 1-3/8 material)

Mr. Staley explains that it is very hard to heat the sun porch during the extreme weather due to the fact it was not supplied originally with storm sash, and they find it necessary to remove their plants etc from the room very often on account of the cold.

I shall be pleased to be advised regarding this.

Your obedient servant,

W. B. Murray
Indian Agent.

FEB 19 1937

RECORDS

301 - 8th Ave. West.
Calgary, Alta. Feb. 15, 1937.

The Secretary.
Department of Indian Affairs.
OTTAWA.

Sir:

For the concrete work of the Indian hospital, and the enlarging the Indian school, at Morley, Alta, in 1934 & 1935, I had the Department's concrete mixer sent from British Columbia for that work. On the completion of those jobs I stored it in the Agency shed at Morley, where it is at present.

I have recently received a letter from Mr. C.S. Webb, District Chief Engineer, Dominion Water & Power Bureau, Vancouver, B.C., asking that the concrete mixer be shipped, prepaid, to Mr. C.S. Corbould, Department Engineer, Kamloops, B.C., and asking that shipment be made about April 1st.

To-day I saw Mr. Schmidt, Inspector of Indian Agencies, Calgary, on the subject, and it was suggested that before shipping the mixer back to Kamloops it would be well first to ascertain if it is the Department's wish that this be done, or whether the mixer should be retained in Alberta for possible requirements in this Province. As I am familiar with all the circumstances, Mr. Schmidt thought I had better write you direct, and receive your instructions in the matter.

Yours faithfully

E. Gardner-Smith

INDIAN RESIDENTIAL SCHOOL
United Church of Canada
Rev, E. J. Staley

Morley, Alta.
March 5th, 1937

Dr. W. Barr Murray,
Indian Agent,
Morley, Alta.

Dear Dr. Murray:-

Would you be good enough to ask the
Department for the following material to be used for paint-
ing, decorating and repair work this spring:-

1. 500 ft. rough lumber for repairing barns.
2. 500 ft. flooring for jobbing work inside the building.
3. White paint for top walls and ceilings of small boys' dormitory, small girls' dormitory and three small dormitory rooms, also all of the window frames on the inside. For this about 6 gallons of white paint would be needed.
4. Four gallons of cream paint to use on the walls of small girls' dormitory, three staff rooms and upper section of girls' hall.
5. Three gallons of cream enamel for lower walls in big girls' dormitory and two sun-porches.
6. Two gallons of blue enamel to be used on the lower portion of the children's dining-room and the kitchen.
7. Four gallons of cheap green paint to be used in the basements.
8. Five gallons of clear varnish to be used on the woodwork and floors all through the building.

Thank you for your attention to the matter.

Yours very truly,

(Signed) E. J. Staley.

EX'D.

Ottawa, March 17, 1937.

Dear Sir,-

The Department is in receipt of your letter of the 11th instant, enclosing copy of letter received from the Principal of the Morley Indian Residential School regarding material required for repair work at that school.

Funds for the purchase of this material cannot be supplied until our appropriation for the fiscal year 1937-38 is available.

After April 1st, all our purchasing will be handled from a central office and it will, therefore, be necessary to give detailed information regarding any material for which a request is received. Please let me have more definite information regarding the 500 feet of rough lumber for repairing barns, also the 500 feet of flooring for work inside the building. The width and thickness of this lumber should be stated.

Yours truly,

T. R. L. MacInnes

OFFICE OF
INDIAN AGENT

Morley, Alta, April 2nd, 1937

Sir;-

I beg to acknowledge your letter 119-1-5, of the 17th ultimo, regarding material required for repair work at the residential school here.

In writing my letter of the 11th ultimo, it was understood that it would be necessary to wait until the appropriation for the fiscal year 1937-38 was available; but had in mind getting the necessary information to you, so that the work may be proceeded with as early as possible, after the estimates were passed.

The rough lumber for repairing the barns should be 1 x 6 inches: flooring, 1 x 2 $\frac{1}{4}$ inches, edge grained fir, to repair the floors inside the old part of the school.

Your obedient servant,

W. B. Murray
Indian Agent.

Memorandum:

The following materials are required in connection with painting, decorating and repair work at the Indian Residential School at Morley, Alberta.

500 feet rough lumber 1 x 6 inches for repairing barns.

500 feet flooring 1 x 2½ inches, edge grained fir, for repairing floors.

6 gallons flat white paint, first quality, for top walls and ceilings of dormitories, etc.

4 gallons cream flat paint, first quality, for walls, etc.

3 gallons cream enamel, first quality, for lower walls and sun porches.

2 gallons of blue enamel, first quality, for lower portion of childrens' dining room, etc.

4 gallons of cheap green paint for use in basements.

5 gallons of clear varnish, No 1 quality, for woodwork and floors.

Will you kindly arrange for the purchase of the above materials, which should be shipped addressed to,-

W. B. Murray, Esq., M.D.,
Indian Agent,

RECORDS

Sir;-

I have been requested by Rev. Mr. Staley, Principal at the Indian Residential School here, to get your authority to proceed with the repairs etc., as set out on Page 9, estimates, the fiscal year, 1937-38.

Repairs to plumbing, including boilers, and toilets. It is practically impossible to arrive at a probable amount regarding this, but every care would be taken in order that only necessary work be done. This work is covered by the amount asked for to look after the lumber repairs etc., as previously set out in the copy of Mr. Staley's letter, enclosed with my letter of the 11, ultimo.

*Build basement
Cement foundation*
\$500.00 {
Root Cellar:- Approximate size, 20' x 30', inside measure, and 10' high. The walls to be of concrete, and double; double roof and single floor. In this connection, Mr. Staley mentioned the root cellar at the United Church School, Edmonton Agency, excepting of course, the proposed cellar for his school is much smaller. The usual bins would be necessary. It is possible you may have suitable prints on hand for this.

\$450.00 {

Pumping Unit:- I believe this matter was fully taken up by Mr. Christianson, approximately last July, when temporary repairs was then authorized to the existing pumping unit. However, to insure a satisfactory water service, a new unit will be necessary; the one as at present is too small, and in a condition to expect continual expert servicing. I am enclosing herewith, copy of a letter from Snyder & Co., regarding the proposed new pumping unit, which may be of use to you.

I omitted to mention, that the present root cellar is in such a condition that everything in it froze solid, last winter.

Your obedient servant,

W. B. Murray
Indian Agent.

Ottawa, April 28, 1937.

Dear Sir,-

With reference to your letters of the 11th ultimo and 2nd instant, you may arrange for the purchase from firms on the approved list of the following supplies for painting, decorating and repair work at the Morley Indian Residential School:-

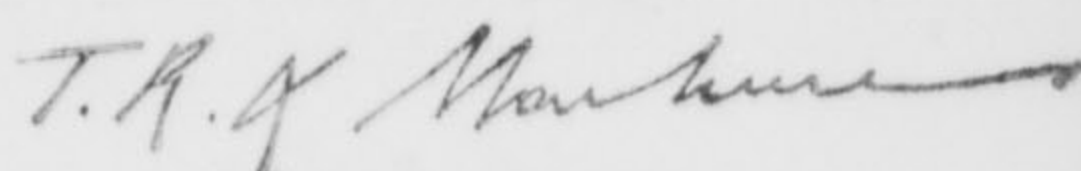

500 feet rough lumber 1 x 6 inches for repairing barns.

500 feet flooring 1 x 2½ inches for repairing floors.

6 gallons flat white paint
4 gallons cream flat paint
3 gallons cream enamel
2 gallons blue enamel
4 gallons cheap green paint
5 gallons clear varnish

As soon as the Department is aware what the above-mentioned articles cost, a decision will be made in connection with the requests contained in your letter of the 21st instant. Please keep in mind that there is only a limited amount available for repairs and improvements at the Morley Residential School this year.

Yours truly,

T. R. L. MacInnes.

OF THE
INDIAN AGENT

CANADA
DEPARTMENT
OF
MINES AND RESOURCES
INDIAN AFFAIRS BRANCH

Morley, Alta., July 16, 1937.

Sir :-

I beg to refer to your letter No. 119-1-5, April 28, authorizing paint and lumber for the school, last paragraph which states that when the cost of the paint and lumber is known, consideration will be given to Mr. Staley's request for a root cellar and pumping system.

The paint has been purchased at a cost of \$ 74.84, flooring \$ 38.58, and the rough lumber, the invoices for which have not been received, will be about \$ 8. Total \$ 119.02.

I beg to repeat that the pumping system is now toggled up in such a way that for the least minor repairs it will be necessary to get a man from Calgary to take the pump out of the well. It is also necessary to make the change before the children return for the fall term.

The root cellar at the school is entirely useless as the contents freeze up every winter. Mr. Staley requests that the Department furnish a plan for construction if the authority is granted

Your obedient servant,

V. B. Murray
Indian Agent.

EX'D.

Ottawa, July 28th, 1937.

Dear Sir:

The Department is in receipt of a letter from Dr. W. Barr Murray, Indian Agent, Morley, with reference to the construction of a root cellar at the Morley Indian Residential School. He states that the approximate size of this building should be 20' x 30' x 10' - the walls to be of concrete, with double roof and single floor. He estimates the cost at \$500.

If you approve the erection of this building, please let me know the approximate amount required for material. Will the school staff do the work, or will it be necessary to employ outside labour? If so, you should advise what tradesmen will be necessary in order that I can advise you regarding who is to be employed.

Dr. Murray also states that a new pumping unit should be supplied and forwarded the enclosed copy of letter received from Snyder & Company, Calgary, Alta. Please obtain from this firm a quotation for this pumping unit.

In connection with the above, it might be advisable for you to discuss these improvements with Inspector Christianson, who inspected the school last year. I would refer you to Mr. Christianson's letter of July 14th, 1936, and official reply of July 20th.

Yours truly,

R. A. Hoey

Dear Mr. Schmidt:

The Department is in receipt of a letter from Indian Agent Dr. W. B. Murray, in which he refers to certain improvements at the Morley Indian Residential School, which, in his judgment, should be undertaken immediately.

May I refer to departmental letter dated July 28, 1937, in which you were asked to consider certain repairs and improvements at Morley and in which you were requested to obtain a quotation from Snyder and Company, of Calgary, for a new pumping unit at the school.

I am anxious to have your report and recommendations at your earliest possible convenience. It seems to me that, if the members of the staff are prepared to undertake the work, the construction of the root cellar might proceed at once. Anything you can do to expedite this work would be deeply appreciated.

PB

Calgary, September 3rd, 1937

INDIAN AFFAIRS BRANCH

Sir:

With reference to your No. 119-15 of the 25th ultimo re root house and new pumping unit at the Morley Indian Residential School, I discussed the matter with Mr. M. Christianson when he was here, and I had decided to go into the matter fully with him and Mr. E. J. Staley, the Principal, when we visited the reserve on the 13th ultimo, but did not do so as Mr. Staley was away on vacation at the time of our visit. Since the above date I have been away with Mr. Christianson visiting agencies, and I also made a trip to Lesser Slave Lake Agency while in the North, returning homelast Sunday evening. Hence the reason for the matter not being attended to sooner.

On Monday last I phoned Dr. W. B. Murray, the Agent, suggesting that Rev. Staley begin the work of cleaning the old root cellar pit, which I understand is to be used again for the new root house. I later phoned Mr. Staley, asking him to prepare a list of material required, telling him I intended going to Morley to discuss the matter with him. This forenoon he called at this office with Mr. W. T. Scott, of Calgary, whom he wishes to engage to supervise the work. Mr. Scott had with him a plan of a timber (not concrete) root house, 20' x 30' x 10', the cost of which would be approximately \$600.00 -- \$525.00 for material and \$75.00 for labour.

I pointed out that the figure submitted to the Department was \$500.00 only, and was informed that when this amount was placed in the Estimates last summer, no list of material, cost of same, or cost of labour, had been prepared; that the figure given was approximate, or in other words a "guess."

As regards the purchase of material, Mr. Staley says there are two sawmills in the vicinity,--one on the reserve, operated by a Mr. Darnelle, the other some six miles from the School, the owner's name he did not remember.--He tells me the price of materials at these mills is much lower than at the lumber yards in Calgary.

The Secretary,
Indian Affairs Branch,
Dept. of Mines & Resources,
O T T A W A .

- 2 -

Mr. Staley now asks that authority be given him to expend \$500.00 to build a root house, and that he be authorized to engage Mr. W. T. Scott to supervise the work, other labour to be done by the school staff. He will submit certified vouchers for material purchased; also for Mr. Scott's wages.

I recommend that the request be granted and would ask that I be advised by telegram so that the work may be started at once, as the weather is uncertain in the Morley district.

Re new pumping unit for the school: I have been trying to contact Mr. R. W. Snyder of Calgary, but have been unable to do so yet, as he has been out of the city for some time. On Monday I called at his home and was told he was expected home on Sunday, next. I asked that he call on my early next week, when I will discuss the matter with him, and ask him to give me a quotation, which I will forward to the Department immediately.

Your obedient servant,

C. Pant. Schmidt,
Inspector of Indian Agencies,
Alberta Inspectorate.

Ottawa, September 11, 1937.

Dear Sir:

With reference to your letter of the third instant, I wish to confirm the following night letter sent you today:-

"Department approves expenditure not exceeding six hundred dollars for root house, Morley Residential School. Consult P. L. Hyde, Calgary, regarding firms from whom materials to be purchased and also regarding persons to be employed. Also consult Mr. Hyde with reference obtaining quotations for new pumping unit."

If Mr. W. T. Scott is approved by Mr. P. L. Hyde, he may be engaged. Otherwise, you should employ the man recommended by Mr. Hyde.

In connection with the last paragraph of your letter, it is noted that you have been endeavouring to obtain a quotation from R. W. Snyder with reference to the new pumping unit required at the Morley School. The name of this man does not appear on our approved list, although we have the names of several firms engaged in plumbing and heating. Under these circumstances, our telegram directed you to consult Mr. Hyde in connection with securing quotations for the new pumping unit.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Illustrating Figures 497A, 487A and 488A. Showing V Belt Drive to Motor.

McDougall Self-Oiling Deep-Well Working Heads 6-9 and 12" Stroke

ALL SIZES BACK GEARED 7 TO 1

McDougall Self-Oiling Deep-Well Working Heads are designed to give dependable service on all depths of wells. They are made in three sizes with 6-9 and 12" stroke, and being self-oiling throughout require no attention.

They are ideal equipment for Farms—Creameries — Golf Clubs — Hotels—Summer Resorts—Factories and Mines, and in fact any place where the water in the well is beyond the reach of surface pump, or, in other words, below 24 feet.

The workmanship and material which enter into their construction is vastly superior to what is considered good enough for a pump, and this ensures quiet, untroubled service.

They are made in several styles for above-ground discharge and with frost-proof set length for underground discharge—with tight and loose pulleys—with single pulley and gravity belt tightener or with V-Belt drive from motor or gas engine mounted on adjustable rail base on the main frame of the pump as illustrated. Fig. 497-6" Stroke head with either above-ground or underground discharge can also be furnished with hand attachment as illustrated on next page.

Letter A after the figure number of the head signifies above-ground discharge.

Letter B after the figure number of the head signifies underground discharge with frost-proof set length.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

McDougall Self-Oiling Deep-Well Working Heads 6-9 and 12" Stroke

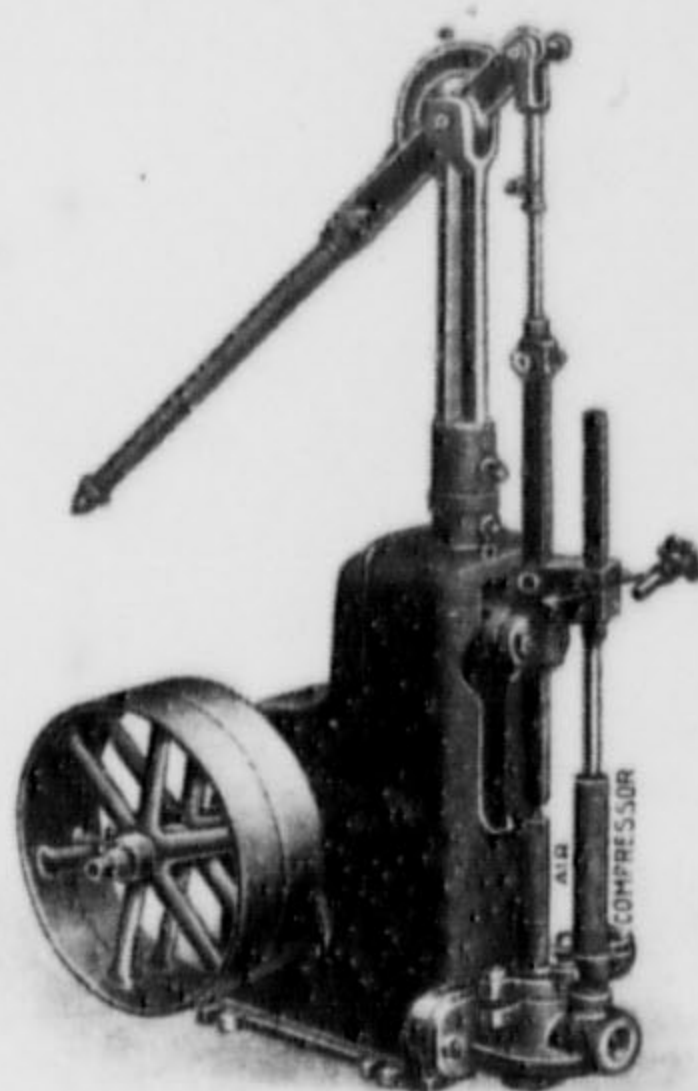

The total head against which a pump is operating is figured by adding the distance in feet from the position of the pump head to the lowest water level in the well, to the tank pressure which can be reduced from pounds pressure to feet head by multiplying the maximum pounds pressure in the tank by 2.3. Any vertical height from the pump head to the tank should also be added. Horizontal suction and discharge lines within reason do not add materially to the head.

A complete deep well Hydro pneumatic or pressure system includes the following—

Deep well working head for above-ground or underground discharge—motor—belt—automatic pressure controller—tank—gauge glass and mountings—pressure gauge—relief valve—drain cock for tank—discharge pipe between pump head and tank—gate valve—horizontal check valve—union—tee for controller—tee for relief valve—necessary nipples and elbows—suction pipe—pump rod—cylinder—foot valve and strainer.

The cylinder is a very important part of any deep-well outfit, and only the best brass body or brass-lined cylinders are recommended for this purpose. McDougall cylinders have a reputation for giving real service on all depths of wells, and can be supplied in all sizes and lengths as listed in our catalogue and price list.

In selecting the proper deep-well pumping equipment for any installation, a number of necessary points must be considered—i.e., the amount of water required per hour or day—the depth of the well—the inside diameter of the casing if a drilled well—power available, whether electric motor or gas engine—the distance from the surface of the ground to the lowest water level, and whether pressure or gravity tank system is desired.

Illustrating Figure 497A, with
Hand Attachment and Tight
and Loose Pulleys.

Fig. 497B can be supplied with
Hand Attachment same as above

The idea of the capacity that can be secured with different working heads on wells of power that will be required for the operation of the outfit.

Number Strokes Per Minute	Size of Cylinder	Depth of Well to Lowest Water Level	Capacity in Gallons per Hour	Horse-Power Required (Electric Motor) (Includes Necessary Power for Suction Head Plus 40 Lbs. Tank Pressure)
40	2"	50'	200	$\frac{1}{2}$ H.-P.

INSPECTOR'S OFFICE

IN YOUR REPLY REFER TO
No. 409-11A
ALSO TO DATE OF THIS LETTER

September 23rd, 1937.

CALGARY, ALTA.

Sir:

Reference your telegram and letter No. 119-1-5 of the 11th instant, authorizing the expenditure of \$600.00 for a root house for the Morley Residential School and instructing me to consult with Mr. P. L. Hyde with reference to obtaining quotations for a new pumping unit. I beg to report that on the 13th instant, Mr. P. L. Hyde, Rev. Mr. Staley, the Principal, and myself talked the matter over together at this office when Mr. Hyde agreed to the following:

ROOT HOUSE

Purchase material from local firms, namely:

G. R. Kendrew (Sawmill)
- . -. Darnell (Sawmill)

and engaging W. T. Scott of Calgary to supervise and assist with work of construction.

NEW PUMPING UNIT

Obtain quotations from:

Sam Roberts, 1106 - 14th Street West, Calgary.
A. J. Shrubbsall Co., 411 - 2nd St. West, Calgary.
Wm. Anderson, 1514 - 14th Street West, Calgary.
R. W. Snyder, 712 - 2d Avenue N. W., Calgary.

I have called for quotations and to date have received tenders from the first three mentioned, which I am enclosing herewith. Mr. R. W. Snyder has not replied to date.

I beg to ask for instructions in the matter.

Your obedient servant,

C. Pant. Schmidt

119-1-5

O t t a w a,
October 7, 1937.

Dear Sir:-

The Department is in receipt of your letters of the 23rd and 25th of September in connection with the root house and new pumping unit at the Morley Indian Residential School.

I note from the first part of your letter that arrangements are being made for the erection of the root house.

In connection with the new pumping unit, it appears from the quotations received that each of the firms are quoting on a different pump. For instance, Bill Anderson quotes on a pump with a 6" stroke; Snyder & Company quote on one with a 9" stroke, and Sam Roberts quotes on a pump with a 12" stroke.

Under these circumstances it is not possible to decide to whom the business should be allowed, as we do not know the exact type of pump required at the Morley School.

No doubt you have this information and, if so, you should secure prices from each of the firms on the type of pump that is required to do the work at the Morley school. When you have these quotations, you can award the business to the firm quoting the lowest price.

The four quotations which you forwarded are returned with this letter.

Yours truly,

encl.

Copy.

Dr. W. Barr Murray,
Indian Agent,
Morley, Alberta.

Dear Sir:-

In view of the fact that a substantial balance remains out of the \$600.00 allowed us for the building of a root cellar, would you be good enough to ask the Department if it would be possible for us to use this unexpended balance for the purchase of rough lumber with which to erect a shelter shed for the cattle at the School.

The weather here is such that on a great many days in the Winter time the cattle would benefit greatly by being out of doors, but owing to the high winds that usually prevail, it is quite impossible to turn them out. The shed would be used then for shelter for the milk cows, and would serve a further purpose of providing the necessary accommodation at nights for the range cattle which we are compelled to feed during the Winter. We would also use it for a weaning shed for the calves at various times of the year.

Your full consideration of this matter is requested.

Yours very truly,

(signed) C. J. Staley.

Calgary, October 26th, 1937.

119-1-5
R

Sir:

With reference to your Nos. 119-1-5 under date of the 11th ultimo and the 7th instant, re erection of a root-house and installation of a new pumping unit at the Morley Indian Residential School, I beg to enclose herewith copy of a letter addressed to Doctor W. B. Murray, by Rev. Mr. Staley, the Principal, which is self-explanatory. In his letter to me enclosing same, Dr. Agent Murray recommends that Mr. Staley's request be given favourable consideration.

The sum of \$600.00 was allowed to build the root-house. Vouchers were submitted as follows:

No. 114 - Favour L. R. Darnelle,	for material	- \$213.64
115 - " W. T. Scott,	Foreman, Carpenter	120.00
116 - " Marshall-Wells,	Hardware	17.85
117 - " Morley School,	Indian labour pd.	80.00
	Unexpended Balance	168.51
	TOTAL	- \$600.00

As regards the new pumping unit referred to in your letter of the 7th instant, above mentioned, I have placed the order with Mr. Wm. Anderson of Calgary, for a new Myers Pump, No. V 2958 AM with net 2 horse-power motor, suction pipe and cylinder, 9-inch stroke, installed complete at a cost of \$400.00; -- 30 days' trial test. -- Mr. Staley saw and approved of the pump, which has enclosed gears, running in oil.

Your obedient servant,

C. Pant. Schmidt,
Inspector of Indian Agencies,
Alberta Inspectorate.

Dear Sir:-

With reference to your letter of October 26, the Department approves of your authorizing the Principal of the Morley Indian Residential School to expend an amount not exceeding \$168.00 in the purchase of lumber with which to erect a shelter shed for the cattle.

Purchase should be made from a firm on the approved list.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Stony Agency.

Morley, Alta. December 8th, 1937

Sir:-

I would draw your attention to Voucher No. 156 in favor of Electrical Contracting & Machinery Coy, Calgary for repairs executed on the refrigerator at the school.

These repair bills are becoming almost a monthly occurrence & it would look as though they would continue to be, as the machine is worn out, being one of the earlier models & having been in use for over ten years.

Mr Staley, the principal of the school advises me that the refrigerator, a Welsbach, was bought out of school funds in the first place & respectfully suggests that the Department might now replace it with a new one as the one in use is the only refrigeration plant at the school & half the time it is out of commission.

I think his suggestion is a good one & I trust you will give it due consideration.

Your obedient Servant.

W Bann Murray

EX'D.

Ottawa, December 15, 1937.

Dear Sir:-

With reference to your letter of December 8, no provision was made in the current year's appropriation for new refrigerator at the Morley Residential School. However, I would appreciate your forwarding full details regarding the capacity of the refrigerator that you consider is required at the Morley School. At the same time you should give an estimate of its cost.

Have the Principal and yourself considered the possibility of erecting a built in refrigerator? To provide this would involve less expenditure than the purchase of an electric refrigerator and, besides, there would not be the same maintenance costs.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Dear Sirs:

Attention Mr. E.J. Staley.

Regarding Welsbach refrigeration equipment at the Indian Residential school, Morley, we do not recommend spending a lot of money on this machine owing to the fact that this type of machine has certain mechanical defects that cause trouble sooner or later, regardless of how well the machine has been overhauled. We believe we should also mention that this machine is no longer manufactured.

Our price on a new General Electric refrigeration system would be \$ 300.00 installed and we would give you an allowance of \$ ~~45.00~~ for your old equipment.

The new General Electric system would be installed properly by us and would be guaranteed for one year. It would have plenty of reserve power and would be capable of handling the box under any heat load.

Trusting that this is the information you require and that you will be able to favour us with your order.

Yours very truly,

ELECTRICAL CONTRACTING
& MACHINERY CO.

Stony Agency.

Morley, Alta. January 31st, 1938.

Sir:-

File No. 119-1-5.

With reference to your letter of December 15th, regarding refrigerator at the Indian Residential School, I have had the Electrical Contracting & Machinery Coy of Calgary look over the layout & they have furnished me with a report, copy of which is attached hereto.

The estimate of cost is made on the understanding that the box now in use at the school would be used.

Copy of letter from the above mentioned firm is enclosed herewith & the capacity of the box now in use is forty eight cubic feet.

Your obedient Servant,

W. B. Murray
Indian Agent.

The Secretary,
Indian Affairs Branch,
Department of Mines & Resources,

Dear Sir:

I am in receipt of your letter of the 31st ultimo with reference to the request for a refrigerator for the Morley Indian Residential School.

It is doubtful if the refrigerator on which the Electrical Contracting and Machinery Co. quoted would be sufficiently large to be of any practical benefit to the Morley Residential School.

You have made no comment on the last paragraph of my letter of December 15, 1937.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

FILE 2

Morley, Alta., March 3, 1938.

Sir :-

Subsequent to your letter No. 119-1-5, Feb. 9, I consulted Mr. Staley in regard to the school refrigerator, and am in receipt of a letter from him that the present machine is large enough for now and all times. He states that it not necessary to carry large stocks of perishable goods as he can get such supplies several times a week. He states that all he needs is a box large enough to hold a quarter of beef, milk and kitchen left-overs.

For the above reasons, he and I are in accord that a built-in refrigerator is not necessary, nor would it be any added convenience. All that is required to give the necessary refrigeration is a new freezing unit installed in the present box, for which the estimate was \$300 less \$45 for turn-in of the present unit.

I may not have made it clear in previous letters that it is only a freezing unit which was quoted on, not a complete refrigerator.

Yours truly,

W. B. Murray
Indian Agent

Dear Sir:

I am in receipt of your letter of the 3rd instant with reference to the refrigerator requested by the Principal of the Morley Residential School. In your letter of January 31 you forwarded a quotation from the Electrical Contracting and Machinery Company. They state in their quotation that they are quoting on a new General Electric refrigeration system. I would appreciate if you would let me have the General Electric catalogue number of this equipment in order that complete information may be supplied to our Purchasing Agent.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

INSPECTOR OF INDIAN AGENCIES

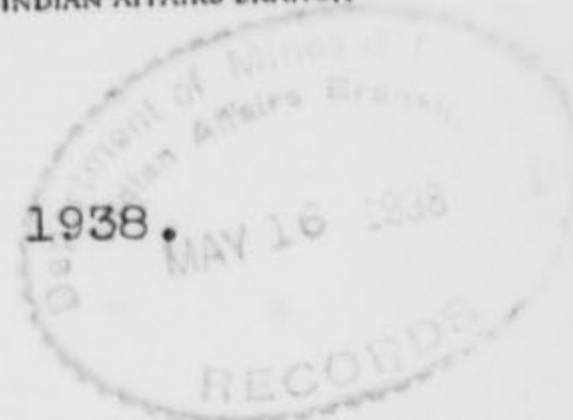

409-11A.

CANADA
DEPARTMENT
OF
MINES AND RESOURCES

INDIAN AFFAIRS BRANCH

Calgary, May 13th, 1938.

Sir:

In conversation with Agent Dr. W. B. Murray, of Stony Agency, the matter of fire escapes at the Morley Indian Residential School was mentioned:

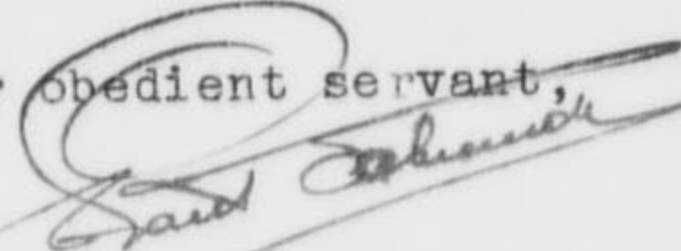

Agent Murray stated that the doors of the dormitories leading to the fire escapes were kept locked. I remarked that this was not a proper thing to do and asked him if he had mentioned this in his reports on the school, which we read and found that under the heading "Fire Drill, escapes and protection," with the exception of his report for January last, when he stated, "Fire escapes locked," his other reports simply stated: "In good order," or, "In good working order."

I asked Dr. Murray to ascertain whether these doors were kept locked and am now in receipt of a letter from him, copy of which I enclose herewith.

I will mention this matter to Rev. Mr. Staley, the Principal, when next I meet him or call at the School.

I should be pleased to know what the Department's wishes are in the matter, which was brought to their attention some three years ago: (Reference Inspector Christianson's No. 409-11A under date of March 18, 1935).

Ottawa,
May 19, 1938.

Dear Sir:

I am in receipt of your letter of the 13th instant with reference to the locking of the doors leading to the fire escapes at the Morley Indian Residential School.

Circular letter of February 10, 1938, a copy of which is enclosed, directed that the doors leading to the fire escapes should be kept unlocked. This applies, of course, when the dormitories are occupied. It is expected that all Principals will observe this regulation and you should so inform the Principal of the Morley Residential School.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Dear Sirs:

We have had considerable difficulty in collecting our account with the Indian School at Morley, Alberta. At the present time there is a small item of 96¢ owing since March 20, 1937. We have requested payment many times and receive no response to any communication. In our letter to Principal of the School a month ago we informed him that if we did not receive payment of this small item by June 30th we would be obliged to take the matter up with Ottawa. We have received no reply.

We are enclosing a copy of the invoice for your information. We will appreciate your co-operation in bringing pressure to bear on this gentleman in paying this account.

Yours very truly,

Dear Sir:-

Would you be good enough to ask authority from
your Department to have the boilers and heating system of the
School looked over during the summer holidays. We should also
like to have the plumbing looked over.

No special repairs are needed, but we should
like to have the boilers secured out and tested.

Yours truly,

E. Staley

Dear Dr. Murray:-

Further re your request for information,
may I say that the boilers and heating plant were last looked
over in the fall of 1936 by Snyder and Company of Calgary.

The expense involved has in every case been
borne by the Department. *How much \$*

Yours very truly,

Dear Sir:-

With reference to your letter of 13th Inst. in regard to the checking over of the boilers & plumbing at the school, I now beg to submit requisition in quadruplicate, asking that the work be done.

This work was done last in November 1936 by Snyder & Coy of Calgary & Voucher No. 169 of December 2nd 1936 was submitted to the Department, covering the cost of the work & paid.

I think this a good time to have the work attended to as it might offset a much more expensive job later & at a time when it is not convenient to have the plant shut down.

Yours very truly.

Dear Sir:-

Owing to deterioration of beds and mattresses,
would you kindly ask the Department to consider giving us
ten (10) new institutional beds and twenty-five (25) new
mattresses.

Would you ask if the staff dining-room floor
could be covered with battleship linoleum.

Also would you be good enough to ask for
renewal of fire hose for four stands--approximately 120 feet
of canvas-- $1\frac{1}{2}$ in. hose.

Dear Sir:-

Enclosed herewith please find copy of letter received from Mr Staley, Principal of the Indian School, in which he asks that a number of beds & mattresses be purchased for the school.

He also asks that the staff dining room be covered with battleship linoleum. The size of the room is 12'6" X 24'.

He also asks that some of the fire hose in the building be renewed, as it has been in use for quite a time & is not in very good condition.

Provision for these items was made in the 1938-1939 Estimates, Page 9 Item 3.

I would recommend that as far as possible his requests be granted & shall be glad if you will advise me if requisition for these items should be made on Form 371.

Yours very truly.

Dr. W.B. Murray,
Indian Agent,
Morley, Alta.

Dear Dr. Murray:-

Re your request for further information as to the necessity of securing more beds, may I say that we have now ten more children than ever before in residence in the institution. We have succeeded in carrying on without the new beds, but urgently need the new equipment now.

Regarding sizes, we would need six 6-ft. single width institutional beds, with mattresses to fit, and four 5-ft. single width institutional beds, also equipped with mattresses.

Thanking you,

Yours very truly,

E. J. Staley

Stony Agency.

Morley, Alta. June 14th, 1938.

Dear Sir:-

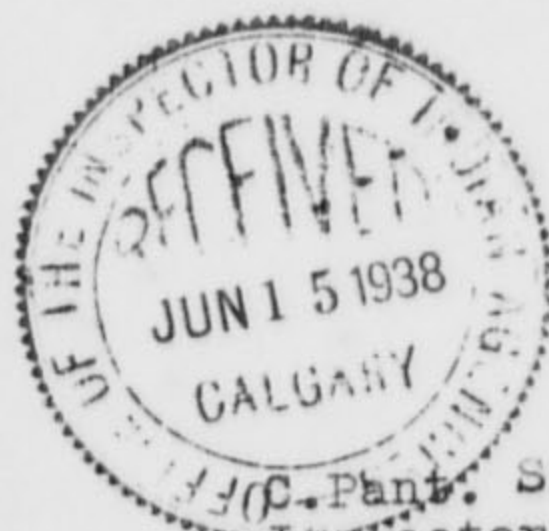

Replying to your letter of 13th, Inst. File No. 409-11A
I now beg to submit requisition in quadruplicate for ten beds
& 25 Mattresses as also Linoleum for Staff Dining Room & 150 feet
of 1½" Canvas Fire Hose.

Mr Staley has written me a letter setting out why these
additional beds are required & on talking to him over the phone
about the extra fifteen mattresses, he advised me that these
were required to replace fifteen others which have now served
their term of usefulness & are in a state of reather poor repair.

I have seen these mattresses & know their condition to
be as he says & would recommend that the new ones be secured.

Yours very truly.

EX'D.

Dear Sir:

I am in receipt of your letters of the 26th ultimo, in which you forward the following request that you have received from the Principal of the Morley Indian Residential School:

1. Harness, wagon, harrows, mower,
sulky plough, hay rake \$ 447.00
2. 10 heifers and 1 bull 375.00
3. Checking boilers and heating plant 150.00
4. Paint and lumber 214.00
5. Painting exterior of school, ma-
terial and labour 375.00
6. 10 beds, 25 mattresses, linoleum
and fire hose 363.12

Total \$1924.12

In preparing our appropriation for the current fiscal year, it was found possible to include an amount of \$1000 only for repairs, improvements and purchase of new equipment at the Morley School. We have already expended \$225.00 for a new unit for the refrigerator and \$50.13 for lumber and repairs, or a total of \$275.13. This leaves a balance available of \$724.87.

C. Pant. Schmidt, Esq.,
Inspector of Indian Agencies,
Calgary, Alberta.

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-5, part 4)

- 2 -

Owing to the present set-up of our appropriation, it is practically impossible to exceed the amount specifically provided for any one school; consequently, we can only allow the Morley School the amount unexpended at the present time, or \$724.87. Before ordering any of the items included in the various requests mentioned in the first part of this letter, I felt it would be advisable to write you again in order that you can consult the Principal and decide what items are most necessary. It appears to me that possibly Items 3, 4 and 6 would meet the most urgent needs this year. However, if there are some other items in the request that are more necessary than those just mentioned, the Department will have no objection to complying with the Principal's wishes, but it must be distinctly understood that the total cost cannot exceed the balance unexpended.

Yours truly,

Philip Phelan,
Chief, Training Division

Dear Dr. Murray,

I am sorry to inform you that the buildings on the school lease at the orphanage property were destroyed by fire yesterday afternoon. The buildings while of no great value were useful as winter shelter for the cattle. The fire which was discovered about two o'clock by men haying on the place burned fiercely and was soon out of control. We were fortunate enough to save large stacks of rye 100 yds. away, although there is still some danger and will be for some considerable time because the fire is still burning in large manure piles. I have as yet no explanation to offer as to the cause of the fire.

Yours truly,

E. J. Staley

Stony Agency.

Morley, Alta. July 25th 1938.

Sir:-

I am in receipt of a letter from Mr Staley, copy of which is enclosed herewith, in which he reports the loss of some of the buildings on the orphanage property, from fire.

It would appear that the fire started up after lunch, in the old stable where the men had been eating their lunch & no doubt was caused by a carelessly thrown down match or cigarette stub & everything being so very dry & no water available there was no chance to save the building & they did very well indeed to save about thirty five tons of rye hay which was stacked near by.

The building was of no great value & was about ready to fall down anyhow.

Mr Staley has not mentioned possible replacement & I have not either & until he does I think we might let it go at that.

Yours very truly.

W. B. Murray

Dear Sirs:

Would you be good enough to ascertain the reason for the delay in the sending to us of the various items of farm machinery, beds and mattresses and the other items authorized by you under the yearly estimates.

We are badly handicapped as a result of these things not having reached us, and while we know that your Dept. is in no way responsible, we would appreciate it greatly if the matter concerned would be taken up with the purchasing Dept.

Thanking you in anticipation, I am

EJS/T.

Yours truly,

E. J. Kaley

Sir:-

File No.409-11A.

With reference to your letter of August 16th, Mr Staley has just called me up to ask if I have heard anything further in regard to the supplying of the articles referred to.

He says the beds & mattresses are very urgently needed & that if he had the equipment he would very much like to get some fall plowing done & in this way obviate the necessity of hiring of outside help in the Spring.

I thought possibly you might be able to get some action.

Yours very truly.

William Murray
Indian Agent.

copy - Morley, Alta., Sept. 2, 1938.

Sir :-

You will recall previous correspondence about the new pump installed at the School, and that it was recommended by the dealers that a larger outlet from the pump to pressure tank was necessary.

At present there is a plumber overhauling the heating system at the school, and he drew my attention to damage being done to the pump by the present outlet line being too small. He quoted a price of \$25 to correct the situation, and I have ordered the work done as emergent. The price previously quoted by Anderson of Calgary for the same job was \$45. I trust you will approve my action.

Yours obediently,

B. B. Murray

INSPECTOR OF INDIAN AGENCIES

409-11A.

CANADA

DEPARTMENT
OF
MINES AND RESOURCES

INDIAN AFFAIRS BRANCH

Calgary, Sept. 24th, 1938.

Re Well at Morley Indian Residential
School:

Sir:

I beg to enclose herewith copy of a letter
received from Dr. W. B. Murray, Indian Agent, Morley:

The new pump mentioned was installed last
October: (Reference Dept. letter No. 119-1-5 of Oct.
7, 1937 and my No. 409-11A. of the 26th idem).

When Mr. Anderson installed the pump, his
agreement was to install a new pump, lower pipe, and
new cylinder. In other words, everything new from
the pump-head downward. It is now found that the
discharge pipe, from the pump-head to the pressure
tank, is of a smaller size. Therefore the water is
forced into the pressure tank, and this causes vibra-
tions and considerable noise, and is also detrimental
to the pump gears, &c.

By changing the outlet or discharge pipe
for a larger one, the extra pressure, vibrations and
noise will, we are told, be eliminated. This is
what Doctor Murray has ordered done. I trust his
action will be approved and the voucher paid when
submitted to the Department.

Your obedient servant,

C. Pant. Schmidt
C. Pant. Schmidt,
Inspector of Indian Agencies,
Alberta Inspectorate.

The Secretary,

Dear Sir:

I am in receipt of your letter of the 24th ultimo enclosing copy of letter received from Indian Agent Murray in connection with the pump at the Morley Indian Residential School.

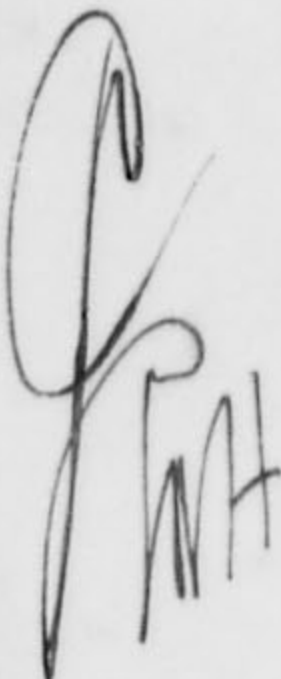

An amount of \$25.00 will be allowed for the repairs to this pump authorized by Indian Agent Murray.

However, in view of the information contained in the third paragraph of your letter it is considered that you should endeavour to obtain a refund of this amount from Mr. Anderson. Apparently in installing the pump he did not comply with the terms of his agreement with you.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

EXD.

Dear Sir:

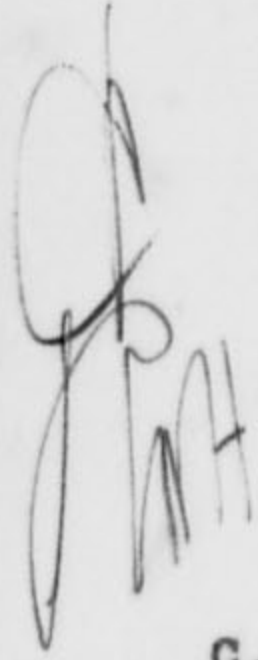

In official letter of August 13 you were authorized to expend an amount of \$50.00 for checking the boilers and heating plant at the Morley Indian Residential School. I am now in receipt of the attached account amounting to \$121.93 for this work.

You can readily realize how difficult it is for us to control expenditures if the estimates supplied by our field officers do not closely approximate the actual expenditure. Please let me know the reason why your estimate of \$50.00 was exceeded to such an extent as shown by the account.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Fyr-Fyter Fluid

Fyr-Fyter Fluid used in Super and other extinguishers of the vaporizing type is a heavy colorless liquid. It is especially distilled and refined to eliminate impurities and foreign substances which cause corrosion. When Fyr-Fyter Fluid comes in contact with fire, it forms a heavy cloud-like vapor which settles over the fire like a wet blanket, excluding the air—and the fire goes out.

Safeguard the life of your fire protection equipment—do not use substitutes—insist on genuine Fyr-Fyter Fluid.

Fyr-Fyter Fluid

Fyr-Fyter Fluid used in Super and other extinguishers of the vaporizing type, is a heavy colorless liquid. It is especially distilled and refined to eliminate impurities and foreign substances which cause corrosion. When Fyr-Fyter Fluid comes in contact with fire, it forms a heavy cloud-like vapor which settles over the fire like a wet blanket, excluding the air—and the fire goes out.

Safeguard the life of your fire protection equipment—do not use substitutes—insist on genuine Fyr-Fyter Fluid.

Keep In The Following Quantities

Foam Extinguishers

Operates same as the Soda-Acid Type. Shoots a thick foamy liquid on the fire. Recommended for Gas, Oil, Grease, Tar, Paint, Inflammable solvents or Chemicals. Not for Electrical Fires.

This Extinguisher will handle a class of fires that Soda-Acid Extinguishers will not touch and for that reason it is recommended to take the place of the older style Soda-Acid Extinguisher.

Bears the Underwriters' Label of Approval and is endorsed by insurance authorities generally, as a substitute for Soda-Acid Extinguishers.

F. F. Foam

(Complete With Charge)
2½-Gallon Size

Fyr-Fyter Pump Type

Fyr-Fyter Pump Types operate by a double action, solid brass acid-resisting liquid pump that throws a continuous stream 45 to 50 feet. No time is lost in generating pressure, which can be controlled at will.

Made of heavy galvanized iron and coated on the inside with asphaltum to prevent corrosion.

For Fire Depts., Cold Storage Plants, Freight Houses, Storage Warehouses, Box Factories, Planing Mills, Lumber Yards, Ice Houses, Packing Plants, Docks, Piers, Bridges, Forest Fire Fighting, etc. Especially for all cold and exposed fire hazards.

Bears the Label of Approval issued by the Underwriters' Laboratories.

2½ and 5-Gallon Pump Type
Complete with 40° below zero charge

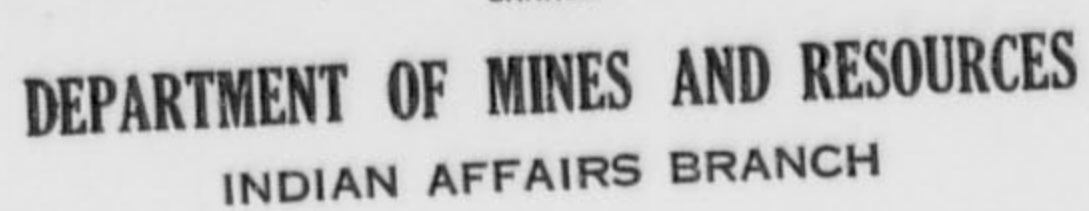

Fire Dep't. Types

"Instant" 1¾-Gallon F. D. Type
Foam 2½-Gallon F. D. Type

con't from page I.

was more than justified under the circumstances.

We now come to invoice # 7. In the amount of \$ 30.02 as you will see if you check the items on invoice just about every tap was leaking at the school as we used 36 washers on leaky taps alone, you will also notice it was necessary for us to install two new ball cocks in the toilet tanks, as they were completely worn out, with result the water was running straight thru them.

There was also a wash basin almost off the wall that had to be replaced and properly installed, flush balls in 2 instances were leaking badly and with conditions such as described it just meant that water pump was going full blast all the time in order to keep up with the wasteage..

Referring to invoice # 6, in the amount of \$ 11.55 for cleaning boiler at the Hospital, this was necessary due to the fact that the oil burner had not been functioning proper for some time with the result that a great deal of carbon, was deposited all thru the boiler and it certainly is only good business at any time to thoroughly clean out the boiler in the fall preparatory for winter's use, more especially in the case of a Hospital where very serious results could happen in the event of a boiler failure during the cold weather.

We trusts the above explanation will clear up any question of why this expense was necessary in all cases, and we will look forward to receiving the departments, check at their earliest opportunity as I can assure you we have got some heavy commitments to make, and payment, of account would be very much appreciated at this time.

Thanking you we remain,

Yours very truly.

A. J. Shruballs

Plumbing, Heating and Gasfitting

411 Second St. West

CALGARY, Dec. 6th 1938

Southern Alberta Service Agency for BOWSER PUMPS and EQUIPMENT

Dr. W. Barr. Murray.
Indian Reservation.
Morley, Alberta;.

Dear Sir;.

Further to our conversation, over the telephone
re invoiced rendered as of Aug. 31st. 1938, for repairs
to Plumbing and Heating boiler etc.

Taking the invoices in rotation viz To Cleaning
and Flushing out boilers total cost. \$ 33.80.

Invoice # 2.

If you will recall this was the original job
that we were called on to do, and it certainly proved
very necessary, as we found the boiler very dirty indeed
and if same had not been attended to at the time
there is a grave doubt in the writers mind whether you
would have got thru the winter without a breakdown, it
was whilst we were cleaning and inspecting the boiler
in question that we found it was absolutely necessary
in the interest of safety alone to replace the
defective return lines of the heating plant to the
boiler as in some instances the nipples were eaten clear
thru with rust, and if they had not been replaced when
they were, they certainly would have emptied the boiler
where either an explosion or a burnt out boiler would
have been the result. This repair covered invoice # 4.

Invoice # 3.

Covers the renewing of circulating pipes from
new pump that was installed last year. This was was
necessary for this reason. There is a 2" discharge
from pump to tank, but when pump was installed for
some unknown reason the 2" discharge was bushed down to
1 1/4", with this result pump was gradually pounding
itself to pieces, and it would only be a matter of time
before it would have been a wreck and would have to be
replaced and we consider that this expense of \$ 30.61

PLEASE QUOTE
FILE 2.

Stony Agency.

Morley, Alberta. December 9th/38.

Sir:-

I duly received your letter of November 28th, File No. 409-11A. & immediately got in touch with Messrs. Shrubsall & Coy asking them to furnish me with a report on the work done by them at the school & the reason for it's being done.

I have now received a report from Mr Shrubsall setting forth the reasons for the work being done, copy of which report is submitted herewith.

I might say that the contents of your letter of August 16th were conveyed to Mr Staley, the principal of the school & he retained the services of Mr Shrubsall to do the work & having him on the ground, had him do the other work.

In doing this Mr Staley had in mind the lateness of the date & the immediate prospect of the children being back in residence & the absolute necessity of having the work done immediately. The necessity of having the work done during the holiday season had been outlined in correspondence in the Spring & the request that it be done was based on an inspection of the equipment by plumbing & heating experts & Mr Staley considered that by having it done while the men were on the ground, he was saving the Department a much greater outlay at a not very distant date & without looking over the equipment, one could not judge how very necessary it was that the work be done.

On the face of it, it looks as though the authority of the Department had been overstepped to a considerable extent, but this was done not ~~solely~~ to buck authority, but with a view to having something done, which was in the best interests of the Department.

I trust that my explanation as above may be accepted.

Yours very truly.

W. B. Murray

COPY

409-11A.

Calgary, Alta., Aug. 16th, 1938.

Sir:

The following is a copy of a letter received from the Department:

"File 119-1-5 Ottawa, Aug. 13, 1938.

"Dear Sir:

" With reference to your letter of the 8th instant enclosing amended requests by the Principal of the Morley Residential School, the Purchasing Agent is being requested to secure the articles listed on the requisition forwarded with your letter. He is also being requested to purchase the beds, mattresses, linoleum and fire hose.

" You may authorize an expenditure of \$50.00 for checking the boilers and heating plant and \$25.00 for labour for repairing the floors. You may purchase the 1000 feet of flat grain fir flooring which it is noted you can secure for a price of \$50.00.

Yours truly,

(Sgd.) "R. A. HOEY,"

Supt. of Welfare & Training. "

Will you please inform Rev. Mr. Staley and arrange with him to have the boilers and heating plant checked. Also purchase the flooring and have floors repaired.

Purchase of material should be made from firms whose names appear on the preferred list. This also applies to the hiring of labor.

When forwarding vouchers for payment quote the file number and date of the Department's letter.

Yours truly,

C. Pant. Schmidt,
Inspector of Indian Agencies,
Alberta Inspectorate.

INSPECTOR OF INDIAN AGENCIES

409-11A.

CANADA
DEPARTMENT
OF
MINES AND RESOURCES

INDIAN AFFAIRS BRANCH

Calgary, December 13th, 1938

Sir:

I have for acknowledgment your letter No. 119-1-5 dated the 23rd ultimo, re exceeding the amount of \$50.00 authorized for checking the boiler and heating plant at the Morley Indian Residential School.

Your letter was received here during my absence on a visit to the Lesser Slave Lake Agency, and Miss P. Blanchfield immediately wrote Dr. W. B. Murray, Indian Agent, asking him for an explanation. I am attaching hereto copy of his reply, with enclosure.

Doctor Murray called at this office yesterday, when I discussed the matter with him.

The only reason he gave for exceeding the amount allowed, was that Mr. Shrubsall had found that the repairs were urgently needed and Rev. Mr. Staley, the Principal, was most anxious to have them done before school re-opened. I made it known to him that this reply was not satisfactory, and referred him to Requisition, Form 37 $\frac{1}{2}$, dated August 8th, last, which he and the Rev. E. H. Staley prepared in this office; (Reference my No. 409-11A of the same date, addressed to the Secretary); also, to my letter No. 409-11A dated August 16th, addressed to himself, a copy of which I am attaching hereto. His reply was, "Never again!"

I have no excuse to offer for him: He has been in the service a long time, and should be familiar with Departmental rules and regulations, and I think he deserves a strong reprimand and warning. He should at least have written explaining the matter, when submitting the voucher.

The Secretary,
Indian Affairs Branch,
Dept. of Mines & Resources,
O T T A W A .

119-1-5

Copy sent Mr. Schmidt

OTTAWA,
December 22, 1938.

Dear Sir:-

The Schools Branch has brought to my attention your voucher No. 99, amounting to \$121.93, in favour of A. J. Shrubsall & Co., for checking over the heating plant at the Morley School.

I also note on file a letter, signed by Mr. Hoey, under date of August 13th last, directed to Mr. Schmidt, Inspector at Calgary, authorizing the sum of \$50.00 for this work, which authority was passed to you, this being the amount asked for in your requisition.

If the expenditure had been \$4.00 or \$5.00 over the amount authorized nothing would have been said but when the amount is over expended by \$71.93, it looks as if no care or supervision was given to this work. Had you talked the matter over with Mr. Shrubsall he would have been able to advise you immediately that the \$50.00 was not sufficient and you would have had ample time to write the department explaining the circumstances and requesting a further authorization. Even if the amount is comparatively small it is a serious matter to over expend more than was authorized and, in my opinion, shows lack of interest on your part in not checking up on the work while it was being performed.

When you forwarded the voucher you made no mention of the extra money spent. A full explanation is required immediately regarding this matter.

Yours truly,

W. B. Murray
General Superintendent
of Agencies.

FILE 2

Morley, Alta., Dec. 29, 1938.

Sir :-

I beg to acknowledge receipt of your letter No. 119-1-5, Dec. 22, re over-expenditure on repairs to the heating plant at the school.

A full explanation has been forwarded through the Inspector's office, accompanied by a letter from the plumber giving a technical explanation to show the urgency of the work. I expect these have reached the Department by this time.

Mr. Shrubsall came out and cleaned the boilers which was the job that I knew had to be done. He then looked over the whole plant and showed me valves, nipples, etc., which were worn out and in urgent need of replacing. On looking at the new well pump, he showed me that it would soon be ruined unless the outlet pipe were enlarged. There is no one in the community who knows anything about heating systems and I had to follow my judgment based on the technical information he had given me. He states in his letter that major breakdowns might have occurred if these repairs had not been effected. If that had occurred after my having been warned by a heating expert, I likely would be held responsible. The children were due to come into school thereby increasing the work of heating system and plumbing, not leaving sufficient time to communicate with the Department, so I ordered the work performed; the sole purpose being to prevent a greater expense.

This information should have gone with the voucher but it inadvertently got into the mail before an explanatory letter was written.

I further beg to state that care and supervision were exercised by both Mr. Staley and myself and there was no lack of interest or of checking on my part while the work was proceeding. I trust that Mr. Shrubsall's letter will show the urgent nature of the work, and that its being performed was to the best interests of the Department.

The Secretary.

Your obedient servant

W. B. Staley

INDIAN AFFAIRS

119-1-5

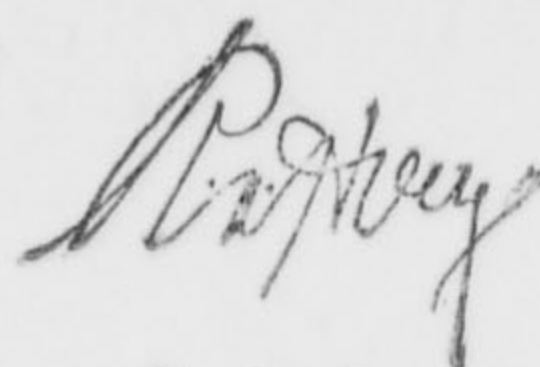

Ottawa,
January 5, 1939.

Dear Sir:

A cheque has been issued in favour of
A. J. Shrubsall & Co. for \$121.93 as requested
by your voucher No. 99.

This voucher included the firm's account
of August 31 for \$30.02. There is an item on
this account of \$2.88 for 36 tap washers, and
also an item of \$15.65 for labour. Apparently
a considerable amount of the labour was due to
placing washers on certain taps. This is very
simple work and there does not appear to be any
reason why it should be necessary to engage a
plumber to do it. Washers for both hot and cold
water taps can be purchased very cheaply. Please
let me know why some member of the school staff
did not place them on the taps.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Dear Sir:

I wish to acknowledge receipt of your letter, No. 2, of the 29th ultimo in connection with over-expenditure at the United Church School in your Agency. Your letter is most unsatisfactory.

We are not questioning the necessity of the work at all. I would refer you to my letter, 119-1-5, of December 22nd and you will note that you have not explained the contents of the third paragraph therein. What I want to know is why you did not take the matter up with the Department immediately, instead of going ahead with the work, not letting the Department know anything about it until the vouchers were submitted.

I would like to impress upon you that your action in this matter is viewed most seriously.

Yours very truly,

General Superintendent
of Agencies.

Dr. W. Barr Murray,
Indian Agent,

Morley, Alta., Jan. 3, 1939.

Sir :-

Confirming my recent telegram re heating plant at the school, I beg to report that a large pipe which enters the boiler, evidently a water return is again leaking.

A new valve was put in this pipe last fall, which stopped the leak for the time being, but I was informed by Mr. Shrubbsall who did the work, that the nature of the equipment required was such that it would cause trouble frequently.

This has been a source of trouble since the boiler was installed. When heavy firing is necessary there is quite a large knocking noise in this pipe and the leak is greater.

I beg to ask authority to have the system looked over by a heating expert, and would suggest Mr. Alex. Walker or a man he would recommend. The workmen we have had out here do plumbing and heating; and they are more plumbers than heaters. I would like a heating specialist to look it over and advise if any change could be made to eliminate the knocking which I believe to be from the same cause as the leaking.

Your obedient servant,

W. B. Murray
Indian Agent.

Plumbing, Heating and Gasfitting
GENERAL CONTRACT WORK

1214A NINTH AVENUE EAST

CALGARY, ALBERTA. January 7th, 1939.

Mr. C.P. Schmidt,
Inspector, Indian Affairs,
507 Public Building,
Calgary, Alberta.

Dear Sir:-

On checking over Heating System at Morley School,
I have found the following defects.

(1) Discharge from pump in to equalizer pipes is
tapped into pipe instead of the proper fittings, this causes
leaks as there is not thread enough in 3" pipe to hold same.

This can be remedied by installing two 3" x 1½"
tees; Two 3" flange unions, four 3" nipples and necessary
1½" nipples on discharge from pump.

(2) On return header at back of boilers, there are
no valves, and water does not equalize in boilers as one
glass shows as much as 4" more than the other.

This can be overcome by putting in two 2" gate
valves on return and twinning boilers with necessary
unions and fittings. This connection is necessary as at
present one boiler is getting more water than other from
condensate pump. This also will provide the use of one
boiler and an even water line.

(3) The main feed header valves requires gland packing
as they show evidence of leaks.

(4) Check valves on discharge line from pump to boiler
to be ground in on seat.

(5) Cleanout plugs in boilers are cast iron, brass
plugs should be used as they are easily removed for cleaning
purposes and do not rust.

(6) All return traps on system should be checked over
for leaks through diaphragms. Strainers and drop pockets also
to be checked over.

(7) Condensation pump motor to be examined to see how

INSPECTOR OF INDIAN AGENCIES

409-11A.

DEPARTMENT
OF
MINES AND RESOURCES

INDIAN AFFAIRS BRANCH

Calgary, January 7th, 1939.

Sir:

I beg to acknowledge receipt of your radiogram of the 4th instant, which reads:

"AGENT MURRAY REPORTS BOILER PIPE MORLEY SCHOOL AGAIN LEAKING ALTHOUGH REPAIRED LAST FALL STOP PLEASE TAKE NECESSARY ACTION TO EFFECT REPAIRS AT LOWEST POSSIBLE COST STOP SUGGEST YOU ENGAGE A DIFFERENT FIRM AS FORMER FIRM WORK MUST HAVE BEEN UNSATISFACTORY. "

Upon receipt of same I went to Mr. Chas. Sellens, District Architect, asking him if he would recommend someone to do the work: He recommended Mr. P. Kennedy, of Calgary, with whom I arranged to go to Morley yesterday, the 6th instant, to look over the boilers.

I am enclosing herewith copy of Mr. Kennedy's report, which is self-explanatory, and I would recommend that he be authorized to make the changes and repairs mentioned therein, which it is obvious are necessary. These he pointed out and explained to the Agent, Dr. Murray, Rev. Mr. Staley, Principal of the School and myself: I might add that Mr. Kennedy states he made these recommendations when at the school some two years ago, but same were never acted upon.

Being informed there was no immediate danger, and that unless the weather became very cold and both boilers had to be steamed, there appeared to be sufficient time for me to forward Mr. Kennedy's report to the Department for their consideration and approval before proceeding with the work. I beg to ask for an early reply.

Your obedient servant,

The Secretary,
Indian Affairs Branch,
Dept. of Mines &
Resources,
OTTAWA.

Sir :-

I beg to acknowledge receipt of your letter No. 119-1-5, Jan. 10, re overexpenditure on the heating and plumbing systems at the Residential School.

I regret my misunderstanding that it was the necessity and urgency of the work that ~~was~~ was under question. I realize I am at fault for the procedure I followed, and I exceedingly regret acting as I did.

I knew, of course, that my procedure was irregular but I expected the Department would consider I was justified by the urgency of the work and by the saving of an extra trip by the plumber, which would have been added expense. As stated previously, I had intended to send a full explanation with the voucher, but it accidentally was mailed before the letter was written.

I can see now that I should have wired to the Department, and confirmed the wire by letter. That I did not do so, I greatly regret; and I ask that you accept my assurance that irregularities will not occur again. I considered at the time that I was acting in the best interests of the Department, and this opinion was concurred in by Mr. Staley with whom the situation was fully discussed. The Department can be assured that the recognized procedure will be followed in future, as I can see that deviation only causes trouble for me.

I trust that my regrets and apology will meet with your approval.

Your obedient servant,

The Secretary,
Indian Affairs Branch,

Sir:

In reply to your letter 119-1-5 re painting the Exterior of the Morley Residential School, attached herewith is requisition for supplies.

Regarding the labour we would prefer to have this work done by experienced painters, and do not intend to engage any Indian labour and would be pleased if you will advise us who is to be employed. Mr. Staley has an estimate for this labour for \$225.00.

Your obedient servant,

W. B. Murray
Indian Agent.

Secretary,
Indian Affairs Branch,
Dept. of Mines & Resources,
Ottawa, Canada.

Memorandum:

DEPUTY MINISTER

Re: Morley Indian Residential School,
Electoral District of Calgary West,
Morley Indian Agency, Province of Alberta.

In the current year's appropriation funds are provided for the painting of the above school. The Indian Agent has forwarded a requisition for the paint required and this requisition is going forward to the Purchasing Agent.

It is estimated that the labour will cost approximately \$225.00. The Agent states that there are no Indians suitable to do this work and I should, therefore, appreciate your advising me the names of the persons whom you wish to be employed.

Summers

OFFICE OF THE
INDIAN AGENT

119-1-5-
Stony Indian Agency,
Morley, Alta., July 28, 1939.

Sir :-

I am informed by Mr. Callbeck who is painting the school, that the paint that was supplied was too thick to apply, in fact that it was nearly solid. It has been necessary to purchase 10 gals. of linseed oil to thin it. A gallon or two of green trim has also been necessary.

There will be sufficient paint left over due to the thinning to paint the class-room building, and Mr. Callbeck has put in a price for labor of \$55. This building would have to be painted next year, and as the above price for labor appears moderate and the paint is on hand I would recommend that it proceeded with.

Kindly advise if this is approved by air-mail so the painters may go ahead when the finish the residential building.

Your obedient servant,

W. B. Murray
Indian Agent.

OFFICE OF THE
INDIAN AGENT

Stony Indian Agency,
Morley, Alta., Aug. 9, 1939.

Dear Sir :-

I have been requested by Mr. Staley to ask for authority for a new sink in the kitchen of the school. The present one is too small for work since the school has been enlarged to accommodate 20 more pupils.

The main use of it is for washing dishes and as the dimensions of the sink are 29 x 22 x 12, it is obvious that it is inadequate for dishes for over 100 persons.

Mr. Staley has obtained a price from McFarlane and Wilson, Calgary, to make one from angle iron and heavy galvanized iron, complete with drain board, for \$40. This will be large enough for the purpose and will utilize all the available space.

I beg to ask that this be approved.

Yours obediently,

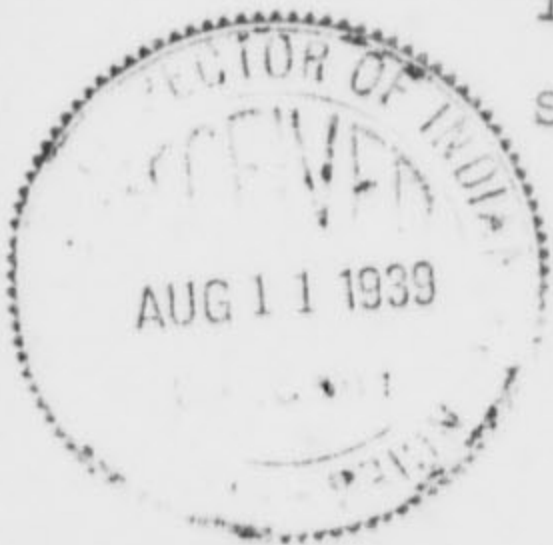

W. B. Murray
Indian Agent.

Mr. C. P. Schmidt,
Inspector of Indian Agencies,
Calgary, Alta.

CANADA
DEPARTMENT
OF
MINES AND RESOURCES

Calgary, October 2nd, 1939.

Sir:

Reference your radiogram of the 25th ultimo re repairs required for electric pump at the Morley Indian Residential School, Stony Agency, I beg to advise that in the absence of Mr. Schmidt, I got in touch with Dr. W. Barr Murray, the Indian Agent, who suggested that I ask Mr. P. Kennedy, Plumber, Calgary, to go to Morley to fix this pump. I contacted Mr. Kennedy, who went to Morley to look over the pump to see what repairs and material were required.

Mr. Kennedy called at this office today and informed me that the cost of the job would be \$94.00, for labour and material, including 40 feet of 3-inch pipe, 40 feet of 58 wood pump rod, 3-inch cylinder, material for air cushion, &c. He stated that the pump is at present "hammering itself to pieces" and that something should be done at once, but he preferred that I inform the department of the cost before he proceeded with the work. I am sending this letter by air mail, and beg to ask for a reply by radio so that there need be no delay in getting this pump in good working order.

Your obedient servant,

C. Pant. Schmidt

Dear Sirs:-

Regarding the painting of certain
buildings at the Morley Indian Agency:-

I finished this work Aug 28th and
forwarded my statement to Dr Murray,
Morley Indian Agent, on Aug 28th as
instructed by himself. His clerk
has informed me since that
he had forwarded this statement
to your Dept promptly and that
I would receive a check directly
from your Dept.

Up to time of writing I have
heard nothing further. Last year
for work done at Morley I rec'd
check for same from the Agent,
and wondered if your Dept had

Indian Affairs. School Files.

2

forwarded funds to him this
year, which he would, in turn,
forward to me, However I have
heard nothing, as yet, from
any source.

Thanking you in advance
if you will look into this
matter I am

Yours Very Truly
W. S. Callbeck.

Gov't. of Dominion of Canada,
Dep't. of Indian Affairs,
Morley, A.

Attention W.B. Murray, Esq.,

Dear Mr. Murray:

With reference to your enquiry of 7th September, we regret to advise that we are unable to quote on a kitchen sink of heavy galvanized iron. We could however, if required, have such a sink made of 'Staybrite' stainless steel and on this we could quote as follows:-

One only 'Staybrite' stainless steel sink
with dimensions as listed in your
letter of 7th September, 10 gauge,
Satin Finish..... \$137.50 nett

This price is f.o.b. Calgary including tax.

This sink would have a stand made of 1" diameter pipe and angle iron sufficiently strong enough for legs and braces, painted aluminum, and would have the necessary splash board on the wall 22 x 10" as requested.

We appreciate your enquiry and hope we may be favoured with an order covering your requirements.

If you require any further information, please do not hesitate to write to us again.

Yours faithfully,

Manager - Calgary Division

REGISTERED

Stony Indian Agency,
Morley, Alta., Nov. 8, 1939.

Sir :-

I am informed by Mr. Schmidt that I should have received two circulars in regard to fire prevention, No. 502-920 -- 150-65, Oct. 4, and 502-060 -- 150-65, Oct 10, 1938, both of which were addressed to principals of Indian Residential schools.

The only one to reach this office is No. 502-606-- 150-65 dated ~~Oct.~~ 10, 1938.
Feb.

I would be pleased to receive the above two if they were overlooked.

Your obedient servant,

W. B. Murray

Indian Agent.

11.

Stone Indian Agency,
Morley, Alta., Jan. 21, 1940.

Sir:

I beg to report that it has been necessary to incur two bills for urgent repairs to plumbing.

The first was in my house when a water pipe plugged up with rust and sediment stopping the flow; also a pipe rusted through at the thread. P. Kennedy was called and made the repair.

The second accident was at the school. A swing check valve between the pump and pressure tank gave way allowing water to run back through the pump and flood the floor. I purchased a new check valve and new washers and the school staff did the work.

I trust my actions will be approved.

Your obedient servant,

W. Barr Murray.

Indian Agent.

The Secretary,
Indian Affairs Branch,

OFFICE OF THE
INDIAN AGENT

CANADA
DEPARTMENT
OF
MINES AND RESOURCES
INDIAN AFFAIRS BRANCH

PLEASE QUOTE
FILE 2

Stony Indian Agency,
Morley, Alberta
July 11th, 1940.

Sir:

Attached herewith please find six separate requisitions for the Morley Indian Residential School.

1. This requisition is asking for beds, mattresses, and blankets. These are really necessary in order to keep up the equipment.
2. Requisition for 1000 ft. No.1 Edge Grain Flooring. This is really required for patching worn places in the various dormitories and other rooms in the Residential School building. I inspected these floors recently and recommend this expenditure.
3. Requisition for paint and shingle stain. I recommend that this paint be purchased in order to preserve the roofs and interior woodwork.
4. Requisition for materials to build an additional mink house, capable of housing 150 mink. The raising of mink has been very successful enterprise. The staff and the school boys are very enthusiastic with this venture and I recommend this material be furnished.
5. Requisition asking for repairs to plumbing and toilets, and a new toilet bowl, also for the cleaning and blowing out of boilers, and complete check and necessary repairs required for the steam-heating equipment. The boilers should really be blown and cleaned out each year. This work has not been done for three years. I recommend this be done as early as possible in order that we may avoid more costly repairs at a later date.
6. Requisition asking for Battleship linoleum to cover school dining-room floor. If funds are available I would like to have this done, but the five previous items are more important, and this could probably wait for another year.

Your obedient servant,

J.N.R. Iredale.
Acting Indian Agent.

The Secretary,
Indian Affairs Branch,
Dept. of Mines & Resources,
Ottawa.

EXD.

Ottawa, July 19, 1940.

Dear Sir:

With reference to your letter of the 11th instant, enclosing requisitions for equipment requested for the Morley Indian Residential School, the following action is being taken:-

1. Beds and mattresses requested will be purchased by the Purchasing Branch. The Department does not supply blankets.
2. The paint and shingle stain is also being purchased through the Purchasing Branch.
3. Materials required for repairs and improvements to the mink-house will be purchased by our Purchasing Branch.
4. You may expend an amount of \$44.00 in purchasing from a firm on the approved list No. 1 Edge Grain Flooring for repairing the floors.

An amount of \$60.00 may be expended in replacing one closet bowl, making repairs to plumbing and toilet and blowing out boilers. The amount just mentioned includes both material and labour.

You may expend \$20.00 in the purchase of hardware, nails, hinges, and catches in repairing the mink-house.

Owing to lack of funds, the Department is not in a position to consider purchasing the Battleship linoleum at the present time

Yours truly,

Philip Phelan,
Chief, Training Division.

Attention Mr. Philip Phelan,
Chief, Training Division

Dear Sir:

Replying to your letter of the 7th wherein you request a receipted railway expense bill for \$9.71 covering the freight upon a shipment to the Morley Indian Residential School, ordered upon your purchase #3266 of August 13th.

Please be advised that it is absolutely impossible for us to supply you with a receipted railway expense bill covering this amount of freight, as the amount of tax and freight are part and parcel of our quotation upon your requisition #34776, file 15/3. The freight is based upon inclusion in carload lots from our Winnipeg factory to our Calgary selling branch, and re-shipment by local freight from Calgary to Morley.

From the above you will recognize that we could not possibly have a freight bill from Winnipeg to Morley, and in any event, the freight would be extremely higher if merchandise was shipped L.C.L. from Winnipeg to Morley.

As your request for quotation called for f.o.b. Morley prices, instead of quoting you a straight price, which we would have done had it been a matter of local freight to be added, we showed in our quotation the prices of the articles, the tax and the freight as three separate items.

We trust that with this information before you you will be able to pass our invoices for payment.

Yours very truly,
PARKHILL BEDDING LIMITED

INDIAN RESIDENTIAL SCHOOL
UNITED CHURCH OF CANADA
REV. E. J. STALEY, PRINCIPAL

MORLEY, ALTA.
January 4, 1940.

Mr Iredale,
Indian Agent,
Morley, Alberta.

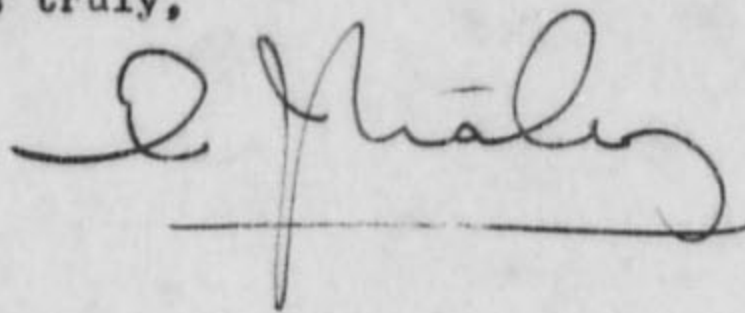

Dear Mr Iredale,

I wish to thank you for the very prompt attention given to our request for aid in the serious difficulties that arose by reason of the recent breakdown in our electrical system at the school. I am sorry the case was such as to need the immediate attention of an electrician and the time could not be spared to meet the request to the department in the usual way.

The situation revealed much more serious difficulties than we had imagined and involved a large amount of rewiring in the old part of the building. In fact, such was the condition of wiring that we were very lucky to have escaped from a much more dangerous situation. Prior to the rebuilding, five years ago, the wiring had carried much too heavy loads and this was the real cause of the recent breakdown.

I can assure you that the prompt relief that we got from a very dangerous situation was greatly appreciated.

Yours truly,

Indian Affairs. School Files.

PLEASE QUOTE
FILE 34

Stony Indian Agency.
Morley. Alberta .
6th January. 1941

Sir:

In connection with attached Voucher No. 216
in favour of Lloyd Orr Electric, Calgary. for \$82.91,
for electrical repairs and labour at the Morley
Residential School.

I would point out that this was very urgent. I was
called over to the School on the morning of the 26th
December, as they had a break down in the power at the
School residence. Mr Staley informed me that Lloyd Orr
Electric had done the installation of the electric system
I therefore got this man on the phone and asked him to
come out and fix up the trouble, as myself and the School
Staff were unable to locate the reason for the breakdown.
He therefore came out, and discovered that we had been in
serious danger of having a fire, as a lot of the old wiring
was completely burnt out, and this job turned out to be more
costly than we had expected. However this job should be ~~EX~~
good for many years to come .

Your obedient servant.

OFFICE OF THE
INDIAN AGENT

CANADA
DEPARTMENT
OF
MINES AND RESOURCES
INDIAN AFFAIRS BRANCH

PLEASE QUOTE
FILE 2-D.

Stony Indian Agency.
Morley. Alberta.
28th June. 1941

Sir: With Reference to your letter dated 13th June.
1941, File 409-11-A. Attached herewith are six
requisitions prepared by Rev. E.J.Staley, Principal
of the Morley Indian Residential School.

Requisition 1. This is for paint, varnish,
shingle stain, for Residential School

Requisition 2. Mr Staley says present septic tank
needs alterations and enlarging.
As it is, the tank cannot adequately
take care of sewage disposal.
Estimated cost \$250.00.

Requisition 3. I would recommend that the 400 feet
of flooring be furnished and at least
\$100.00 be allowed for plumbing and
electrical repairs.

Requisition 4. I am not inclined to recommend this
expenditure this year.

Requisition 5. As the crop at the school farm,
appears to be progressing favourably
I would recommend this purchase.

Requisition 6. On this requisition I would ask the
300 feet of Galvanized water pipe
be purchased. Mr Staley wants this,
to pipe water to the hogs, and other
live stock. The Binder and rake
should wait to see how the crop looks
later on.

Your obedient servant.

J.W.R. Iredale
Acting Indian Agent.

C.P.Schmidt Esq.
Inspector Indian Agencies.

INSPECTOR OF INDIAN AGENCIES

409-11A

CANADA
DEPARTMENT
OF
MINES AND RESOURCES

119-1-5
Calgary, July 14th, 1941

Sir:

I beg to enclose herewith six requisitions for material and labour for the Morley Indian Residential School, prepared by Rev. E.J. Staley, the Principal, and forwarded here by Mr. J.N.R. Iredale, the Acting Indian Agent. I am changing the order of preference as follows:

409-11A
-1.- Requisition No. 2 is for enlarging the septic tank. This is very, very much needed: The present tank is too small. (Ref. my reports on this School, dated Feb. 2nd and Dec. 2nd, 1939, Pages 7 and 6, respectively). I would ask that this matter be given immediate consideration, and the work completed before the reopening of the School in September, next.

-2.- Requisition No. 3: I would ask that \$150.00 be allowed for plumbing repairs.

-3.- Requisition No. 5: Both the Binder and Hay Rake will be required this Summer. I recommend that these items be allowed.

EXTRACT 119-1-14
Re Requisition No. 1, for paint - both outside and inside: Re-painting the outside, and decorating the interior would, of course, brighten things up: However, owing to War conditions, I am not recommending same. The Department are aware that we have cancelled a certain amount of outside painting of the Agency buildings: (Ref. Dept. No. 21-119 of June 6th, 1941). The Agency and School buildings are only a few rods apart, and both are seen from the main (tourist) highway; if any exterior painting is done, both sets of buildings should be touched up.

EXTRACT 119-1-14
Requisition No. 4 is for a shed to be built on what is referred to as the Orphanage Ranch; Viz., lands taken over by the School (Church) for stock grazing purposes. (See Dept. No. 119-1-9 dated Dec. 17th, 1936; also No. 119-1-14 dated May 14th, 1937, and Jan. 29th, 1938). The School grow a few acres of green feed and keep their main herd of cattle on this place, both in Summer and Winter. Owing to War conditions, I am not prepared to recommend this, and I am wondering whether the Department should be asked to pay for improvements on this farm.

EXTRACT 119-1-14
Requisition No. 6 is for 300 feet of two-inch pipe, to convey water to the hogs: This is, without a doubt, a great labour-saving device; however, I consider the work can be carried on as in the past, and the saving of the cost of the material go towards War services.

Re flooring asked for on Requisition No. 3: This is asked for to renew the flooring in the dormitories. These floors are showing signs of wear, and will have to be renewed before long. If the Department find that they cannot grant the full amount, I would suggest that say half of it be given this year.

Your obedient servant,

The Secretary,
Indian Affairs Branch,
Dept. of Mines & Resources,
O T T A W A .

C. Pant. Schmidt,
Inspector of Indian Agencies,
Alberta Inspectorate.

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-5, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

119-1-5

Ottawa, July 21, 1941.

Dear Sir:

I desire to refer to your letter of the 14th instant, enclosing requisitions for expenditure in connection with improvements at the Morley Residential School.

In the current year's appropriation it was found possible to include an amount of \$405.00 only, for repairs and improvements and the purchase of new equipment at the Morley School. Under these circumstances, we can only favourably consider allowing Requisition No. 2, enlarging septic tank, at a cost of \$250.00, and as regards Requisition No. 3, we can allow \$150.00 towards the cost of plumbing repairs.

Your requisition in connection with the septic tank is not exactly clear. It reads as follows:-

Re enlarging of septic tank 12 x 12 x 7	\$110.00
Material, cement, gravel, sand and fittings	
Labour and alterations to present tank	140.00
	<u>\$250.00</u>

Am I to infer that the item of \$110 is for labour? In regard to the materials costing \$140, detailed information must be given in order that purchase may be authorized by our Purchasing Branch. Can the work be done under the supervision of the Principal or the Agent?

With reference to the amount that will

be -

Mr. C. P. Schmidt,
Inspector of Indian Agencies,
Calgary, Alberta.

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-5, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

- 2 -

be allowed for plumbing repairs, namely \$150.00,
explicit information should be given in order that
this item may be dealt with by our Purchasing Branch.

In view of lack of funds, it will
not be possible this year to favourably consider
the other requisitions forwarded with your letter.

Yours truly,

Philip Phelan,
Chief, Training Division.

Stony Indian Agency.
Morley. Alberta.
August 15.1941

Sir:

Re your letter, file 409-11A, dated July 26th 1941, regarding the repairs for the septic tank at the Morley Residential School.

After receiving your letter, Mr Staley got Mr Lepper of the F.H. Lepper Co, of Calgary, to come out and give an estimate on the work required, with the result, Mr Lepper said the septic tank did not require to be enlarged, and that the whole trouble was caused by the laundry water going directly into the first compartment of the septic tank. As this liquid contained so much soap, lye, and other bleaching compounds etc, it absolutely killed or destroyed bacterial action, which would ordinarily take place in the first compartment of the septic tank, with the result that the tank was always plugging up with solids, and would not syphon into the second and third compartments.

Therefore, the only way to remedy the condition, would be to re-construct the drains from the Laundry and run the drainage direct from the Laundry to the third compartment of the septic tank. This would entail a considerable amount of labour, as they would have to dig a trench about four or five feet deep, and about one hundred feet long. They would also have to take up part of the Laundry floor (concrete) and break through the concrete foundation in order to change the direction of the drains. The Lepper Co. have agreed to do the work and furnish the material required, for the sum of \$250.00.

Regarding the other plumbing work required. This is asked for, to instal an eight feet double wash sink in the girls wash room. The Lepper Co have one of these on hand, which they have had for some time, and the cost of the material is \$165.00. In view of the fact that they have had to keep this wash sink for years, before they had a call for it, they offer to instal this at the Morley Residential School, Material and Labour, for the sum of \$150.00.

The above offer would appear to me, to be very reasonable, and the work is very necessary, and should be done immediately, if possible before school re-opens. However, I would mention that this Company's name does not appear on the approved list.

G.P. Schmidt Esq.
Inspector of Indian Agencies.
Calgary. Alberta.

For your consideration, please.

Your obedient servant.

Copy of Mr Lepper's letter
attached.

INDIAN AFFAIRS BRANCH

Calgary, August 18th, 1941.

Sir:

Reference your No. 119-1-5 of the 21st ultimo, in connection with improvements at the Morley Residential School, I beg to advise that I sent a copy of your letter to Mr. J.N.R. Iredale, the Acting Indian Agent, asking him for details as requested therein.

I beg to enclose herewith copy of his reply, together with copy of Mr. Lepper's letter attached thereto.

I trust this is the information required by the Purchasing Branch.

Your obedient servant,

C. Pant. Schmidt,
Inspector of Indian Agencies,
Alberta Inspectorate.

EX'D
A

Dear Sir:

With reference to requisition of the 11th ultimo, for refills for the fire extinguishers at the Morley Residential School, I attach copy of purchase order 12028 showing that two of the items have been ordered from the Pyrene Manufacturing Company.

The Purchasing Branch was not exactly certain what was meant by your request for 2 gallons of Fyr-Fighter fluid. You may, therefore, purchase this locally.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

PLEASE QUOTE
FILE 2-D.

Stony Indian Agency.
Morley. Alberta.
27th May. 1942

Sir: Attached herewith, three requisitions for articles required for the Morley Residential School. These requests are shown on Page 18 of the 1942-43 Estimates.

Requisition 1. This paint and varnish is required for interior decorating of the residential building, and also for the class room building. The labour will be done by the School Staff at no extra cost.

Requisition 2. 4000 feet of flooring is required for repairing the floors which are very badly worn, in the boys and girls dormitories. The work to be done by the staff.

Requisition 3. This is for shingle stain required for the roofs of the out buildings and sheds on the School grounds. This work will be done by the staff.

I wish to make recommendations that these expenditures be authorized, and the work proceeded with, at an early date.

The Secretary,
Indian Affairs Branch, OTTAWA.

Sir: FORWARDED AND RECOMMENDED.

E.A.D.

Dear Sir:

I am in receipt of voucher No. 74 for \$16.20 covering the cost of refills for fire extinguishers purchased for the Morley Indian Residential School. This account is being paid, but I cannot understand why you quote order No. 12028 as authority. This purchase order was issued for a specific item and is not a blanket authority. The articles purchased by purchase order No. 12028 were paid for some months ago.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

INDIAN RESIDENTIAL SCHOOL
UNITED CHURCH OF CANADA.
Rev. E.J.Staley, Principal

MORLEY ALTA.
September 6th 1943

Mr. Iredale,
Indian Agent,
Morley Alta.

Dear Sir:

Would you be good enough to forward to your Department the attached statement relative to fees paid for boiler inspection at the School. You will notice that this year we were compelled to pay the fees for several years although only one inspection actually was made. If a refund could be allowed us as per the attached statement, it would be appreciated.

Yours truly

(Sign.) E.J.Staley.

Indian Affairs Branch,. Dept. of Mines and Resources,. Ottawa.

Attached herewith is a copy of a letter received from
Rev. E.J.Staley Principal Morley Indian School regarding
" Boiler Inspection Fees" at the School.

Mr Staley has paid this account of \$ 22.50 which covers
from 1940 to 1943. A copy of the statement is also attached.

Would it be possible for the Department, to reimburse
the School for this expenditure?

*But see
How we
received money
from
J.N.R.Iredale

Mr. J.N.R. Iredale, Acting Indian Agent,
Morley, Alta.

I have your letter of the 28th ultimo,
with reference to boiler inspection fees at the
Morley Residential School. It is noted that the
Principal has paid the amount; namely, \$22.50.
He should obtain a receipt and hand same to you
which you should attach to proper voucher forms
and submit for payment.

R.A. Hoey,
Supt. of Welfare & Training.

EX'D.
A.

Mr. J.N.R. Iredale, Acting Indian Agent, Morley,
Alta.

In reviewing your estimates for the fiscal year 1944-45 I find that you request a supply of paint for the Morley Residential School. As we have some funds remaining in our current year's appropriation, it has been decided to supply the paint now and when received at the school it can be carefully stored and kept until next year. This will reduce the expenditure during the fiscal year 1944-45.

R.A. Hoey,
Supt. of Welfare & Training.

Re Boiler Inspections
Morley Indian Residential School.

Attached herewith is Voucher No 138 in favor of
Rev. E.J. Staley, Principal Stony Indian Residential School
Morley for \$ 22.50 to reimburse him for money paid out for
Boiler inspections, this is in accordance with instructions
contained in Departments letter to me of the 5th. October
1943 file 119-1-5.

It is hoped that the one receipt attached to the
original voucher will be sufficient.

end of June for the summer holidays, I would
like to receive permission to proceed with
this work at an early date.

Mr. Amos said he expected to be able
to start by the end of June, but I would like
to be able to make definite arrangements with
him before he lined up any other jobs.

J.N.R. Iredale,
Actg. Indian Agent.

FORWARDED AND RECOMMENDED.

C. Pant. Schmidt,
Inspector of Indian Agencies,
Alberta Inspectorate.

Re: Painting the Morley Residential School.

Attached herewith is a tender obtained
from Mr. H. Amos of Calgary.

It should be mentioned that the paint
for this work was supplied by the Department
last year. Re: Department letter 119-1-5, dated
14th October, 1943.

We have only been able to get two paint-
ers to come out to estimate on the work as follows:

Palex Painters Ltd., Calgary.
Their estimate - labour only.
Large Residential Bldg. \$775.00
Small School Room Bldg. 125.00
Total 900.00

Mr. Amos, Calgary.
For labour only, painting the both,
Residential Bldg. and school Room
Building.
Total \$533.00

There is also some work required to be
done inside the Class room Building. The plaster
on the walls and ceilings require repairing. There
are several places on the ceiling where the plaster
has fallen off and the walls also need to be patched
in several places. There are also several places
in the hallway that need patching. This work is
urgent and should be done.

Mr. Amos has offered to do the necessary
repairs and redecorate the inside for the sum of
\$72.00 as per attached estimate.

AIR MAIL

Ottawa, June 28, 1944.

Mr. J.N.R. Iredale, Acting Indian Agent, Morley, Alta.

With reference to your letter of the 15th instant, you may accept the tender of \$533.00 from Mr. H. Amos for painting the exterior of the Morley Residential School. You may also accept his tender of \$72.00 for repairing the interior of two classrooms and halls of the school.

The Department wishes you to oversee the work and make certain that Mr. Amos carries out the work satisfactorily.

When the work is completed you should arrange to have the Principal submit a report regarding it.

Philip Phelan,
Chief, Training Division.

REV. E. J. STALEY, PRINCIPAL

MORLEY, ALTA.

March 24th. 1945.

Mr. Iredale,
Indian Agent.

Dear Sir;

The attached invoices from Lepper and Co., are of course a re-
presentation of bills originally forwarded last October .

Most of the work involved came about by reason of emergent repairs
that had to be affected at the school. Among other things the hot water
system broke down completely and it was found that quite apart from repairs
being needed to the jacket heater, that certain lines and most of the taps
were completely worn out and incapable of being repaired. Accordingly
repairs to this phase of our hot water supply were affected. This involved
a great deal of the material on invoice including new fume pipes from the
jacket heater. While dealing with the hot water system repairs were affected
to the toilets through the buildings and in addition several leaky valves
on the heating system were either repaired or replaced.

The appendix shows a crane check valve that had to be secured and
fitted in the pipe line leading from the pump to the water storage tank.
The old valve was worn out and was allowing the water to leak back into the
well.

The bill as a whole can be certified as correct and came about
because after twenty years of use the break down of one portion necessarily
resulted in trouble in other directions.

Yours truly.

OFFICE OF THE
INDIAN AGENT

119-1-5
Stony Indian Agency,
Morley, Alberta.
March 28th. 1945.

Indian Affairs Branch, Department of Mines & Resources, Ottawa.

Re:- Voucher # 295 - \$224.81
Lepper & Company, Calgary.

This account is for plumbing work done by the above named firm at the Morley Indian Residential School building during the month of October, 1944.

Sometime early in October, 1944 Mr. Staley notified me that he was having some trouble with the hot water system and must have some immediate repairs done.

As this appeared to be an emergency he said he would have to get a plumber out right away. In this I concurred.

At that time I was under the impression that it not going to be a very big or expensive job. I was not notified by Mr. Staley that it had become necessary to do so much additional work.

The first I knew about this invoice was about a month ago when I received an "Account Rendered" statement from the plumbing company and upon making enquiries from Mr. Staley he said he had received the invoice last October and had brought it over to the Agency Office, but I am sure that it was never received by this office.

However, I got in touch with Lepper & Co. and asked them to re-submit their account and when I received their statement I was considerably surprised at so much work being done without the usual authority. So much so, that I requested Mr. Staley to write a letter of explanation a copy of which is attached herewith.

I checked over the work and it appears to have been done alright. I notice one item in the account for "meals \$6.60." I don't think this item should be allowed.

J.N.R. Iredale.
Acting Indian Agent.

Memorandum:

DEPARTMENTAL PURCHASING AGENT.

I attach account amounting to \$224.81, covering the cost of material and labour for repairs to the plumbing system at the Morley Indian Residential School. This school is situated in the Stony Indian Agency, province of Alberta, and is owned by the Government. With reference to the account, the Agent writes in part as follows:-

"This account is for plumbing work done by the above named firm at the Morley Indian Residential School building during the month of October, 1944.

"Some time early in October, 1944, Mr. Staley notified me that he was having some trouble with the hot water system and must have some immediate repairs made.

"As this appeared to be an emergency, he said he would have to get a plumber out right away. In this I concurred.

"At that time I was under the impression that it was not going to be a very big or expensive job. I was not notified by Mr. Staley that it had become necessary to do so much additional work."

I also enclose copy of a letter from the Principal of the Morley School.

While it is true that no specific authority was given for this work, the explanation made by the Principal seems reasonable, and as the building is owned

INDIAN RESIDENTIAL SCHOOL
United Church of Canada
Rev. E. J. STALEY, Principal.

Morley, Alta.,
March 24th, 1945.

Mr. Iredale,
Indian Agent.

Dear Sir:

The attached invoices from Lepper & Co. are of course a re-presentation of bills originally forwarded last October.

Most of the work involved came about by reason of emergent repairs that had to be effected at the school. Among other things the hot water system broke down completely and it was found that quite apart from repairs being needed to the jacket heater, that certain lines and most of the taps were completely worn out and incapable of being repaired. Accordingly repairs to this phase of our hot water supply were effected. This involved a great deal of the material on invoice including new fume pipes from the jacket heater. While dealing with the hot water system repairs were effected to the toilets through the buildings and in addition several leaky valves on the heating system were either repaired or replaced.

The appendix shows a crane check valve that had to be secured and fitted in the pipe line leading from the pump to the water storage tank. The old valve was worn out and was allowing the water to leak back into the well.

The bill as a whole can be certified as correct and came about because after twenty years of use the break down of one portion necessarily resulted in trouble in other directions.

Yours truly,

(Rev. E. J. Staley)

Ottawa, April 4, 1945.

Memorandum:

DEPARTMENTAL PURCHASING AGENT.

I attach account amounting to \$224.81, covering the cost of material and labour for repairs to the plumbing system at the Morley Indian Residential School. This school is situated in the Stony Indian Agency, province of Alberta, and is owned by the Government. With reference to the account, the Agent writes in part as follows:-

"This account is for plumbing work done by the above named firm at the Morley Indian Residential School building during the month of October, 1944.

"Some time early in October, 1944, Mr. Staley notified me that he was having some trouble with the hot water system and must have some immediate repairs made.

"As this appeared to be an emergency, he said he would have to get a plumber out right away. In this I concurred.

"At that time I was under the impression that it was not going to be a very big or expensive job. I was not notified by Mr. Staley that it had become necessary to do so much additional work."

I also enclose copy of a letter from the Principal of the Morley School.

While it is true that no specific authority was given for this work, the explanation made by the Principal seems reasonable, and as the building is owned

Re:- Morley Residential School
New Purchases

The Rev. E.J. Staley, Principal of the Indian Residential School at Morley has requested that certain new equipment be purchased for the school as under:-

One new Connor washer (commercial size) costing about \$800.00. I am informed that the present machine is practically worn out, will not last much longer and cannot be further repaired.

Mr. Staley also requests authority to have the smaller "Maytag" machine repaired at an estimated cost of approximately \$80.00.

Also the laundry stove is completely worn out and it is desired that the school be furnished with a new one.

The principal also wishes to get a complete new set of fire-box linings for the large kitchen range, (Gurney, John Bull) which will cost approximately \$25.00.

Mr. Staley also pointed out that he would like to get 10 new institutional beds which will cost approximately \$25.00 each complete with mattresses, but in this connection he says he could use Air Force double deck cots which he thinks can be purchased for about \$8.50 each, less mattresses, which can be purchased from the salvage department at about \$2.50 each mattress.

I would ask that immediate consideration be given to these various requests.

AIR MAIL

Ottawa, August 6, 1945.
Mr. J.N.R. Iredale, Acting Indian Agent,
Morley, Alberta.

I have your letter of the 31st ultimo, with reference to new equipment requested by the Principal of the Morley Residential School. The following expenditures are authorized:-

1. \$80.00 to repair the small "Maytag" washer;
2. \$25.00 to purchase firebox linings for the large kitchen range.

With reference to the new washer, which you state is necessary, please let me have the serial number and any other information possible regarding the washer at present in the school. If you know when this washer was supplied, you should also give that information.

Regarding the laundry stove, please state the type and size of stove required and, if possible, quote a catalogue number. Purchase of the washer and the stove will be handled by our Purchasing Branch and they require complete information before they can ask for prices.

Regarding the last paragraph of your letter, in connection with the beds and mattresses, I would appreciate knowing from whom Mr. Staley secured the information that Air Force double deck cots can be secured for about \$8.50 each and mattresses for about \$2.50 each. Our information is to the effect that the purchase of equipment used by the Air Force has to be made through the War Assets Corporation, Montreal, and so far we have not been able to secure any such equipment from them.

Philip Phelan,
Chief, Training Division.

AIR MAIL

119-1-5
Stony Indian Agency,
Morley, Alberta.
August 9th. 1945

AUG 11 1945

Indian Affairs Branch, Department of Mines & Resources, Ottawa.

Re; - Morley Residential School.
New Purchases.

In reply to your air mail letter of the
6th. inst. relative to equipment and repairs required
at the Morley Residential School, file 119-1-5.

Regarding the new washer required, the
present washer is a
J.H.Connor. Ottawa.
Model 24. W.
No. 133.
Volts 110 - 220 - 60 cycle.
Installed 1935.
Cost - not known.

The motor in this machine is worn out
and has been repaired many times. However, I think
that it can be salvaged for use in the boys' manual
training shop.

We should try to obtain a new washer
a size larger than the one described above.

Regarding the stove used in the laundry
room. This is really a cook stove with a reservoir,
less a warming oven. Description is as follows:-

McClary. "Triumph"
4 hole cook stove, with back and reservoir.
24" X 30" height 30"
Reservoir 24" X 12"
Cost about \$60.00

This stove is used to heat two galvanised
boilers for boiling clothes, and also for heating sad
irons in order to teach the girls how to do washing and
ironing in their own homes under similar conditions.

Regarding the last paragraph in your letter
Mr. Staley has already purchased used double decked beds,
(Airforce) from the Brock Company, Western Limited at
\$7.50 each. I am enclosing herewith an invoice for seven
double decked beds which he purchased in June 1945, which
he paid for from school funds. He says he has also
purchased mattresses at \$2.50 each but does not know if
any more are available at the present time. He also
showed me an invoice for another six double decked beds
and also showed me the beds which he has not yet set up.
These he purchased on August 1st. 1945 and which, I under-
stand are being paid for from school or church funds.
By using these double decked beds he is creating a little
more floor space in the boys' dormitory.

(Over)

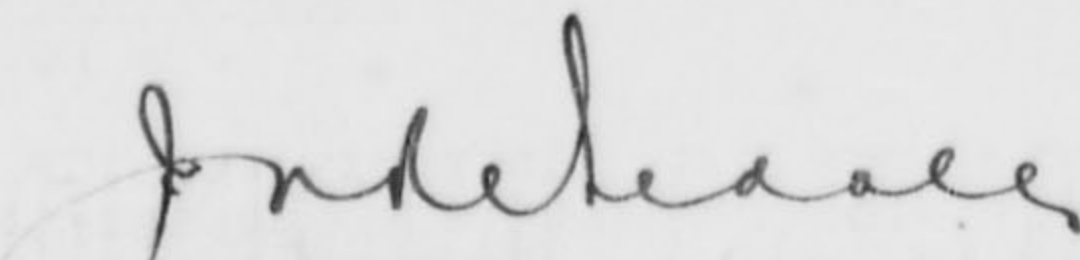

Indian Affairs. School Files.

2.

I might add that the double decked beds all bear the manufacturers name, "Simmons Limited" and there is no doubt about them being used previously by the armed forces. But they are all in practically new condition.

It is hoped that the foregoing information will prove sufficient for your requirements.

J.N.R. Iredale.
Acting Indian Agent.

Re: - Electric Wiring

Morley Indian Residential School

Rev. E.J. Staley, principal at the Morley Indian Residential School has brought to my attention the condition of the electric wiring in the school residence building. He has written me requesting that consideration be given to the necessary re-wiring. A copy of Mr. Staley's letter is attached hereto.

Recently I looked over this situation and I find the wiring referred to is quite old and is very brittle. I think it should be thoroughly gone over by an electrician.

As this work might run into quite a sum of money I thought I should write to you before calling out an electrical firm to give a detailed estimate of the work and materials required.

However if you grant me permission I will ask for an estimate and submit it for your approval.

No action will be taken by me until I receive your reply.

J.N.R. Iredale.
Acting Indian Agent.

Indian Residential School
United Church of Canada
Rev. E.J.Staley,
Principal.

Morley, Alta.
Jan. 1st. 1946

Dear Mr. Iredale.

I have become alarmed at the condition of some of the electric wiring at the school and examination of some of it reveals that there is a basis for worry. Many of the rooms are lighted by old fashioned drop cords and these with the sockets have been in use for twenty years with the result that the wiring is very brittle and the insulation in most cases gone. Other wiring leading to some of the machinery should be gone over and I would request that something be done to deal with what could easily turn into a serious situation.

Wiring installed at the Mission House at the same time, by the same people, had recently been the cause of a few thousand dollar fire. I would request then that sixty drop cords and sockets be renewed, or better still, that in some places in the school, a new system of lighting altogether be installed. The sewing room, office, dispensary, staff dining room and sitting room should all have modern lighting.

Your attention to the matter would be appreciated although I am not in the position to give you any figure as to cost at the present.

Yours Truly,

(Sgd.) E.J.Staley

Re: Structures and Fencing at Stoney
Indian Reserve, (Internment Camp)
Ozada, Alberta

Dear Sir:

Particulars are submitted hereunder of assets declared surplus to this Corporation at the above mentioned location. The description and dimensions are those given to us by the declarer.

6	Temporary Buildings	approx. 24' x 48'
3	Ice Houses	
28	Watch Towers	
	Double wire fence	

Subject to senior priority, would you please advise us whether or not your department would be interested in purchasing the above. Should we not hear from you before January 30th 1946 we shall assume that you are not interested and will proceed with disposal through other channels.

Yours faithfully,
WAR ASSETS CORPORATION.

Re: Structures and Fencing at Stoney
Indian Reserve. (Internment Camp).

I have your letter of the 16th instant,
with reference to structures and fencing at Stoney
Indian Reserve Internment Camp, which are now available
for sale.

At the present time, we are giving
serious consideration to increasing the size of the
Stoney Reserve and as a consequence will require
several new buildings. The buildings mentioned in
your letter might be satisfactory for our purchase.
I would appreciate it, if you would let me know their
cost.

Morley, Alberta.

Gentlemen:

In answer to your inquiry re repairs and alterations to electrical installation in School building, we suggest that all chain pendants and drop cords be rewired and sockets replaced where necessary. Also twenty-three box receptacles can be used to replace some drops cords which are in bad shape. Six wall switches and six wall plugs should be replaced.

Other repairs required.
Readjusting alarm gongs; repair main switch; install plug in workshop; install seven new pull switches.

Our estimate complete is One Hundred and Ninety Eight Dollars and Seventy-Five Cents, (\$198.75)

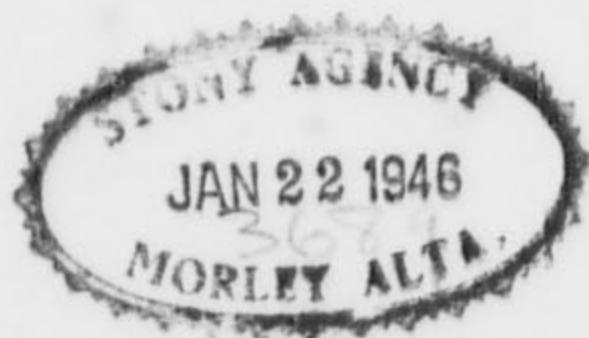

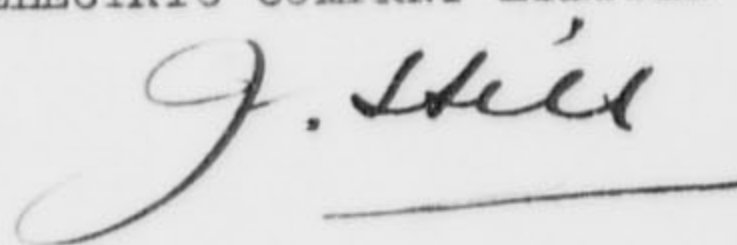

Hoping to be favored with your order for this work, we remain,

Yours truly,

Re: - Repairs & New Equipment
Morley Indian Residential School.

Rev. E.J. Staley, Principal, Morley
Indian Residential School has requested the following for
the School.

Several of the floors are in bad condition
and either want re-flooring or they should be covered with
battleship lino.

Dining Room	175 Sq yds.
Dormitories	150 " "
Sewing Room	37 " "
	<u>362 " "</u>

The cost would be approximately
1.90 per sq. yd.

Laying and Cementing 35 " " "

This would entail an outlay of approximately \$800.00

Classroom Roof. Rain is seeping through the roof which
is causing the plaster to fall off. This should be repaired
during the summer holidays. Mr. Staley estimates the cost
at approximately \$75.00

Kitchen Range. The kitchen range is in need of repairs

New section for the top
New oven door.
New grate linings.

Approximate cost \$100.00

Plumbing work. All plumbing should be overhauled,
Taps, toilets, new rods for pump, boilers cleaned and
checked.

Estimated cost \$125.00

Furnace - classrooms. The furnace is getting to be
in a dangerous condition and should be completely overhauled

Approximate cost \$125.00

It would appear that all the foregoing
requests are very necessary and I therefore ask for your
favorable consideration.

J.N.R. Iredale
J.N.R. Iredale.
Acting Indian Agent.

Ottawa, July 5, 1946.

Mr. J.N.R. Iredale, Indian Agent,
Morley, Alberta.

With reference to your letter of the 28th ultimo,
regarding repairs required at the Morley Indian Residential
School, the following expenditures are approved:-

1. Repairs to classroom roof \$ 75.00
2. New parts for kitchen range 100.00
3. Overhauling plumbing 125.00
4. Overhauling furnace 125.00
5. Cost of laying and cementing linoleum.

The Departmental Purchasing Agent has been re-
quested to secure the 362 square yards of linoleum that you
state is necessary.

With reference to your letter of the 10th in regard to repairs to four furnaces at the Stony Agency, including the school furnace, I would say that the Departmental Purchasing Agent has today been requested to issue an order to have this work done, in accordance with the tenders or estimates you secured from Neilson and Son of Calgary.

When a Purchase Order is issued copy will go forward to you, and you may then get in touch with the firm and arrange with them for the best time to carry out the work.

Attention: Mr. H. J. Davidson

Gentlemen:

Re: Order #12499

On July 22nd, we were given an order File #66452/15/7, Alberta, for 362 square yards of Brown Battleship Linoleum at \$1.51 per square yard. We find that we have been shipped seconds and to fill this order we have taken the liberty of shipping six rolls of seconds, amounting to 362 square yards. The manufacturers have advised us that these are of second quality because there are some abrasive marks on the floor covering, but the moment the merchandise is waxed these marks will come out and we felt that you might not object to our doing this.

The price will be 5¢ per square yard less and if you feel that our action is satisfactory, will you please advise Rev. E.J. Staley, Principal of the Indian Residential School, Morley, Alberta, why this merchandise has a second mark on it.

Thanking you,

Yours very truly,

Re;- Account - F.H. Lepper & Company - \$302.38
Plumbing - Morley Residential School.

This account covers very necessary and emergent repairs at the Morley Residential School. It was necessary to install a new range boiler in the kitchen of the school and also install a new water front on the large kitchen range.

The boilers of the steam heating system were cleaned and repaired. All the plumbing in the building, i.e. water closets, bowls, taps, hot and cold water systems has all been put in good working order.

It was impossible to get an estimate on the work previous to doing the job because the plumber could not tell what might be required.

It is trusted that a purchase order will be issued to cover this account. This work has been completed satisfactorily.

Revised Date

119-1-5 (W.T. 1)

Ottawa, 1 November 1946.

Mr. J.N.R. Iredale, Acting Indian Agent,
MORLEY, Alta.

We have your letter of the 18th instant enclosing
Voucher No. 233 covering an expenditure of \$302.38
at the Morley Residential School.

C
It has been decided to pay this account but we
would point out that authority should have been
obtained before the expenditure was incurred.
We are allowed a certain amount each year for
Indian education and it is simply impossible for
Departmental officers to control expenditures if
Indian agents assume authority for expenditures
which have not been previously authorized.

B
Bernard F. Neary,
Supt. of Welfare & Training.

INDIAN RESIDENTIAL SCHOOL.
United Church of Canada.
Rev. E.J.Staley, Principal.

Edmonton, Feb.7th.

Dear Roy

Your letter with enclosure to hand.

We got two lots of beds about that time
with a further few bought for Dr.Alexander last year.

The beds are those in your boy's dormitory.

I have no way of checking as to the accuracy
of whether they are paid for or not. All bills presented from
Brooks were paid and it is not like them to omit anything.

However I suppose you will have to accept the
material and explanation and unless you can prove to the
contrary pay the bill, for the fact that we received the
beds cannot be disputed.

Kind regards. Yours

(Sgd.)

Re:- Morley Residential School.
New Purchases.

In reply to your air mail letter of the 6th. inst. relative to equipment and repairs required at the Morley Residential School, file 119-1-5.

Regarding the new washer required, the present washer is a
J.H.Connor. Ottawa.
Model 24. W.
No. 133.
Volts 110 - 220 - 60 cycle.
Installed 1935.
Cost - not known.

The motor in this machine is worn out and has been repaired many times. However, I think that it can be salvaged for use in the boys' manual training shop.

We should try to obtain a new washer a size larger than the one described above.

Regarding the stove used in the laundry room. This is really a cook stove with a reservoir, less a warming oven. Description is as follows:-
McClary. "Triumph"
4 hole cook stove, with back and reservoir.
24" X 30" height 30"
Reservoir 24" X 12"
Cost about \$60.00

This stove is used to heat two galvanised boilers for boiling clothes, and also for heating sad irons in order to teach the girls how to do washing and ironing in their own homes under similar conditions.

Regarding the last paragraph in your letter Mr. Staley has already purchased used double decked beds, (Airforce) from the Brock Company, Western Limited at \$7.50 each. I am enclosing herewith an invoice for seven double decked beds which he purchased in June 1945, which he paid for from school funds. He says he has also purchased mattresses at \$2.50 each but does not know if any more are available at the present time. He also showed me an invoice for another six double decked beds and also showed me the beds which he has not yet set up. These he purchased on August 1st. 1945 and which, I understand are being paid for from school or church funds. By using these double decked beds he is creating a little more floor space in the boys' dormitory.

(Over)

CANADA

2.

I might add that the double decked beds all bear the manufacturers name, "Simmons Limited" and there is no doubt about them being used previously by the armed forces. But they are all in practically new condition.

It is hoped that the foregoing information will prove sufficient for your requirements.

J.N.R.Iredale.
Acting Indian Agent.

Re:- Morley Residential School
New Purchases

The Rev. E.J. Staley, Principal of the Indian Residential School at Morley has requested that certain new equipment be purchased for the school as under:-

One new Connor washer (commercial size) costing about \$800.00. I am informed that the present machine is practically worn out, will not last much longer and cannot be further repaired.

Mr. Staley also requests authority to have the smaller "Maytag" machine repaired at an estimated cost of approximately \$80.00.

Also the laundry stove is completely worn out and it is desired that the school be furnished with a new one.

The principal also wishes to get a complete new set of fire-box linings for the large kitchen range, (Gurney, John Bull) which will cost approximately \$25.00.

Mr. Staley also pointed out that he would like to get 10 new institutional beds which will cost approximately \$25.00 each complete with mattresses, but in this connection he says he could use Air Force double deck cots which he thinks can be purchased for about \$8.50 each, less mattresses, which can be purchased from the salvage department at about \$2.50 each mattress.

I would ask that immediate consideration be given to these various requests.

J.N.R. Iredale.
Acting Indian Agent.

Re: Morley Residential School.

119-1-

It is also suggested that this school be provided with a 16 MM Motion picture machine for the entertainment of the pupils, and parents, this it is believed would assist the Principal to gain contact with the people of the Reserve, other than through school. They have a nice church building adjacent to the school, and I note that the congregation on Sundays is always good, and it is thought that a gathering of say once a week of the parents and children would foster a better spirit.

INDIAN RESIDENTIAL SCHOOL
UNITED CHURCH OF CANADA
REV. E. J. STALEY, PRINCIPAL

MORLEY, ALTA.

April 30, 1947.

Mr. J. E. Pugh,
Indian Agent,
Morley, Alberta.

Dear Mr. Pugh:

Mr. Clark Chidlow of the American LaFrance Foamite Co., Calgary checked our fire fighting equipment on Monday, April 28th., and the following supplies are required to fill our four large extinguishers, and to have a refill on hand:

8 Soda Acid Fire Extinguisher Recharges

It was found that 8 of the small "Fyr Fyghter" extinguishers were not working, and these have been taken to Calgary to be checked and, if still usable, repaired and refilled.

Mr. Chidlow recommended that our present fire fighting equipment should be supplemented by the purchase of five new extinguishers of the "Foamite" type at a cost of \$125.25.

In view of the increased safety for the children and staff, and the more adequate protection for the School property which this new equipment would give I believe the expenditure of this amount is amply justified.

Yours truly,

E. Roy Inglis,
Principal

INDIAN RESIDENTIAL SCHOOL
UNITED CHURCH OF CANADA
REV. E. J. STALEY, PRINCIPAL

MORLEY, ALTA.
April 30, 1947.

Mr. J. E. Pugh,
Indian Agent,
Morley, Alberta.

Dear Mr. Pugh:

The matter of fire fighting and adequate protection of life and property at the Morley Indian School has been emphasized by the visit of Mr. Clark Chidlow of the American Lafrance Foamite Co., Calgary, who recently checked our equipment and made suggestions for more effective control of fire.

We need a better system of alarm. At present our alarm is a continuous ringing of a system of inside bells and an outside horn that is also used for the routine changes of duty during the day, and because of this loses much of its effectiveness as an alarm for fire. A distinctive siren for fire only, would certainly increase the possibility of all the occupants of the building getting out safely in case of a sudden fire.

The installation of such a siren would not only be a protection for the School, but might also be of invaluable assistance in the control of fire in other buildings in the area.

The cost of such a siren as quoted by Mr. Chidlow is \$67.50. This is without the cost of installation which would possibly amount to \$50.00 more. In view of the increased protection which such a system of alarm would give I believe this expenditure would be fully justified; and, if it meets with your approval, I hope this suggestion may be passed on for the consideration of the Department.

Sincerely yours,

G. Roy Inglis,
Principal

May 3rd 1947.

INDIAN AFFAIRS BRANCH. DEPT OF MINES AND RESOURCES. OTTAWA.ONT.

I beg to advise that recently on a visit from a Mr Clark Chidlow, representing the American La France Fire Engine and Foamite Co, of Calgary, I took the opportunity of having Mr Chidlow check over the Morley Indian Residential School, requesting him to collaborate with the Rev G. Roy Inglis, Principal of the above school, with a view to ascertaining the condition of his fire-fighting equipment, and general fire protection for this school.

As a result of this visit, I have received the enclosed correspondence from The Principal which sets forth what is considered to be essential in the line of extinguishers for full protection at this school.

It will be observed from the recommendations made by Mr Chidlow that a further 5 new extinguishers of the "Foamite" type should be provided to be placed in the following strategic places in the school building:

- 1- Basement of the Outside Class room building.
- 1- Entrance to Class Rooms upstairs, adjacent to each room.
- 1- Kitchen hallway.
- 1- Furnace room.
- 1- Main entrance hallway to Residential Building.

Prices quoted by the Western Supply and Manf Co of Calgary, Alta for the above type of "Foamite" extinguisher is \$25.15 each for lots of four or more, prices quoted being F.O.B. Calgary, Alta.

The Principal's action in having the several extinguishers that were found to be un-usable, eight in all, is recommended to the Branch for the approval of the expenditure that will be entailed, and it is further recommended that the new extinguishers requested be authorized.

A further letter from the Principal of the above school is also attached suggesting that a Fire Alarm siren be provided, and in discussing this matter with the Rev Inglis, I am inclined to accept his recommendation in the matter, as it would appear that bell ringing has lost its value as a fire protection medium, the siren would also be a warning to the Community at large, being situated in close proximity to the hospital and Agency premises.

To page 2.

(2)

premises;

At the present time, this school is equipped with a fire bell ringing system at the rear doors of the dormitories, which operate as the doors are opened, but not until. The main beel is used for calling staff and pupils to classes etc, and the Church bell is used for church purposes, hence it is thought that bells around this school have lost their value as a fire warning alarm.

The cost of the suggested Siren is quoted in the Principals letter attached.

May the foregoing suggestions and recommendations be considered as outlined, and this office advised, please.

J. E. Fugh.
Superintendent.

RE: Plaster Work in Classrooms
Morley Residential Schools

It is advised that the plaster work of the class-rooms at the marginally-noted school is in a very bad state of repair, with large patches of the plaster having fallen from the ceiling and a general loosening of the plaster from the laths has taken place. Patch work has been carried out in this building, but is not satisfactory.

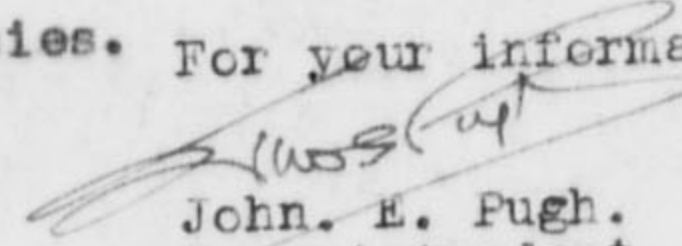

It is recommended that complete new surfacing with plaster or plaster-board be carried out in the two classrooms. If plaster-board is used suitable painting would be necessary. The approximate surface is 2900 square feet.

Pending advice from the Department as to the amount allowed for building maintenance at this school, no action has been taken regarding costs, but this matter will be dealt with on receipt of the Department's instructions.

It is suggested that this work be carried out during the summer holidays.

Morley Indian Residential School - Repairs

Reference your 119-4-2 of June 12

Included in our main estimates for this school
was the following item,-

"Plumbing and Heating Repairs - \$1,000."

Would you please have the principal of the
school consulted to ascertain if he considers the main-
tenance of the plaster work in his school the most
important item of repairs requiring to be done this year.
If so, you can then proceed immediately to have an
estimate made of the work required to replace the plaster
board as required.

Also included in our estimates is an amount
for new sewing machines at this school. It will be in
order for the principal to requisition for these now.

Ottawa, July 3rd, 1947.

Mr. John E. Pugh, Superintendent,
Indian Agency, Morley, Alberta.

We have your requisition of June 24th for four sewing machines for the Morley Residential School. It is noted that the principal requests electric machines.

It has not been our practice to supply this type of machine as we feel that the Indian girls should receive training with the ordinary sewing machines as this is the type of machine that the majority, if not all of them, will have in their homes.

We have, therefore, decided to order for the Morley school, one electric machine and three ordinary machines.

RE: New Water Heater-Morley Residential School
119-1-5(W.T.) June 19th. 1947

Acknowledgement is made of your letter with reference to the repairs to the above school.

In reply it is advised that we have written the firm of F.H. Lepper & Co., Plumbing & Heating Contractors, Calgary, Alta. in connection to a tender submitted by them to Mr. J.N.R. Iredale for certain plumbing and heating repairs for the above school. These entailed a new hot water storage tank to replace the present jacket type heater. The new installation would be a unit in itself with steam coils and a heating capacity of 245 imperial gallons per hour. The heating arrangements to be in conjunction with the boilers.

The estimate given to Mr. Iredale was at that time \$840.00, but in view of increased costs during the past year, it was deemed advisable to obtain a new tender. F.H. Lepper & Co. have added \$135.00 to their original tender thus making the total cost \$975.00.

In view of the above, may we be advised if we should proceed to obtain prices for the replastering of the classrooms in addition to the above or, would we be expected to make a decision as to which is the more essential for the proper conduct of this school.

Indian Agency, Morley, Alberta.

With reference to your letter of July 7th, it is noted that you are obtaining prices on a new jacket heater for the Morley Residential School.

Please secure a quotation with reference to plastering and submit it for our consideration.

Bernard F. Neary
Supt. of Welfare & Training.

RE: Heating Repairs
Morley Indian Residential School

It is advised that the principal of the m/n school has asked that F.H. Lepper & Co. of Calgary, Alta. be employed to make a check over of their heating plant prior to the opening of the school.

The principal informs me that after the commencement of school in September 1946, considerable difficulty was experienced in heating the building. He now deems it advisable to have this check-over as suggested above.

The estimated cost will be approximately \$150.00.

RE: Indian Residential School, Repairs
Morley, Alta. your file 119-1-5(WT) June 19/47

It is advised that in reply to your above referenced letter that we have been unable to obtain the services of a plasterer or even obtain quotations in regard to the re-plastering of the classrooms at the above school.

In view of the above it is suggested that the plastering job be by-passed for the present and that the installation of a new water heater be carried out at this school as indicated in our letter of July 7th. last, file 119-4-2.

In discussing this with the principal of the school, he is of the opinion that the new jacket-heater and hot water system repairs are more essential at this time, may authority be granted to employ the services of F.H. Lepper & Co., plumbing & heating contractors of Calgary, Alta. to carry out these repairs for the sum of \$975.00 as quoted in above referenced letter.

We would appreciate this reply by airmail.

(John E. Pugh)

Heating Repairs - Morley Indian Residential School

Reference your letter, file 119-4-2 of August 9 -

In November 1946 we paid an account of \$195.00 for the complete overhaul and recement job on the furnace at the above school. The bill from F. Neilson & Son, Calgary, Alberta, calls for the installation of a new damper, new grate bars and new fire brick liner for the combustion chamber. Repairs were also made to the hot and cold air piping. Could you please have the Principal clarify his request for a check over of the heating plant. His complaints of September 1946 should have been remedied by the repairs of November 1946.

RE: Hot Water Tank & Jacket Heater
Indian Residential School, Morley, Alta.

Dear Sirs:

With further reference to our letter of June 24th. last with respect to a quotation made by your firm for the m/n repairs to Jacket Heater and Hot Water System dated Oct 25th. 1946 and to your revised quotation of July 3rd. 1947 for the same work, our Branch has requested that you forward Airmail, direct to Indian Affairs Branch, Dept. of Mines & Resources, Ottawa, Ont. a revised tender in detail in the amount of \$975.00.

This price is as per your Oct.25th./46 quotation of \$840.00 and your July 3rd. 1947 additional cost price of \$135.00.

We would appreciate very much if you would attend to this matter immediately, in order that the Branch may take the necessary action to authorize this expenditure.

May we be supplied with a copy of the tender sent to Ottawa, Please.

Yours very truly,

(John.E. Pugh)

DEPUTY MINISTER

Water Heater - Morley Residential School

Included in our main estimates for this school was the following item,-

"Plumbing and heating repairs - \$1,000."

Please find attached a tender from F.H. Lepper & Co., Calgary, Alberta., for the installation of a new hot water tank and jacket heater for the sum of \$975.00.

The original tender submitted October 25, 1946, was for \$840.00. Unfortunately, due to a reduction in estimates, funds were not available at that time for this replacement. As a result, the staff and pupils of the school had great difficulty in obtaining a hot water supply during the last winter.

It is recommended that this revised tender be accepted. This company has done plumbing and heating repairs for our schools previously, to the satisfaction of our field staff.

RE: Repairs - Morley Indian Residential School
Your file 119-1-5 d/Aug 12th/47

MP
We have for acknowledgement your letter of above referenced file relative to heating repairs at the Morley Indian Residential School. In reply it is advised that we have discussed this matter with the principal, who informs me that it has been customary to have the entire system at the school checked-over prior to the opening. This will include furnace and heating, laundry system, toilets etc.

I am further informed that the classroom furnace requires replacement of a damper and a check-up of that heating arrangement. It is also noted that the automatic return to the heating boiler is also out of order. The figure quoted is that of F.H. Lepper & Co., of Calgary, Alta. in the amount of \$195.00.

It would appear that the efficient operation of this school and consideration of safety precautions renders the above outlined check-over advisable.

(John W. Pugh)
Superintendent,
Stony-Sarcee Indian Agencies.

Re: INDIAN RESIDENTIAL SCHOOL REPAIRS.
Morley, Alta. OUR File 119-4-2, 9/8/47.

With reference to the marginally noted file and subject, it is advised that we have now been able to obtain a quotation for the re-plastering of the above school, which is attached herewith.

This work will entail the stripping off of the old plaster, which is in a number of places ready to fall, particularly in the ceilings. It embraces two class rooms and the entrance hallway, and the attached quotation covers all stripping, re-nailing of lath, and in some places pulling the lath and cutting and re-lathing. The price covers a sand cast finish, as it is deemed advisable to not put on a putty finish, to this the Principal agrees.

Class rooms can be transferred to the Church, doing one room and finishing in rotation.

It would be advisable to paint these class rooms, and the tentative cost is estimated at:

Material:	10 gallons wall sizing,	\$30.00.
	6 " Inside Paint,	35.00
	2 " " Varnish,	8.50
Labour,	Estimated at	\$125.00, Total \$198.00.

We have been able to obtain this tender due to the slackening off of work generally as the winter approaches, and being an inside job at this school, the Tenderer is ready to carry out the above work, and in view of this may we be advised as soon as possible in the matter, please.

John E. Pugh.
Superintendent.

Memorandum:

DEPARTMENTAL PURCHASING AGENT

Re: Purchase Order 19640.
Your file 72606-15-13.

The above ordered twelve (12) one quart Pyrene fire extinguishers for the Morley Residential School. It was issued on May 13th, 1947.

We have just received a letter from the Superintendent, John E. Pugh, dated November 24th, in which he states that these fire extinguishers have not reached the school.

As you know, the heating season has now commenced and this is the period of the year when there is probably the most danger from fire in any residential school.

We would appreciate it if you would communicate with the Pyrene Manufacturing Company of Canada immediately and ascertain when they intend to supply these fire extinguishers.

I may say that we have had similar complaints regarding delays in delivery from other residential schools.

Bernard F. Neary
Supt. of Welfare & Training.

Gentlemen,-

Re Purchase Order No. 19640

The above order calls for one dozen - one quart fire extinguishers C-21, for delivery to Morley, Alberta. We have been advised by Indian Affairs Branch officials that delivery has not been made to date.

It is also understood that there are several other unfilled orders for fire fighting equipment. This is a serious matter with this Department, as we are obligated to furnish Indian Schools with requisite fire-fighting equipment. In the past you have been favoured with the major portion of orders for our requirements. We will continue to send you orders if you can supply the goods promptly, but we cannot wait six months or more to have our orders filled.

Please advise what can be done to improve the delivery situation, particularly regarding the above order.

RE: Plastering of Class-rooms,
Morley Residential School.

In connection with the above matter, it is advised that under authority of file 119-1-5 (WT 1) of Sept. 30/47, Mr. H.E. Wright, was employed to carry out this work.

The classrooms were stripped of the old plaster and a start was made on the ceiling of the West classrooms. It was found that the lath was not durable enough to carry the weight of plaster. The reason being that in the original construction of the building, strips of $\frac{1}{2}$ by $1\frac{1}{2}$ were nailed across the ceiling joists which are of 1 x 10 and the laths were then nailed to the 1 x $1\frac{1}{2}$ strips. It was noted that the weight of the plaster had pulled these strips together with the laths, loose. The space between the laths was also found to be insufficient with the result that when the new plaster was applied that the same buckling would occur as had taken place with the old plaster. As the job had been started, the writer undertook to provide lath wire and stone board to recondition the ceilings in both classrooms and the partition between. The laths on the ceiling together with the strips were entirely removed, and in one classroom, metal laths were used, in the other, stone board. The reason for the difference being that we were unable to procure sufficient for both rooms of either material. Mr. Wright, because of his contacts with building supply firms, was asked to obtain this material. The total cost of this extra material is \$123.47 and was paid for in cash by Mr. Wright for which, together with his contract price of \$650.00, a voucher will be submitted in due course.

The writer trusts that the Branch will concur in this action.

(John. E. Pugh)

Mr. J.M. Iredale,
Indian Agent,
Morley, Alta.

Dear Sir:

We hereby submit our tender to take out the old hot water tank and jacket heater in the Morley Indian School and install in it's place, the following: for the sum of ~~(\$875.00.)~~ *changed to 975⁰⁰*

A new 36x120 hot water storage tank, shall to be $\frac{1}{4}$ " and heads $\frac{3}{8}$ ". This tank to be installed about 18" above the present pneumatic cold water tank and to be placed on a $2\frac{1}{2}$ " pipe stand. To install this tank it will be necessary to make an opening in the north side of the pump house and of course replace same when the tank is placed in position.

In the above figure we have estimated on heating the water with a Red Head, Taco or equal, water heater. This heater is a unit in itself with steam coils and has a heating capacity of 245 Imperial Gallons per hour. Raising the temperature of the water 100 degrees.

We have estimated on making connections to the steam outlet of each boiler carrying a $2\frac{1}{2}$ " line to the heater, trapping the condensation and discharging into the present condensation pump and receiver.

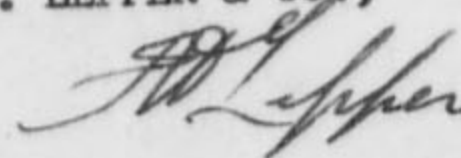

The hot water circulating pipe from this heater to the tank to be $2\frac{1}{2}$ ".

We find that coal fed hot water heaters of this size required for this job are not made at the present time but it is the writer's opinion that the steam heating arrangement as specified above would be more satisfactory. This heater would be placed above the condensation pump thereby taking up no room, in front of the boilers. It would also eliminate the smoke pipe. We also believe that the maintenance cost would be reduced, the only attention that it would require would be that it would have to be taken out once a year and cleaned.

Yours truly,

F. H. LEPPER & CO.,

February 9, 1948.

Morley Indian Residential School.

Dear Doctor Dorey:

I have for acknowledgment your letter of January 31, concerning the above residential school. As you are probably aware, we have spent considerable money at the Morley Residential School this year. In addition to minor items, we have expended the following sums:-

1. Plumbing repairs	-	\$ 26.50
2. Double deck bunks	-	52.50
3. Repairs to kitchen range	-	50.50
4. Inspection and servicing of fire extinguishers	-	19.90
5. Repairs to plumbing	-	20.90
6. Sewing machines (3 table and one power)	-	240.75
7. Fire extinguishers	-	120.48
8. Replastering of classrooms	-	650.00
9. Materials for lathing above classrooms	-	123.47
10. Installation of hot water tank and heater	-	975.00
11. Servicing and repairs to plumbing	-	57.60

You will see from the above that the Department has expended a fair share of money on the above school.

Therefore, we have not yet been able to consider the enlargement of the kitchen, etc., as recommended. If no major repairs are required at this school next year, we hope to be able to carry out the Dietitian's recommendations.

Re Salary Night-Watchman

Dear Mr. Pugh:

The salary of the Night Watchman at the Morley School is at present \$75.00 per month plus board, lodging and laundry. The Indian Affairs Branch pay \$40.00 per month towards this amount during the months of October to April inclusive.

We would like to retain the services of Mr. Daniel Williams, who has rendered good service during the past winter, and we are prepared to give him light work during the summer if the Indian Affairs Branch will continue the grant of \$40.00 per month. This will help us to keep the older boys in the class-room more than half the time as we are doing at present.

It is therefore requested that the grant for the Night Watchman be made for the twelve months of the year.

Yours truly,

G. Roy Inglis

Principal, Morley School.

RE: Night Watchman, Indian Residential School,
Morley, Alta.

Attached herewith is a letter received from the Principal of the above noted school, requesting authority to retain the services of a night watchman in connection with the operation of this school during the summer season.

It will be noted that the Principal suggests that by the retention of Mr. Williams, it will be possible to give the older boys more classroom work than is at present carried out.

In discussions with the Principal on this matter, the continuance of Mr. Williams' services was viewed in the light of affording a partial solution to the problem of providing the older children with full day schooling - a continual source of questions from the Indians.

It is, therefore, recommended for the Branch's consideration from the above standpoint. May this office be advised, please.

, April 28, 1948.

Mr. J.E. Pugh, Supt. of Indian Agency,
Morley, Alta.,

I have your letter of the 19th instant, with reference to a request from the Principal of the Morley Residential School that the services of the night watchman be continued throughout the year.

The Department only allows a grant towards the salary of a night watchman at certain residential schools for the heating season and we are not prepared to make the same allowance for the whole year.

For the heating season of 1948-49, it is our intention to increase the allowance for the night watchman from \$40. to \$60. However, you will no doubt, make application later for authority to make this payment.

Bernard F. Neary,
Supt. of Indian Education.

Re: Morley Residential School

You will have received an interim report from Mr. Clark, Survey Officer, and I am sure you will realize that something must be done to improve the school facilities for the Stony Indians.

While we have been busy looking after other schools, this school has been rather neglected, and the simplest method to give better facilities is by classroom blocks. Mr. Clark, in company with Superintendent Pugh, made a very careful survey of the situation on the Stony Reserve. We are in total agreement with his suggestion that a building with six classrooms on the main floor, a full basement, and a top floor for teachers' quarters be erected.

We can only add that this should be included in this year's program, if at all possible.

G. H. Gooderham,

Regional Supervisor of Indian Agencies.

July 22, 1948.

Mr. G.H. Gooderham,
Regional Supervisor of Indian Agencies,
Calgary, Alberta.

I desire to refer to your letter of
May 26th with reference to the Morley Residential
School.

As soon as Major Clark returned to
the Department we discussed the situation on the
Morley Reserve with him. We realize that increased
school accommodation is necessary but to erect a
building of the type mentioned in your letter would
involve an expenditure of upwards of \$75,000.00
under present building conditions. No funds for
this purpose were provided in the current year's
appropriation and consequently we are unable to
give favourable consideration to erecting a building
this year.

We would appreciate it if you would
write us more fully regarding the type of building
which Mr. Pugh and yourself consider should be
provided. When we are preparing our estimates for
the fiscal year 1949-50, we will give very careful
consideration to your recommendation.

Bernard F. Neary
Superintendent of Education.

Re: Voucher #258 and
" 373

It is wished to submit herewith Voucher # 373 in connection with window blind for the Morley, Indian Residential school. In connection with this it is wished to advise that these blinds were originally purchased and paid for by Voucher # 258. When the blinds were fitted they were found to be too short and therefore returned to J.H. Ashdown Hardware Ltd. New blinds were then ordered and had to be made to order. The price of these were \$40.60 plus prepaid express of .60% Total \$41.20. Less cheque #B22-400128 in the amount of \$14.85. Amount due \$26.35.

Re.Branch File 119-1-5 (E.1) July 22nd 1948.
School Buildings.Morley Ind;Res; School.

We have for acknowledgement the above referenced Branch letter, requesting further information as to type of school building required, as additional accommodation at the above school.

The writer had in mind when making tentative recommendation for day school provision, that a building similar to that now in use as a class room be provided, which would have two class rooms over a basement, that would contain a workshop, furnace etc.

Since discussing the matter with you, Mr. Buddick has made his survey, and has probably made some definite recommendations in general on this school, and we are of the opinion, that before deciding anything in the matter, it would as well to know what his views are in the matter of this school in general. Further accommodation for teachers would be required, up to four teachers and perhaps this could be provided as a unit with any new two class room building that might be erected in this programme.?, this may be covered in Mr. Buddick's report to the Branch.

The writer is treating this matter entirely from a day school angle, with provision only by the school for mid-day meal.

A re-designed building similar to the two room day schools now being erected with provision for sleeping quarters, bath rooms and electric lighting facilities should be considered, and such a building might be erected for approximately, \$45,000.00, at present costs.

Some provision should be made for increasing the kitchen facilities at the present school.

Respectfully submitted for your consideration.

John E. Pugh

Re: Morley Indian Residential School

Your file 119-1-5 (4.1) of July 22.

Attached is copy of a letter just received from Superintendent J. E. Fugh, which is self-explanatory. Though we have no copy of Mr. Ruddick's report, we are of the opinion that he did not make any specific recommendations with regard to the method of providing more classroom facilities at Morley.

Mr. Fugh is now of the opinion that a classroom block, based on the standard plan for a two-room day school similar to the one to be constructed at Sarcee, but enlarged and re-designed to provide three classrooms and facilities for four teachers, would meet the need at Morley. There should be, of course, a full basement. The present two room classroom block would be retained as such, giving five rooms in all, or it could be made into a large one room classroom by removal of the partition.

Based upon the estimated cost of a one room day school, the cost of the above building would be \$45,000.00 or more. Superintendent Fugh is placing an item in the Story-Sarcee Estimates for \$60,000.00.

G. H. Gooderham,
Regional Supervisor of Indian Agencies.

Morley is likely to be largely a Monday to Friday "semi-residential" school. Population figures show the need of eight classrooms.

Re: Hot Water System .Morley Ind: Residential School.

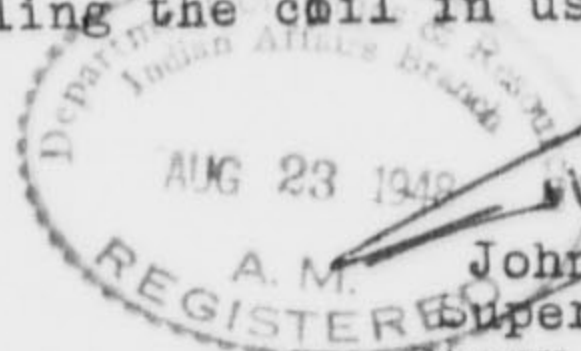

It is advised that The Principal of the above School has passed along to this office, a letter from The F.H.Lepper Co, Plumbers and Heating Contractors of Calgary, stating that they recommend an extra coil insert for the hot water heating apparatus installed last year at this school.

The state "That they feel you should have this unit on hand and when the present one requires attention you would have a replacement.This would take but a short while and the building would not be without hot water for any length of time."

" The old one could then be re-cleaned and ready when the other one required attention .".

The above Company quote the cost of the coil,at \$98.00 with certain pipe connections.

Submitted for consideration,and it is recommended that to maintain a constant hot water supply in the evnt of corrosion fouling the coil in use ,that the additional unit be provided.

John.E.Pugh.

Hot Water System - Morley Residential School

Reference your 4-2-119 of Aug. 17th.

In view of the information contained in your letter, the Department is prepared to provide an extra coil insert for the hot water heating apparatus installed at this school last year. If the cost of this unit is \$98.00, you can arrange for immediate delivery.

If the cost of the unit, however, exceeds \$100.00 it will be necessary to submit a requisition in the usual manner to the Departmental Purchasing Agent.

Re: Plant Overhaul.Morley Indian Residential School.

May we ask if authority will be granted to have the
Furnaces,Steam,Hot Air,and the general heating,plumbing
system checked,prior to the re-opening of the school.

An item covering such overhaul was placed in the
Estimates for the Years 1948-49.

The cost is estimated at approximately \$150.00,which
should include repair parts etc required.

An inspection of the boilers has been requested,and it
is anticipated that there will some flues to bead.

We have received a copy of Report addressed to the Branch from Mr C.A.F. Clark, on his recent visit to the Morley Indian Residential School, and we note from this report that he was dis-appointed that the proposed canopy over the kitchen range had not been installed.

We obtained prices from Messrs Lepper & Co of Calgary, Plumbing and Heating Contractors, which reads:

" July 23rd 1948."

" Some time ago we had an enquiry from you for a canopy for the kitchen range for the residential school.

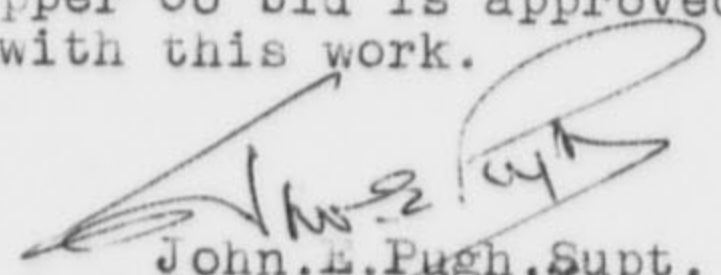

In answer might say to install a canopy less the vent from it, would cost \$128.00.

The reason we quote less vent is that we do not know whether it would go directly into a chimney or out the North wall and if it went out the north wall it might require an exhaust fan. "

The writer took no further action, in that the building was inspected by a Mr Ruddick, Building Survey Officer, and it was anticipated that we might have some instruction regarding a new kitchen addition to this building, which would entail taking out the North wall, which would eliminate the exhaust fan mentioned above, hence no further action was taken.

If we proceed with the canopy, it is suggested that we vent through the chimney.?

If the Lepper Co bid is approved may we be advised as to proceeding with this work.

Re: Vouchers # 613 and 562

Reference is made to our letter dated 1 Feb. 1949 and your reply under file 757-5 (E.1) dated 11 Feb. 1949. On receipt of your letter this Office contacted Rev. F. R. Inglis and it was ascertained that he had received cheque No. 58194 payment of our Voucher # 613, which represented allowance for Night Watchman for the month of November. However he stated that an error had been made in telling us that it was the Nov. cheque that was missing. This should have been the Oct. cheque.

This Office vouchered for the Oct cheque on our Voucher # 562 dated 8th. Nov. 1948.

It is therefore requested that voucher # 562 be checked, with advice to this office as to whether payment was made or not.

27th April, 1949.

Mr. J.E. Pugh,
Superintendent, Indian Agency,
Morley, Alberta.

On reviewing our file we find that the allowance towards the salary of the night watchman at the Morley Residential School has been paid at the rate of \$40.00 a month for the months of October, November, December, 1948, and January and February, 1949.

We increased the allowance to \$60.00 a month during the fiscal year 1948-49, but evidently we overlooked advising you to that effect. Consequently, arrangements are being made to forward the Reverend Principal of the Morley School an additional amount of \$100.00.

We have your letter of the 14th ultimo regarding alterations and repairs that you state are required at the Morley Residential School. The following additional information is required:

1. Kitchen Extension: If possible, you should supply a plan of what is required, and also obtain quotations for the material and labour necessary.
2. Walk-in Refrigerator: We will have to have detailed information regarding the size of refrigerator you consider necessary, and also an estimate of the cost before the matter can be placed before the Departmental Purchasing Agent.
3. Canopy for Kitchen Range: It is noted that you state that this canopy can be provided at a cost of \$150.00. Please let us know from whom you secured this price.
4. Exterior Painting of Building: Please obtain tenders for the labour and submit these for our consideration. At the same time you should

Re: Used Hot Water Tank. Morley Indian Residential
School. Stony Indian Agency. Morley. Alta.

It is advised that the above school, had one used
and work hot water heater steel tank, discarded, and the
property of the Indian Affairs Branch. Recently an offer
was received from a Mr Ivan Loughheed of Morley, Alberta,
for this tank, with an offer of \$15.00 (Fifteen Dollars)
to purchase same.

As this tank is un-servicable, and unfit for use
at the above school, may we ask if a Salvage order may be
procured authorizing the sale of the tank to Mr Loughheed,
for the above sum. Copy of offer attached.

We would recommend that this offer be accepted,
and would advise that no other offers have been received.

Ottawa, June 3, 1949.

Mr. Philip Phelan:

I acknowledge receipt of your memorandum of the 31st ultimo, your file ref. 757-5 (E.1), respecting proposed sale of used and worn out hot water tank, Morley Indian Residential School, Stony Agency, Morley, Alberta.

It will be in order to instruct Mr. J. E. Pugh, Indian Superintendent, Morley, Alberta, to proceed with the sale to Mr. Loughheed. However, he should declare that it is the best sale price obtainable.

When the sale is completed, please have Mr. Pugh furnish a full description of the tank and, also, have cheque made out in favour of the War Assets Corporation. The matter can then be reported to War Assets Corporation on the usual forms when reporting a sale of this nature.

Re: Morley Residential School
Your File No. 119-4B-2

We have your letter of the 27th ultimo regarding the proposed extension to the kitchen at the above school, also the installation of a Walk In refrigerator.

We are forwarding the requisition for the refrigerator to the Departmental Purchasing Agent. We are also forwarding him a requisition for the materials required for the kitchen extension.

We have noted the tender of J.F. Wall in an amount of \$825.00 for doing the necessary carpenter work. Is it possible to secure any other tender for this particular part of the work?

The tender from F.H. Lepper & Co. is in an amount of \$645.00. Evidently this includes the cost of the canopy of the kitchen range (\$150.00) and an amount of \$495.00 for plumbing and radiator changes. Is there any possibility of securing anyone else to quote on the plumbing and radiator changes?

With regard to the painting it appears from your letter that you have received tenders as follows:

S.C. Wright - \$1,750.00
Apolicators Limited - \$2,106.00

.....2

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

-2-

We do not appear to have received the tender of Applicators Limited in an amount of \$2,106.00. You forwarded to us the enclosed which is much higher than the amount just mentioned and evidently includes supplying the materials as well as labour in connection with part of the painting. Is it possible to secure any other tender for the labour for painting?

Philip Phelan,
Chief, Education Division.

Re: Exterior painting - Morley Indian School,

Dear Sir:

Refer to your file #119-4-2.

Complying with your request, we have examined the above
buildings and quote as follows:

(a) Labour and equipment only

1. Residence school building - seven hundred dollars (\$700.00).
2. School room building - one hundred and seventy five dollars - (\$175.00).
3. All out-buildings - four hundred and fifteen dollars (\$415.00).

(b) Labour, equipment and materials.

1. Residence school building - one thousand, and forty five dollars (\$1,045.00).
2. School room building - two hundred and sixty dollars (\$260.00).
3. All out buildings - six hundred and forty five dollars (\$645.00).

We propose to spray paint all walls and roofs and to brush paint
doors, windows, storm sash and other trim.

Please note that our quotations do not cover any work on residence
and church near road.

Yours truly,

WILLIAM SIGALET & COMPANY LIMITED,

Mr. J. E. Pugh, Supt.,
Stony - Sarcee Indian Agency,
Morley P. O., Alberta.

Dear Sir:

As requested in your letter of July 30th, we are pleased
to submit the following tender on painting the Indian Residential
School at Morley, Alberta:

LABOR ONLY:

Residence	- 2 coats	\$1,215.00
School	- 2 coats	351.00
Outbuildings	- 2 coats	540.00

LABOR AND MATERIALS:

Residence	- 2 coats	\$1,620.00
School	- 2 coats	460.00
Outbuildings	- 2 coats	730.00

The only buildings that would be sprayed would be the
outbuildings, the residence and school being hand painted.

We thank you for this opportunity to tender, and remain,

Yours very truly,

Attention:-Mr Phelan.

Re: Morley Residential School.
Your File 757-5 (B1).d/ July 25th 1949.

Acknowledgement of the above referenced file has been delayed due to obtaining further information regarding the subject matter, however we have now been able to obtain further quotations in regard to the painting work, but have been unable to induce any Contractor's to look over the work, except Mr Williamson of The Zeigler Construction Co Ltd, and he has failed to give us a tender, although his figure was known to the writer, and being very high, we are passing it up. Tenders on painting are as follows:-
Applicators Ltd. Tender attached.
Wm Sigale & Co Ltd. Tender attached.
E.C. Wright. Tender attached.

All of the above tenderers are of the City of Calgary, Alberta.

It will be noted that all three tenders cover Labour only, and Labour and Material, and therefore we have not quoted the figures above.

In regard to obtaining further tenders on the plumbing work, we invited The Anderson Plumbing Co of Calgary to tender, and they have taken no action.

It is felt that there is so much City work, that Contractors are not interested in Country work at the present time, and we are unable to offer further tenders as requested. We believe that the prices we obtained are in line with present conditions. In the matter of the building work to be carried out, we have only the offer, of Mr Wall of Cochrane, Alta, but we are still trying to induce others to tender and if received will forward, but as the work should proceed this month, we suggest that if the work is approved for this year, that we should commence as soon as possible, and selection of the tenders made from those available.

May we be advised please.

John A. Hugh, Capt.

Re; -Kitchen Alterations, Morley Indian Res; School.
Stony Indian Agency.

With reference to the marginally noted project, it is advised that material for the above work, has been delivered, inclusive of lumber, cement etc, and paints.

In connection with the labour to be employed for the alteration work, it is advised that Mr Wall of Cochrane, took other work, and is not available. As a consequence the writer proceeded to find other carpenters who quote on the work, and the following have quoted:-

1. Mr A Gray, 1115-9th Street East, Calgary, Alta. Quotes:-
Day Labour only. Foreman \$1.85 per hour
Carpenter \$1.47 " "
Labourers \$1.00 " "
Plasterers. Union Rates
Plus 12% of total pay roll, to cover Workmans Compensation,
Insurance, Transportation and use of power tools, Pay roll
to be met 1st & 15th of the month. Estimated time to finish
work 8 weeks.
2. Mr R. Rolston, 3804-13th Ave, West, Calgary, Alta.
Day Labour:- Foreman \$1.75 per hour
Carpenters \$1.47 " "
Labourers \$1.00 " "
Estimated total amount of job by the above party, \$1270.00
3. N.F. Mitchell, Cochrane, P.O., Alberta,
Day Labour. Foreman \$1.70 per hour.
Carpenters \$1.47 per hour
Labourers \$1.00 per hour.
Estimated total amount for job \$1295.00

The estimated total time to complete this work, varies from 5 weeks to 8 weeks, and all three men quoting, figured about a 5 to 6 man crew for the job, an estimated daily rate total of approximately \$6.50 per day, the school to provide accommodation.

Of the three quoting, Mr Gray appears to be the more businesslike, but we feel would be more costly, Mr Mitchell is the next choice, a local type of carpenter, and doing good work in the district, and we believe capable of doing this work.

All those quoting will undertake the complete job, inclusive of plastering, we to provide all materials and gravel.

As we have no instructions as to labour, either for the above alterations or painting, may we be advised as soon as possible. It is suggested that we provided with an accountable cheque for the alteration work, in the amount of \$1500.00, based upon the above quotations.

John. W. Pugh, Supt.
Stony - Sarcee Indian Agency.

Memorandum:

DEPUTY MINISTER

Re: Morley Indian Residential School
Stony-Sarcee Indian Agency,
Province of Alberta, Electoral
District of Calgary West.

Funds have been provided in the current year's appropriation for painting the main school building, the Principal's residence and the outbuildings at the above mentioned residential school, and the materials required have been purchased by the Departmental Purchasing Agent. Superintendent J.E. Pugh has now submitted the following tenders for the work:

- (1) Applicators Limited, 402 - 10th St., N.W.,
Calgary, Alberta.....\$2,106.00
- (2) E.C. Wright, Calgary, Alberta.....\$1,750.00
- (3) William Sigalet & Co., Ltd., 214 Burns
Bldg., 8th Ave. & 2nd St., Calgary,
Alberta.....\$1,290.00

Superintendent Pugh states that the above are the only tenders that he could obtain for the work, as the Morley Residential School is located approximately 40 miles from Calgary, and there are no painters in the immediate vicinity.

It would be appreciated if the Minister would approve acceptance of the lowest tender in the amount of \$1,290.00.

Memorandum:DEPUTY MINISTER

Re: Morley Indian Residential School,
Stony-Sarcee Indian Agency, Province
of Alberta, Electoral District of
Calgary West

Alterations are required to the kitchen at the above mentioned residential school, and the materials needed have been purchased through the Departmental Purchasing Agent. Superintendent J.E. Pugh has received the following quotations for the labour:

- (1) Mr. A. Gray, 1115-9th St.E., Calgary, Alta.
Day Labour only - Foreman.....\$1.85 per hour
Carpenters..... 1.47 " "
Labourers..... 1.00 " "
Plasterers..... Union Rates.
Plus 12% of total payroll, to cover Workmen's
Compensation, Insurance, Transportation and use
of power tools. Payroll to be met 1st and 15th
of the month. Estimated time to finish work,
8 weeks.
- (2) Mr. R. Rolston, 3804-13th Ave.W., Calgary, Alta.
Day Labour - Foreman.....\$1.75 per hour
Carpenters..... 1.47 " "
Labourers..... 1.00 " "
Estimated total amount of job by the above party
\$1,270.00.
- (3) N.F. Mitchell, Cochrane P.O., Alberta.
Day Labour - Foreman.....\$1.70 per hour
Carpenters..... 1.47½ " "
Labourers..... 1.00 " "
Estimated total amount for job, \$1,295.00.

- 2 -

In submitting the above tenders, Superintendent Pugh wrote as follows:

"The estimated total time to complete this work, varies from 5 weeks to 8 weeks, and all three men quoting figured about a 5 to 6 man crew for the job, an estimated daily rate total of approximately \$6.50 per day, the school to provide accommodation.

Of the three quoting, Mr. Gray appears to be the more businesslike, but we feel would be more costly. Mr. Mitchell is the next choice, a local type of carpenter and doing good work in the district, and we believe capable of doing this work.

All those quoting will undertake the complete job, inclusive of plastering, we to provide all materials and gravel."

In view of Superintendent Pugh's recommendation, it would be appreciated if the Minister would approve acceptance of the tender of N.F. Mitchell, Cochrane P.O., Alberta. This town is located near the school.

AIR MAIL

Re: Kitchen alterations - Morley Residential School

In his letter of September 3rd, file 119-4-2, Supt. Pugh outlined quotations on the labour to carry out certain alterations to the kitchen at the above mentioned school. In his letter of August 9th he supplied quotations from three painting contractors. On September 22nd, at Mr. Pugh's request, we wired you that the materials were on hand and asked for advice as to who has been awarded the construction work. To date we have had no reply.

It is unfortunate that we have not been able to take advantage of the very fine weather prevailing during the month of September. If the delay is due to lack of funds, please advise.

G. H. Gooderham,
Regional Supervisor of Indian Agencies

Re: Equipment (Inside and Outside)
1949-50 School Estimates.

On page 2 of the 1949 - 50 Estimates an item was placed for a Motion Picture Projection Machine, Sound projection (For Instructional and Recreational purposes) Class Room and Residential Entertainment features inclusive of screen, for the Morley Indian Residential School.

The Principal (Reve G. Roy Inglis) has requested this office to ascertain if the above has been allowed or otherwise.

It is therefore requested that this office be advised by return airmail as to whether the above has been allowed or not.

Re: Employment. N.F.Mitchell.Carpenter. Morley Indian
Residential School. Your File 757-5 (E1) Oct 5/49.
Wire.

On receipt of the above information from the
office of the Regional Supervisor, Calgary, Alta, we contacted
Mr Mitchell, and found that he had undertaken other work, but
would give us a definite answer as to carrying out the Kitchen
alterations at the above school, and we called upon Mr Mitchell
last evening, and he advises that he cannot undertake the work
being tied up for some time.

We will now endeavor to obtain the services of
some other Contractor for this work and advise you by wire.

We may approach both Mr Gray and Mr Rolston,
both of whom quoted on the project, but their estimate and
wage cost were higher than that of Mr Mitchell, we will try
and obtain an estimate close to that of Mr Mitchell if at all
possible.

justifiable & at the same
time I wd take on myself
the entire blame of the
informality of application.

Mr. McGillivray & I were
discussing the matter of
^{proposed enlargement of the} the ~~Ophany~~ ^{of the} & in the
course of our conversation
the question of enlarging
~~the Ophany~~ & the title
of the Meth. Body to the site
arose, & as this Dept
had never been advised
of ~~them~~ ^{that denomination} having any title
from the Crown, & it was
highly desirable we shd
have such information,
I immediately inadvertently
suggested to Mr. McGillivray
that he might make inquiry
in regard to the same, & he
simply did what I asked
him to do in the matter.

I see now however that
I went about it the wrong
way, in ^{my wish to} obtaining the

Return

Dear Mr. VanKoughnet,

The annexed report from your Minister has been referred to us by Council.

The plan proposed is I think unworkable, and some other means must be devised for securing the end aimed at, no doubt a proper one. Would you

please let me have any papers you have on the subject with a description of the land upon which it is proposed to build the orphanage.

I would suggest too that before you go to Council with the matter an agreement be come to as to the expenditure with the Methodist authorities. at the present time

the question is not ripe for final settlement, truly

I am, Sir, very truly
Yours,
D. S. G. D. A. [Signature]

WRITTEN

File sent to
Dept of Justice

Graft

Dear Mr. Sedgewick

*am in receipt of
In reply to your*

Note of the 22nd inst. forwarding
a report made by my Minister
to Council on the 26th Aug. last,
in respect to the title to the site on
which the Indian Orphanage at
Morleyville, Alberta, was erected, being
vested in the Supt. Gen. of Indian
Affairs and the Methodist Church of
Canada jointly, and which plan
you state you think is unwork-
able, and that some other means
must be devised for securing
the end aimed at, and you ask
me to let you have any papers
I may have on the subject, with
the description of the land upon
which it is proposed to build
the orphanage;

In

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

In compliance with your request
I beg to enclose herewith file
No. 30688 of this Dept, and have
to state, with regard to the descrip-
tion of the land, that it would
appear to be sufficiently described
in the Report to Council, above
referred to, namely, as Lot No. 8
in the plan of the Morley Settlement, and as shown
on the copy of said plan on the file of papers now sent.
The title to one-half section of the
land, on which the buildings are
situated, it is proposed, shall be
vested in the manner ^{mentioned} above
in the ^{supra} paragraph's report to Council,
described. If, however, this is
considered to be an insufficient
description in the Dept of the Interior,
which allotted the land to the
Methodist Church, would ^{probably} be able
to give you a description by metes
and bounds.

In regard to your ^{further} suggestion
that, before this Dept goes to Council
with the matter, an agreement
should be come to, as to the expendi-
ture with the Methodist Body, I beg
to inform you that the Orphanage
in

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

3 (Mr. Sedgewick)

in question, has been in operation
for some years, and the ^{opposed} ~~season~~
in ^{view} for our ^{desiring to obtain} ~~requiring~~ a ^{tree} upon the
site is that we propose expending
\$6000 ^{xx} to assist the Methodist Ch.
in making an addition ^{to the buildings} ~~thereto~~.

This expenditure the Supt Gen.
authorized to be incurred with-
out waiting for the settlement,
as to title, on the occasion of his
recent visit to the Northwest,
and the work is now proceeding.

If you will turn to the
letter from the Dept of the Interior
on the file enclosed, dated the
23^d Aug., you will observe that
this Dept was advised, by it, to
have an Order-in-Council passed
vesting the land in question in
the Supt Gen. of Indian Affairs
and the Methodist Church, jointly,
for Indian purposes.

I have, etc.

Ottawa, October 29th 1890

Mr. [unclear]
I have the honour to return
file no. 30698 of your department,
and to state with reference to your
letter of the 28th inst. that for tech-
nical reasons it would not be
practicable to carry out the recom-
mendation made by the Superintendent
General in his report to Council of
the 26th inst., viz., that under the
authority of Council the title to
one half section of the land on
which the buildings of the orphanage
are located may be vested in
the Superintendent General and the
Methodist Church jointly for Indian
purposes. I am to suggest
that the object

L. Van Koughnet Esq.

and that some other
means must be
devised for securing
the end aimed at.

Mr. D. M. F. further
occasionally suggests -
^{to this Dept. has}
that the objection in driving
to secure a ^{large} ~~large~~ ^{portion of the property}
~~might~~ might be obtained
by inserting in the
Letter Patent to be
issued to the Methodist
Church, conditions
providing against
the land being used
for any but purposes
specified therein without
the consent of the Sup-
rent; and I have to
report that you will
be good enough to
advise this Dept. whether
the same will be done.

Department of the Interior,

Ottawa, 8th November, 1890.

- Address your reply as follows:
To the Secretary of the
Department of the Interior, Ottawa.
- Do not write about more than one
subject in the same letter.
- Write legibly your full name and
address.

Sir,

I am directed to acknowledge the receipt of your letter to the Deputy Minister of the Interior, of the 31st ultimo, No. 30698, with reference to the title of the land on which the Orphanage at Morleyville is built, and to say that the condition suggested by you will be inserted in the patent.

The Department of Justice will be at once asked for a draft form of patent.

I have the honour to be,

Sir,

Your obedient servant,

L. M. S. S. S.

Assistant Secretary.

The Deputy of the
Superintendent General
of Indian Affairs,
Ottawa.

IN REPLY REFER TO DATE OF THIS
LETTER, AND ADDRESS
THE GENERAL SECRETARY
METHODIST MISSION ROOMS,
TORONTO.

The Methodist Church
MISSIONARY DEPARTMENT,

94920

Toronto, 6th Oct. 1892.

A M

Sir:

Referring to conversation at
an interview you were good enough
to grant the Rev J. McYoungall
and myself on the 30th ultimo,
when matters pertaining to Indian
Institutes in the North-West were
under consideration, I beg to
submit a memo concerning the
McYoungall Orphanage at Stoney,
especially in regard to the title
of the land on which the
buildings have been erected.

Up to the present time
the Institute has been controlled
by the Rev Mr McYoungall, who
was alone responsible for its

The Honorable the
Super' & General of
Indian Affairs.
Ottawa

ARCHIVES PUBLIQUES
CANADA

94920

finances and general management
 our Missionary Society, while under
 no responsibility of that kind,
 nevertheless commended the In-
 stitution to the confidence and
 support of the Methodist Church.
 At the recent session of the Mission-
 ary Board the whole question was
 carefully considered, and it was
 finally agreed that the Orphanage
 should be taken over as a part of
 the regular work of our Missionary
 Society. A Committee has been ap-
 pointed to arrange details of trans-
 fer, which will formally take effect
 at the end of June next; but in
 the meantime the Missionary Board
 virtually assumes the financial re-
 sponsibility, and all correspondence
 respecting the Orphanage will here-
 after be through, ~~and~~ from, the
 Mission House.

Indian Affairs. School Files.

X

When the Orphanage was first established a portion of land aggregating two Sections was applied for. The location being too near the mountains to carry on farming to any large extent, application was made for the quantity of land stated so that there would be sufficient room for stock raising, which is one of the industries connected with the Institution. When the late Hon. Thomas White was the Minister of the Interior the whole matter was fully explained to him, and a promise was given that a patent would be issued for the two Sections to the Methodist Church. Sometime afterwards, however, the matter was left in abeyance, as it was thought that possibly the Government would adopt the Orphanage

Indian Affairs. School Files.

94920

as part of its regular Institute
works, in which event the title to
the land would not be asked for
by the Missionary Society. As it has
been decided that the Orphanage
will remain in the character of
a Boarding School, and will not
be assumed by the Department,
I would now repeat the applica-
tion of the Missionary Society for
a patent to the land, so that in
any extension of the present build-
ings, or erection of new ones we may
be adequately protected in the
possession of our property.

It is the intention of the

additional accommodations and
appliances that are needed for
the efficient carrying on of the
works. I trust therefore that
a decision respecting the patent

Indian Affairs. School Files.

2
The ~~Drum~~ ^{Drum} Orphanage
~~the school~~, and ^{that} the whole
matter was then fully
gone into, but that it
was left in charge,
as it was thought
that this Dept. might
take over the orphanage as
one of its ^{Industrial} Institutions.
This Dept. has no
intention of rating
the Orphanage as an
Industrial Institution;
and Mr. Datterland
now renews the appli-
cation for the two
sections of land, and
asks that a decision
respecting the ~~land~~
patent for the same
should be reached
as soon as possible.

I can find no
reference to the question
of giving additional
~~additional~~ land to
the Orphanage among the

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

the papers in ^{connection with} ~~reference to~~
that school as given in
this Dept.

Tr. L. dated the
15th Nov. 1890 from
your Dept. was
enclosed a copy of a
draft of a patent to
the Mich. Ch. of the
half Section of land
upon which the Dr.
Shanape stands, and
in that patent a pro-
viso is made that
the land must be
used for the purposes
of an orphanage.

~~and~~ This ~~was~~ is the only
land ~~that is~~ referred
to in the correspondence.

Take it that
any correspondence
which Dr. Shanape
land had on this sub-
ject must have been
with your Dept. and

IN REPLY REFER TO DATE OF THIS
LETTER, AND ADDRESS
THE GENERAL SECRETARY
MISSIONARY DEPARTMENT
TORONTO

The Methodist Church,
MISSIONARY DEPARTMENT,

Toronto, May 16 1883

101852

Sir,

Referring to the McDougall
Orphanage at Morley, Alberta, I beg
to say that arrangements are in
progress whereby the Missionary Board
of the Methodist Church will assume
control of the Institution about the first
of July next. It may be explained
that up till now the Institution has
been in a certain sense of a private
character. That is, Mr McDougall
only was financially responsible, but
it is deemed expedient that this should
now be changed. As considerable
expense has been incurred in the past,
& there is a necessity for increased
accommodation in the near future,
I beg to lay before the Department the
application of the Missionary Board
for a Patent for the lands upon which
the Institution is built. As explained

in

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

101852

in former correspondence these
comprise about two sections. This
amount being rendered necessary
to secure a sufficient cattle range.
In former correspondence it was
proposed that this Institution should
be taken charge of by the Government
& managed as an ordinary Institute.
The Department did not concur in this
proposal, but when Rev. Mr. McDougall
visited Ottawa in March last he was
informed that a Patent for the lands
would issue shortly to the Methodist
Church, so that we might proceed with
such improvements & enlargement as seemed
to be required for the efficient carrying on of
the work. Hoping that this matter will
receive prompt & favorable attention

I have the honor to be, Sir,

Your Obedient Servant

A. Dwyerland

Genl Secy

A.M. Burgess Esq., ~~Esq.~~
Deputy Minister of
The Interior.

DRAFT

SECOY'S BRANCH,
MAY 18 1898
WRITTEN

Sir:-

Referring to the letter to you from this Department of the 12th October last respecting the application of the Methodist Missionary Society for additional land to be given them in connection with the Indian Orphanage at Morley, I enclose herein a copy of a letter of the 16th instant, received from the Rev. Dr. Sutherland, General Secretary of the ~~Methodist~~ Missionary department of the above Church, in which he refers to ~~the~~ ^{his} previous application for a patent for the land upon which the above institution is built, which he states, ~~it is~~ ^{as} explained in his former correspondence, comprises about two ~~xxx~~ Sections, and that the Rev. Mr. McDougall, who visited Ottawa in March last, was informed that a patent for the land would issue shortly to the Methodist Church, and that that body would be free to proceed with such improvements and enlargements as seemed to be requisite for the efficient carrying on of the work.

In this connection I beg to state that

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

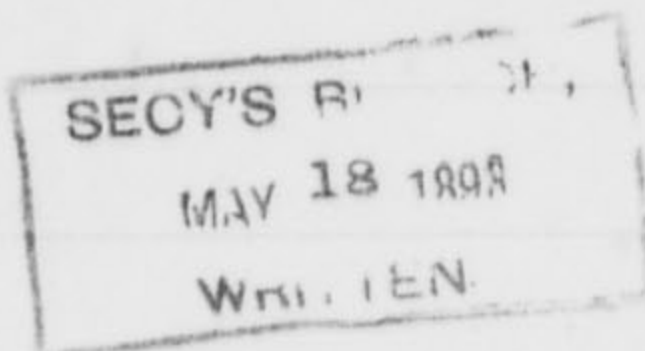

no such information was, of course, given by this Department to Mr. McDougall; and it is assumed, therefore, that Dr. Sutherland must be referring to an interview Mr. McDougall had with you on the subject of the land to be attached to said Orphanage.

I will accordingly, in acknowledging Dr. Sutherland's letter, inform him that a copy of the same has been sent to your Department, and that you will deal with the question of the lands to be patented to the Methodist Church in connection with the Orphanage referred to.

Yr. Obt. Svt.

.oOo.

Rev. A. Sutherland, D.D.,
General Secretary,
Methodist Mission Rooms,
Toronto.

Rev. Sir:-

In reply to your letter of the 16th instant, in which you state that arrangements have been in progress whereby the Missionary Department of the Methodist Church will assume control of the McDougall Orphanage at ~~St~~ Morley, Alta., about the 1st July next, and that hereafter it will be conducted ^{not} as it has heretofore been, which was, in ^{you maintain} accordance a certain sense, ~~as~~ ^{under} a private ^{management} character, Mr. McDougall being ^{only} financially

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

responsible; and you refer to the necessity for increased accommodation in the near future, and say

before the Department the application of the Missionary ~~Board~~ ^{Board}

for a patent for the land upon which the institution is built, stating that the same comprises about two Sections; ~~and you advert~~ ^{and} to former correspondence in which it was proposed that the Orphanage should be taken charge of by the Government and managed as an ordinary institute, ~~and~~ in reply to which you were informed that this Department did not concur in that proposal, ~~and~~ you also state that when the Rev. Mr. McDougall visited Ottawa in March last he was informed that a patent for the land would issue shortly to the Methodist Church, so that it would be free to proceed with such improvements and enlargements, as seemed to be required for the efficient ~~carrying~~ ^{carrying} on of the work, I beg to inform you refer you to the letter from this Department of the 12th October last, which ~~inter alia~~ ^{inter alia} informed you, ~~in~~ ⁱⁿ alia, that a copy of your letter to which that letter was ~~a~~ ^a reply had been sent to the Department of the Interior, which Department is charged with the administration of Dominion lands, for ~~action~~ ^{action} respecting the application for additional land.

I have now the honour to inform you that ~~any intimation to~~ ^{any intimation to} a copy of your letter which is now being replied to has likewise been sent to ~~the~~ ^{that} Department of the Interior, ~~with a view to the land matter being receiving the~~ ^{referred to therein} its attention, of that department; and I may state that Mr. McDougall must have obtained the information which you state he did, from the Department of the Interior

Consequent upon the change of management the work will be done

mentioned in your letter

which has been referred to in the letter

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-9, part 1)

JUN 9 1893
C.

Certified Copy of a Report of a Committee of the
Honourable the Privy Council, approved by
His Excellency the GOVERNOR GENERAL IN
COUNCIL, on the 12th April, 1893.

On a Report dated 29th of March, 1893, from the
Minister of the Interior stating that application has
been made on behalf of the Missionary Society of the
Methodist Church of Canada for a grant of two sections of
land in connection with the McDougall Orphanage at
Morley N. W. T.

The Minister is informed that for upwards of 15
years Lot 8 has been claimed on behalf of the Orphanage
Institute, conducted by the Rev. John McDougall, a
Missionary of the Methodist Church of Canada, and a short
time ago the control of this Orphanage was taken over by
the Missionary Board of the Church and he submits the
annexed copy of a letter from the Reverend Dr. Sutherland,
General Secretary of the Methodist Missionary Society,
renewing the application of the Society, explaining why
for some years the matter by consent of the applicants
and the Government remained in abeyance, and setting out
that it is the intention of the Society to provide the
additional accommodation and appliances required for the
efficient carrying on of the work of the Orphanage.

The Minister is aware that during the past six

years

The Honourable

The Minister of the Interior.

102721

years improvements to the value of several thousand dollars have been made on the Lot now claimed, chiefly in the way of buildings and fences, and that the work performed by the Reverend Mr. McDougall through the instrumentality of the Orphanage has been of the highest importance to the cause of civilization and progress among the Indians of the North West.

The Minister recommends that under the provisions of Sub-clause 8 of Clause 90 of the Dominion Lands Act he be authorized to issue a free patent to the Missionary Society of the Methodist Church of Canada for Lot 8 of the Morley Settlement, in the Provisional District of Alberta, in the North West Territories of Canada, containing 1176 acres more or less, for the purposes of an Orphanage for Indian Children, and for such use only.

The Committee advise that the requisite authority be granted as recommended.

Ref. 64274:

Ottawa, 15th February, 1894.

Dear Mr. Reed,

Reverend A. Sutherland, the General Secretary of the Missionary Department of the Methodist Church at Toronto, has been in correspondence with the Department for some months past with regard to the grant of a patent to that Church for the site on which the Indian Orphanage in the Morleyville settlement is erected. If you will refer to your file No. 30,698, you will find that an Order in Council, of which a copy was forwarded to your Department on the 6th June last, was passed on the 12th of April, 1893, granting Lot No. 8, Morleyville settlement, to the Missionary Society of the Methodist Church of Canada, for the purposes of an Orphanage for Indian children, and for such use only. Dr. Sutherland protested against a limitation of this kind, and the reasons which he offers in support of his claim to an unconditional grant are such that the Minister feels disposed to accede to the request. Such a grant, however, would require an amending Order in

Hayter Reed, Esq.,

Dear Mr. Burgess,

64,274
In reply to yours of the 15th instant, I may say that I can readily give you the little history you ask for, of our relations with the McDougall Orphanage and its work.

With regard to the quantity of land your Department may see fit to give in connection with the Institution, we are only concerned to see that an area of some ten acres, including and immediately surrounding the site upon which the buildings stand, be retained by the Crown, since it was upon such understanding with Rev. J. McDougall that the Department incurred its outlay on building. We can not from here give you any accurate description of the area to be reserved, nor could we, probably, get it without incurring the expense of sending a surveyor to the spot, and I would be glad to learn whether you could possibly devise any course by which, without retarding the issue of patent to the church, we could secure the 10 acres referred to, when a favourable opportunity for having it defined may occur.

A. M. Burgess, Esq.,

Deputy Minister of the Interior,

Ottawa.

Yours
Thorne

There does not seem to be any record in this department of any such promise as you say the Rev. Dr. Sutherland claims to have received from the late Hon. Thomas White, and if there was any correspondence on the matter it must, apparently, have been with him as Minister of the Interior.

Yours sincerely,

/s/ H. H. R. R. R.

MEMORANDUM RE MORLEY ORPHANAGE.

The late Rev. George McDougall had for years in contemplation the establishment of an Orphanage in the North West, chiefly for the benefit of the numerous children who had been left friendless by the small-pox epidemic, and was about taking definite steps in the matter when his tragic death occurred. To or three years later the enterprise was taken up by his son, the Rev. John McDougall, with, it is understood, no other assistance than such as was voluntarily given by friends of the Indians in the Methodist Church, the Missionary Board feeling unable to make an annual grant, in view of the other claims of the work. It appears that land was occupied with the consent of the Government, and that application was made for a grant of some ^{two} sections, so as to afford sufficient room for a cattle ranch. Mr. McDougall proceeded with the work, fencing in a large portion of the land, erecting a small building, supplied with live stock, and opened the Home for the reception of orphan children. The Department ~~was~~ informed that this was all done largely at his own expense, and from the time the enterprise began until the autumn of 1891 he expended some \$2,500 more than he had received from all sources.

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

In 1885 the Department made a grant of \$700 towards the Institution, which was continued until the autumn of 1887, when it was increased to \$60 per capita per annum.

In 1890 a new building was erected by the Government, at a cost of over \$8000. This building has given increased facilities and comfort to the pupils. Upon the completion of the building the per capita grant ^{was} ~~still~~ increased from \$60 to \$72 per annum.

Before beginning operations on the building above referred to the Department considered it proper to take a lien on the land on which the building was to be erected, and asked that the title to as much as 320 acres of land be vested in the Superintendent General of Indian Affairs and the Methodist Church for Indian purposes. Instead of this being done it was arranged that conditions providing against the land being used for any but purposes specified therein without the consent of the Superintendent General should be inserted in the letters-patent to be issued to the Methodist Church. The conditions inserted were that "the Methodist Church, its successors or assigns, shall not at any time hereafter without the express consent in writing of our Superintendent General of Indian Affairs for the time being use the said parcel or tract of land, or any part thereof, or permit the same, or any part thereof, to

Ottawa, March 3rd, 1894.

Sir,

Referring to your letter of the 27th ultimo, I have the honour to enclose the same asked for relative to the McEwenall Orphanage.

In my letter to you of the 20th ultimo, it was stated that the quantity of land this Department was concerned in was ten acres. This was in accordance *as I remembered it* with the understanding I had with the Rev. John McEwenall at the time, but I observe from the correspondence on file that my predecessor recommended in his letter to you of the 31st October 1890 one half section, and this, I understand, was the area for which Letters Patent issued.

I am, Sir,

Your obedient servant,

Deputy of the Sup't General
of Indian Affairs.

Reverend Sir,

Referring to conversation recently held between us relative to the land in connection with the McDougall Orphanage at Dorley, it occurs that a satisfactory solution of the difficulty relative to protecting all interests concerned might be found by the insertion in the latter patent of a condition providing against the land being used for any but purposes specified therein without the consent of the Superintendent General of Indian Affairs.

In case of the Church wishing to dispose of any part of the property or diverting its use to other than Indian School purposes, no danger need be apprehended of the Department making any unreasonable difficulty.

I am, Rev. Sir,

Your obedient servant,

Wm. H. R. R. R.
Deputy of the Sup't General
of Indian Affairs.

Rev. Dr. Sutherland,

Ottawa 12th April 1894

Sir,

With further reference to the questions of protect-
ing this Department's interests in the lands which it is
proposed to convey to the Methodist Church in connection
with the McDougall Orphanage at Morley, I beg to inform
you that the Church Authorities have expressed their
willingness to have inserted in the title a condition
providing against the use of the half section upon which
the school buildings are situated for any but the purpos-
es of an Orphanage for Indian children without the con-
sent of the Superintendent General expressly given in
writing, and I will be glad if you will kindly have the
matter arranged accordingly.

Your obedient servant

(sgd)

IN REPLY REFER TO DATE OF THIS
LETTER, AND ADDRESS
THE GENERAL SECRETARY
THE MISSION ROOMS,
TORONTO.

The Methodist Church,

MISSIONARY DEPARTMENT,

113691

Toronto, 28th April, 1894.

(Dictated.)

Sir,-

Referring to your letter of March 16th, File 30,000. re-
specting the land at McDougall Orphanage, I beg to say that your
suggestion that a clause be introduced in the patent containing
a provision against the land being used for any other purposes
specified therein without the consent of the Superintendent
General of Indian Affairs, seems to be the best solution of the
present difficulty. I have written the Deputy of the Minister of
the Interior to this effect, and trust the matter can now be
adjusted. Whatever you can do to facilitate a settlement will be
esteemed a favor.

I am,

Sir,

Yours Obedient Servant,

General Secretary.

The Deputy the
Super't General of
Indian Affairs,
Ottawa.

Certified Copy of a Report of a Committee of the
Honourable the Privy Council, approved by His
Excellency the Governor General in Council, on
the 8th May, 1894.

-----o-----

PC. No. 18240

On a Report dated 25th April, 1894, from the
Minister of the Interior, stating that by the Order
in Council of the 12th April 1893, he was authorized
to issue a free patent to the Missionary Society of
the Methodist Church of Canada for Lot 3, Morleyville
settlement, in the District of Alberta, containing
about 1176 acres, for the purposes of an orphanage
for Indian children, and for such use only.

The Minister observes that the condition in the
proposed grant restricting it to the purposes of an
Orphanage for Indian children and for such use only,
having been communicated to the Missionary Society,
they objected to this condition, but an understanding
has now been reached upon the subject that the Society
are willing to accept the proposed grant subject to
the condition that the land shall not be used for any
purpose but that of an orphanage for Indian children
without the consent of the Superintendent General of
Indian Affairs expressly given in writing.

The

To the Honourable

The Minister of the Interior.

2.

The Minister recommends that the above mentioned Order in Council of the 12th of April, 1893, be amended by adding after the words in the last paragraph thereof " and for such use only " the words without the consent of the Superintendent General of Indian Affairs expressly given in writing."

The Committee submit the same for Your Excellency's approval.

(Signed) John J. Mc.Gee,

Clerk of the Privy Council.

LETTER _____

FILE 64274.

Department of the Interior,

Ottawa, 25th April, 1899.

Sir,

I beg to acknowledge the receipt of your letter of the 17th instant, No. 116963-5, saying that there is no adequate pasturage or water supply upon Lot 8, in the Morleyville Settlement, which has been set apart for the Indian Orphanage and training school at that place, and requesting that Lot 7, adjoining the one in question, be included in the reservation for pasturage and water purposes.

In reply I have to say that Lot 7 was claimed by Mrs. Elizabeth Boyd, whose claim was investigated by Mr. William Pearce, Superintendent of Mines, some years ago, and allowed.

The land composing the lots of this Settlement was at one time included within the Francis White leasehold, and the several settlers thereon were obliged to subscribe a certain amount of money to compensate the lessee.

Against Lot 7, which contains 611.50 acres, the sum of \$168.40 was assessed, which amount Mrs. Boyd has paid, but she has not paid the purchase money due on the 451.50 acres, the area in excess of her homestead of 160 acres included in Lot 7, which she was permitted to buy.

Before any definite reply can be made in the matter of this application, it will be necessary to communicate with Mr. Pearce, and ask him for a report as to the position of this matter.

LETTER 529994.

FILE 64274.

Department of the Interior, 188862

Ottawa, 30th August, 1899.

Sir,

I beg to acknowledge your letter of the 12th instant, Ref. 116963—5, asking to be advised of the result of the correspondence had with Mrs. Elizabeth Boyd as to her intentions regarding Lot No. 7, Morleyville Settlement, for which she had been given permission by the Land Board years ago to make a homestead entry of 160 acres, and to purchase the remainder at the rate of \$1.00 per acre.

In reply I am to say that on the 23rd May last Mrs. Boyd was given sixty days within which to exercise her privilege of accepting the conditions of the award, but up to the present time no reply has been made to my letter, nor has any report been received from the Agent of Dominion Lands at Calgary of an entry having been made for a portion of the lot in question. Before giving you a definite reply in this matter I will telegraph ~~you~~ to the Agent, and should there be no entry, or no application for entry by Mrs. Boyd, the lot can then be set aside for the purposes of your Department. As pointed out in Mr. Hall's letter of the 21st April last, Mrs. Boyd has paid on account of the settlement with Mr. Francis White, who had a leasehold of lands in this vicinity, the sum of \$168.40, and should it be found equitable that this amount should be refunded to Mrs. Boyd, the lot can be transferred to your Department, provided

A two-inch pipe would give an ample supply of water for all domestic purposes.

The Commissioner suggests that the Department of Public Works be asked to prepare specifications. I do not see that this is necessary as the chief thing to be guarded against as the danger of frost, and the Agent or Principal should have a better ~~idea~~ ^{knowledge} of how deep the pipe should be sunk than anyone unfamiliar with the locality.

This matter has been before the Department for some time, and I think it should not be finally disposed of.

If we have only \$750- we cannot afford to lay a pipe amounting to \$1000- the latter amount will cost the matter an amount necessary until we have to stand for a suspicious amount of money. I am in favor of the best disposal of the money at hand.

OTTAWA, 14th December, 1899

The Secretary-

McDougall Orphanage

The sum of \$750.00 is included in this year's estimates for the purpose of conducting water into the building from Lot 7, Morley Settlement.

The negotiations for the transfer of this Lot to the Department are not yet concluded, the Department of the Interior having granted a further extension of time to Mrs Elizabeth Boyd, in whose name the Lot stands, to complete her purchase. As, however, the school would be entitled to obtain water from the spring on this Lot, the Indian Commissioner was instructed to call for tenders for connecting the spring with the school, and was requested to consult with Mr Ponton, who was then in the West.

Mr Ponton has placed on file certain correspondence had between him and the Commissioner in regard to the preparation of estimates from which it will be seen that to put in a four-inch cast iron pipe will cost over \$1000.00, while a four-inch galvanized, wrought iron pipe would come to over \$1600.00 and a two inch pipe would cost the whole of the amount voted, - \$750.00. Mr Laird and Mr Ponton both favor a three or four inch pipe on account of the additional protection it would give in case of fire, but if their recommendation were approved of, additional funds would have to be provided.

75-17

OTTAWA, 15th February, 1900

Sir,

In further reference to the question of water supply for the McDougall Orphanage, I beg to say that the Department is advised that Mr Frank Ricks, the assignee of Mrs Boyd, who made the homestead entry for 160 acres of Lot No. 7, Morleyville Settlement, has paid the purchase money in full for this lot, the title to which now stands in his name. Arrangements, therefore, will have to be made with Mr Ricks for permission to enter upon his property and utilize the spring thereon.

The Department thinks that the Church authorities would be in a better position to treat with Mr Ricks for the necessary concession than it would, and it would like you to advise them accordingly.

The sum of \$750 is all that is available for putting in the water supply and there are, therefore, no funds for the compensation of Mr Ricks, should he require it.

I have the honor to be, Sir,
Your obedient servant,

The Indian Commissioner,
Winnipeg,
Man.

May 30th. 1900.

The Hon. David Laird,
Indian Commissioner,
Winnipeg.

Dear Sir,

The Principal of the Orphanage and Home has three times approached the owner (or claimant) of the Spring of flowing water from which it is desired to run same into the Buildings, and thus far has been unable to secure anything like a permanent right to use the water. Will you kindly do what you can in this matter, as this question of water supply is one which should be settled as soon as possible.

Health and comfort, and convenience, are all seriously involved and we will hope that you will be able to afford speedy relief.

Yours faithfully,

(Sgd) John McDougall.

Department of Indian Affairs,
OTTAWA, 12th June, 1900.

The Secretary:-

Re water supply for the McDougall Orphanage.

The question of furnishing a water supply for this school has been before the Department for a couple of years and no definite arrangement has as yet been arrived at. The sum of \$750 was voted last year and re-voted this year for this purpose, but there was a hitch in regard to the ownership of the property from which the supply was to be derived and it was only in February last that this Department was advised by the Department of the Interior that sale of the lot in question had been completed to Mr Frank Ricks.

The Commissioner was written to on the 15th of that month and requested to ask the Methodist Church authorities to enter into negotiations with Mr Ricks for permission to utilize the spring on his property. The Commissioner now writes enclosing a copy of a letter from the Rev. John McDougall, stating that so far they have been unable to come to terms with Mr Ricks, and requesting that the matter be taken up by the Department.

In connection with this matter I may state
that

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

KODAK

that the sum already voted will lapse on the 30th instant and from estimates furnished by the Commissioner and Mr Ponton, this amount, owing to the advance in the price of iron, will not be sufficient to complete the work as at first contemplated. If Mr Ricks has to be paid a consideration for a permanent right to use the water, more money will be required for this purpose.

I may state that both Mr Laird and Rev. Mr McDougall omit to state the amount of consideration, if any, that Mr Ricks is most likely to require. The Department could, however, write to Mr Ricks and ask him to state for what amount he would grant the required concession, and this is apparently what Mr Ricks has been waiting for.

Department of Indian Affairs:-

OTTAWA, 19th February, 1901

The Secretary:-

Memo.re water supply for McDougall Orphanage.

21/2/1901

in which the spring is situated

Dr Lafferty showed me a communication from Mr Ricks, the owner of Lot 7, Morley Settlement, which adjoins the school lot, in which he demands the sum of \$1,000.00 for the ~~privilege of using the water from the spring on that lot.~~ Lot 7 contains 61 1/2 acres, for which Ricks paid \$411, receiving his Patent on the 7th June last. The Department has, for the past two years been endeavoring to obtain the use of this spring ~~for the past two years~~, as there is no water available on Lot 8, the school lot, and Mr Ricks has given his ultimatum that if his offer is not accepted, he will prevent the school from taking water therefrom.

I think that Mr Ricks' proposition is most unreasonable, and is, I understand, made because he has had some ^{grievance against} disagreement with the Rev. Mr McDougall and thinks that he is in a position to force the Department to pay him his price. Lot 8, was patented to the Methodist Church on the 28th Nov. 1894, ~~by~~ ^{it} having been set apart by Order-in-Council for the use of Orphanage and Training School for Indian children. This lot contains 1176 acres.

It was a mistake in the first instance placing the school where it is, with no available water supply, and the Church should have taken steps long ago to secure perpetual use of the spring.

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

209462

I think the question of price should be submitted to arbitration and if Ricks will not con-
sist to this, steps should be taken by the Department
to expropriate Lot 7, or at least the portion North
of the road on which the spring is situated. I think
this could be done as it is in the interest of the
Government to use the spring, as the school cannot be
carried on without the water supply.

Martha Benson

The school is short of pasture
in their present premises & thus
additional acreage is really
needed for this purpose

Rev. Sir,

Scho
Nov

In reply to that portion of your letter of the 8th instant which refers to the water supply for the McDougall Orphanage, I am directed to inform you that the Department has decided to purchase that portion of Lot No. 7, north of the road in the Morley Settlement now held by Mr Ricks on which the spring from which the school obtains its supply is situated. When the purchase is completed steps will be taken to connect the school with the spring by a pipe line.

Your obedient servant,

OTTAWA, 25th November, 1901

Sir,

Lm. to
W.D.

In connection with previous correspondence relative to the water supply for the McDougall Orphanage I am directed by the Superintendent General to inform you that he has decided to purchase that portion of Lot No. 7, north of the road in the Morley Settlement now held by Mr Ricks on which the spring is situated from which the school obtains its supply. You are hereby authorized to make arrangements for the purchase of this land from Mr Ricks, so that the spring may be connected by pipes with the institution. The necessary amount to complete the purchase and pay for the installation of the system will be included in this year's supplementary estimates.

I have the honor to be, Sir,

Your obedient servant,

J. D. MOLEAN

Department of Indian Affairs,

OTTAWA, 25th November, 1901:

The Secretary:-

In order to carry out the instructions of the Supt. General with reference to the water supply for the McDougall Orphanage I beg to say that it will be necessary to provide at least \$2500.00 in the Supplementary Estimates for the purchase of the land and piping the water from the spring to the building. Mr Ricks, the owner of Lot 7 on which the spring is situated offered to sell part of the lot for \$1000.00, this offer only to be good for ninety days. He may possibly want more now.

You will see from the estimates on file regarding the cost of piping it will take at least \$1500.00 to put in the best quality of galvanized iron pipe.

M.K.C.

OTTAWA, 28th December, 1901:-

Sir,

In further reference to the matter of the water supply for the McDougall Orphanage and to official letter of the 25th ultime on this question, I beg to say that there will be sufficient funds in the current year's appropriation to pay for the purchase of the land from Mr Ricks and it would be well to arrange for the transfer at as early a date as possible so that the necessary material for piping may also be purchased, before the end of the fiscal year.

I have the honor to be Sir,

Your obedient servant,

Morley, January 18, 1902.

To The Indian Commissioner,

Regarding that part of lot No.7, of the Morley Settlement north of the road, and west of the McDougall Orphanage, containing about three hundred acres, all under good fence.

1st.

I will exchnage that part of lot No.7, for section twenty, township twenty five, range five west of the fifth meridian. or

2nd.

I would sell that part of lot No.7, Morley Settlement, where the McDougall Orphanage obtain their water supply north of the road for the sum of twelve hundred dollars. or

3rd.

I will sell the right to lay pipes to the spring, where they are at present getting their water supply, for six hundred dollars, to have the use of the water as long as the said McDougall Orphanage is used for educational purposes or under Government control, but if ever said McDougall Orphanage goes into the hands of any private individual said water supply, if leased for six hundred dollars, goes back to whom ever holds the deed to that part of lot No.7 Morley Settlement north of the road.

This agreement holds good for ninety days after the twentieth of January 1902.

Signed Frank Ricks

EXD

Ottawa, 29th January, 1902

Sir:-

In reference to previous correspondence respecting the application made by this Department to acquire Lot No. 7 in the Morleyville settlement in connection with the McDougall Orphanage, I beg to say that Mr. Frank Ricks whose right to this lot was admitted by your Department and who obtained the patent therefor has offered to exchange that part of Lot No. 7 above referred to on which is situated the spring this Department wishes to obtain for the use of the school for Section 20, Township 25, Range 5, west of the 5th meridian.

I have therefore to request that you will be good enough to inform me whether this lot is available and if so upon what terms it could be obtained by this Department for the purpose of effecting such exchange.

I may add that it is absolutely necessary for the school to obtain control of this spring as it is the only available source from which water can be obtained for the use of the school.

Sir,

Adverting to your letter of the 29th ultimo, No. 116963--5, relative to the exchange which your Department desires to effect of a portion of Lot No. 7, Morleyville Settlement, for Section 20, Township 25, Range 5, West of the 5th Meridian, I am directed to say the Agent of Dominion Lands at Calgary has reported that the S. $\frac{1}{2}$ of this Section is held under lease by Messrs. Leeson and Scott; and to state that, as the rental of such lease has been paid up to the 1st of August next, the said half-section cannot be disposed of. The N. $\frac{1}{2}$ of the section in question is, however, available; and, in view of the purpose for which it is required, namely, that it be may be exchanged for that portion of the said Lot 7 on which is situated the spring which it is desired to obtain for the use of the McDougall Orphanage, it has been decided to sell it to your Department at the rate of \$1.50 per acre.

116,963-5

Sir,

Referring to your letter of the 25th. instant and other correspondence relative to the obtaining of a water supply for the McDougall Orphanage, at Morley Settlement, I have to report that I visited the Orphanage on the 11th. instant in company with Rev. John McDougall, examined the school building and its surroundings and the spring on Lot 7 from which a supply of water is sought. In the evening I met Mr. Frank Ricks at the Agency and discussed the question of terms with him. I found he was unwilling to reduce his price of \$1200 cash for the portion of Lot 7, north of the Morley Settlement road, which contains the spring; and that he was decidedly unwilling to exchange the whole of Lot 7 for section 20, Twp 25, Rge 5, West of the 5th. Meridian, for the reason that the whole of Lot 7 has been fenced in, and there are farm buildings on the portion of the lot South of the road. He claimed that the fencing of the north division of the Lot had cost him \$400; as the fence is a fairly good post and wire one, I dare say the statement of cost is nearly correct. I ascertained that he was still willing to exchange the portion of Lot 7 north of the road for the above-named section; but as Mr. Leeson of Leeson & Scott was in Calgary, and I would have to see him as required

--2--

required by the Department of the Interior, to obtain a release of the leasehold of the south half of the said section. Mr. Ricks made an appointment to meet at Calgary on Monday the 14th. instant to consult with Mr. Leeson. The meeting took place at Calgary as appointed and we together saw Mr. Leeson. He seemed favourable, but said he would have to consult the Manager of his ranch, and others, and would write me at an early date. When I received your letter of the 25th. instant yesterday, I wired and received the reply of which the following is a copy:-

"Will see Ricks next week and may come to some understanding"
(Sgd) L. K. Leeson."

Before Mr. Ricks and I parted at Calgary, I thought it well that we should come to a conditional agreement, a copy of which is placed herewith.

I would suggest that the Indian Department deposit the \$960.00 with the Department of the Interior, the price at \$1.50 per acre asked for the whole of the said section 20; and that the Interior instruct their Agent at Calgary to grant through the Lands Title Office there to Mr. Frank Ricks a title in fee simple subject to the terms of lease of Messrs Leeson & Scott, ^{when Mr. Ricks} gives a proper conveyance to the Indian Department of all of Lot 7 in Morley Settlement plan of survey, north of the road through said settlement, as it is at present fenced (containing 312 acres, more or less). Mr. Ricks says the portion of Lot 7 proposed to be exchanged is free from all encumbrances, but the Department through a lawyer or otherwise should have a proper search made before the exchange is completed.

I have little doubt that Messrs Leeson & Scott will release the leasehold; but if not, Mr. Ricks is willing to take

*Approval of exchange being
made in accordance
with direction
from Mr. Leeson*

Department of Indian Affairs,
OTTAWA, 5th May, 1902

The Secretary:-

Re water supply for McDougall Orphanage.

The Indian Commissioner reports that he has had an interview with Mr Ricks, the owner of Lot No. 7 of the Morleyville Settlement, on which the ~~spring~~ spring supplying the school is situated, and that gentleman agrees to accept Section 20, Twp. 25, Range 5 West of the 5th Meridian in exchange for a portion of his lot containing the spring, subject to the lease held by ~~Mr~~ Leeson and Scott of the South portion of the above named section.

The Department of the Interior has agreed to allow this Department to purchase Section 20 at the rate of \$1.50 an acre and the Commissioner recommends that the money should be deposited with that Department for the purpose of effecting the exchange.

Mr Ricks title should be examined into by a lawyer before completing the transfer.

As this matter has been standing for some years I would suggest that the necessary steps be taken to close it out as soon as possible. You will see that the Minister ordered that this quarter-section should, if possible, be obtained, - See memo. 12th Nov. 1901 turned out herewith.

OTTAWA, 19th May, 1902

Sir,

Referring to my letter of the 5th instant relative to the proposed exchange of Section 20, Twp. 25, Rge. 5 West of the 5th Meridian for that portion of Lot 7 in the Morleyville Settlement north of the road which this Department wishes to make with Mr Ricks, I beg to enclose herewith a copy of a letter received from the Secretary of the Department of the Interior in which it is stated that it will be necessary to obtain a release from Messrs Leeson and Scott of their leasehold of the South $\frac{1}{2}$ of the Section above referred to before the sale of that portion can be carried out

I have the honor to be, Sir,

Your obedient servant,

J. D. MOLLAN

OTTAWA, 18th June, 1902

Sir,

I have to acknowledge the receipt of your letter of the 10th instant with further reference to the proposed exchange of property with Mr Ricks, in which you state that that gentleman has asked to be supplied with a form of release, which he will endeavor to have Messrs Leeson and Scott execute, for the South $\frac{1}{2}$ of Section 20, Twp. 25, Rge. 5, West of the 5th Meridian; and in reply I beg to inform you that if Messrs Leeson and Scott will request the Department of the Interior in writing to cancel the lease they hold of this half section, such action will be sufficient to enable that Department to carry out the sale of the whole section to this Department which will then be in a position to make the exchange for the portion for Lot 7 in the Morleyville Settlement required for water supply for the McDougall Orphanage.

I have the honor to be, Sir,

--Copy--

Morley, July 2nd.1902.

Sir,

In reply to your letter, No. 60/16, dated Jun. 23rd., Messrs Leeson & Scott are away and have not had a chance to see them, but as they have the south half of section 20, township 25, range 5, west of the 5th. Meridian leased I would take the north half of section 18, township 25, range 5, west of the 5th. Meridian instead of the south half of section 20, township 25, range 5 west of the 5th. Meridian, there being no settlers nor any lease on it. If you can see your way clear to close this deal you can send me a deed of the north half of section 20, township 25, range 5, west of the 5th. Meridian, and the north half of section 18, township 25, range 5, west of the 5th. Meridian and I will send you a deed to that portion of lot 7 in the Morley settlement, north of the road and west of the McDougall Orphanage, to whom ever you wish, and I will not have to wait for Messrs Leeson & Scott or ask them to cancel any claims.

Yours truly,

(Sgd) Frank Ricks.

Morley.

OTTAWA, 16th July, 1902

Sir,

I have to acknowledge the receipt of your letter of the 12th instant enclosing a copy of a communication received by you from Mr Frank Ricks, owner of Lot 7 in the Morleyville Settlement, a portion of which is required for the water supply of the McDougall Orphanage, in which he agrees to accept the S. $\frac{1}{2}$ of Sec. 18, Twp. 25, Rge. 5 West of the 5th Meridian instead of the S. 5 of Section 20 of the same township in addition to the North $\frac{1}{2}$ of the last named section in exchange for the portion of Lot 7 above referred to. In reply I beg to inform you that the Department of the Interior has been asked to sell these two half sections to this Department so that the deal with Mr Ricks may be consummated. As soon as a reply is received from that Department you will be further advised.

I have the honor to be, Sir,

OTTAWA, 16th July, 1902

Sir,

With reference to previous correspondence respecting the proposed purchase by this Department of Section 20, Twp. 25, Rge 5, West of the 5th Meridian, I beg to inform you that, as the South $\frac{1}{2}$ of this section is under lease to Messrs Leeson and Scott, and therefore not available, this Department will be glad to purchase the North $\frac{1}{2}$ of Section 18, Twp. 25, Rge. 5, West of the 5th Meridian in lieu thereof, so that it may be in a position to close the exchange with Mr Ricks who has agreed to accept the latter half section instead of the half-section under lease to Messrs Leeson and Scott. I have therefore to request that if these half-sections are still available you will be good enough to take the necessary steps to have them transferred to this Department for the purpose indicated in previous correspondence had with you on this subject.

Department of Indian Affairs,
OTTAWA, 26th September, 1902

The Secretary:-

Re water supply for McDougall Orphanage.

I am happy to say that there is a prospect of this long pending question being settled. The Secretary of the Department of the Interior writes under date of the 23rd instant that he has given instructions that the two half-sections, - the North $\frac{1}{2}$ of 18 and the North $\frac{1}{2}$ of 20, Twp. 25, Rge. 5, West of the 5th Meridian may be sold to this Department at the rate of \$1.50 per acre, in order that they may be exchanged for the portion of Lot 7, Morleyville, in which the spring is situated which is required for the water supply of the McDougall Orphanage. The terms of payment are stated in the Secretary's letter and steps should be taken to acquire immediate possession of these lots so that the exchange with Mr Ricks, the owner of Lot 7 may be effected.

As any further steps in this case are out of my jurisdiction I would suggest that the matter ~~be~~ be referred to the Accountant as to payment, and to the Law Clerk as to the arrangements to be made for the exchange.

Department of Indian Affairs,
Ottawa, 30th September, 1902.

Purchase and exchange of land for McDougall
Orphanage Water supply.

The arrangement as between this Department the Department of the Interior and Frank Ricks of Morley is that Frank Ricks shall convey the portion of lot 7, in the Morleyville settlement, north or northwest of the public trail from Calgary to Morley, in exchange for the north half of Section 18 and the north half of Section 20 both in Township 25, Range 5, west of the 5th Meridian, which two half Sections the Department of the Interior has consented to sell to this Department at the rate of \$1.50 per acre. There are funds available for the purchase. I have to day seen Mr. Rothwell, the Law Clerk of the Department of the Interior; and he has agreed that the best way of carrying out the arrangement made will be for the Agent of the Minister of Justice at Calgary to investigate the title of Ricks to the portion of lot 7 Morley to be conveyed, and that upon a favourable report as to title and execution and registration of transfer by Frank Ricks to the King, as represented by the Superintendent General of Indian Affairs, the Department of the Interior will on the request of this Department and payment, by this Department, at the rate of \$1.50 per acre cause a patent to be issued to Frank Ricks as nominee of this Department for the north half of Section 18 and the north half of Section 20 both in the above Township 25, range 5, west of the 5th Meridian.

I think it will be necessary to have a description showing the measurements of the lot to be conveyed by Ricks. There is on file a blue print copy of a plan of the Morleyville settlement compiled in the Department of the Interior in 1885 and 1888. If this is the plan

registered

Sir:-

Referring to ^{my} letter to ^{you} Department of
1st instant relating to two half Sections, being the North
half of lot 18 and the North half of lot 20 in 25-5 W. 3th
N., I have the honour to inform you that this Department
is advised by the Justice Department that their Agent at
Calgary has found the portion of lot 7 in the Morleyville
settlement which is to be conveyed to Frank Ricks to this
Department clear of all encumbrances and they have drawn
a transfer and forwarded it to Mr. Ricks for execution
by him and that when it is executed and registered the
certificate of title will be forwarded to the Justice De-
partment. In accordance with the memorandum of the Law
Clerk of this Department enclosed in the letter to your
Department above referred to, on receipt of the certifi-
cate of title the portion of the land to be conveyed to
Mr. Ricks will be paid by this Department at the xx
rate of \$1.50 per acre. I shall be glad if you will ap-
prise me in of the acreage of the two half Sections above
referred to in order that upon receipt of the certificate
of title of the portion of lot 7 to be conveyed there may
be no delay in payment of the price of the land to be con-
veyed to Ricks and the issue to him of a patent therefor.

Sir:-

Referring to previous correspondence relating to the exchange of two half Sections being the North half of Lot 18 and the North half of Lot 20 in 25-5 W. 5th M. for part of Lot 7 Morleyville, I have to inform you that this Department now holds a certificate of title in respect of the last mentioned land conveyed by Frank Ricks to the Crown. I enclose herewith cheque for \$480.00 the price of the two half Sections and request that a patent issue as soon as possible to Mr. Ricks therefor in accordance with the arrangement referred to in my letter of 1st October last to your Department.

Your obedient servant,

Secretary.

The Secretary:-

I annex for signature letter to the Secretary of the Department of the Interior. The papers will require to go to the Accountant for cheque for \$480.00 referred to in the letter and for cheque for \$17.43 which latter cheque is to be sent to the Deputy Minister of Justice in accordance with his letter of 20th instant.

This completes the action required of this Department. The certificate of title below will remain in this Department in accordance with the understanding with Mr. Rothwell as Acting Deputy Minister of the Interior in order that the land may not be treated as Dominion lands without the consent of this Department and payment of the amount expended by this Department.

Refer to No. 156256.

Ottawa, December 12th, 1902.

Sir,

With further reference to your letter of the 22nd ultimo, No. 116963 No.5, I am directed to enclose you herewith official receipt No. 2443 dated the 9th instant, for \$480.00 on behalf of Frank Ricks, on account of the purchase of the N. $\frac{1}{2}$ 18 and the N. $\frac{1}{2}$ 20 in 25--5 W. 5th M. The Agent of Dominion Lands at Calgary has been advised of this payment.

I am to say that the Departmental letter of the 4th ultimo contained an omission in regard to the area of these two half sections. That letter should have stated that the acreage of the two half-sections was 320 acres each. This would make a total area of 640 acres but the omission of the word "each" no doubt mislead you as to the amount to be paid. The total amount for 640 acres at \$1.50 per acre is \$960.00, and there will thus be a further sum of \$480.00 payable on account of this land.

Your obedient servant,

 The Secretary
 Dept of Indian Affairs,
 Ottawa.

Dear Sir:-

The piece of property described in Mr. Ricks' letter a copy of which I herewith enclose would be a very valuable addition to this property, and if the Department can see its way clear to make the exchange mentioned we should be pleased indeed.

The land mentioned in sec. 12 is very undesirable for homestead purposes a one quarter section there would not be of any use as all it would be fit for would be grazing, and will probably remain unoccupied for some years.

A diagram of school property showing the piece desired.

Schools
Memorandum for

Deputy Minister,

The proposition contained in the letters here-
under from the Principal of the McDougall Orphanage and
from Mr. Frank Ricks simply means that the Southern part
of lot No. 7 in the Morleyville settlement, containing 362
acres, ~~is~~ be added to the McDougall Orphanage .

To carry out this proposition Mr. Ricks says
he will grant the said land on condition that he receives
in payment there for Sec. 12, T. 25, R. 6, W. 5. M. (containing
640 acres)

If it should be decided to make the proposed
addition to the lands of the Orphanage we will require to
purchase the said Sec. 12, or other wise obtain it from the
Department of the Interior. I think before proceeding
any further in this matter we should have a report stating
whether the said addition is actually required for the
purpose of the school, and details in connection therewith,
for the consideration of the Department, and would suggest
that the matter be submitted to Mr. Benson for this
purpose.

S. P. May
Chief Surveyor.

116963

Ottawa, June 14, 1907.

The Deputy Superintendent General,-

The Rev. Mr. Oakley, Principal of the McDougall Orphanage, submits a proposition from Mr. Frank Ricks to exchange the southern part of Lot 7, Morleyville Settlement, containing 362 acres for Sec. 12, T.25, R. 6, W. of the 5th Meridian, containing 640 acres, which he says would be a very valuable addition to the school property.

The school is built on Lot 8, Morleyville Settlement, which was patented to the Methodist Church and contains 1176 acres. In addition to this the Department purchased the northern portion of Lot 7, containing 350 acres, which gives them a total area of 1426 acres, which should be ample for the school, and there does not appear to be any necessity for obtaining this additional piece of land. Farming can never be successfully carried on at this school, and they have all the land they need for stock-raising.

If the Church authorities had considered that this extra piece of land was required, they would have suggested the advisability of obtaining it when the Department was arranging for the acquirement of the water supply from Mr. Ricks some years ago. Ricks evidently thinks that the Department is an easy mark and would like to get another ranch at its expense.

IN YOUR REPLY REFER TO
No. File-3
ALSO
TO DATE OF THIS LETTER.

Sir,-

In reply to your letter #116963/1 of the 14th. inst., I have the honor to say that Mr. Ritchie, of the Water Power Branch, Dept. of the Interior, went over the ground in vicinity of the proposed school site, and gave me following levels.

Height of water above nearest site 24.5 feet.

"	"	"	"	middle	"	19.3	"
"	"	"	"	furthest	"	26.4	"

The middle site is probably the one which will be used, thus having a gravity system which will supply water to second story, but not sufficient to throw a stream on to the roof in case of fire.

There is an alternative scheme to the above which might be taken into consideration by the Dept. The C.P.Ry. have their pump house on bank of Bow R. quite close to above building sites, surrender for this and pipe line to Morley was given last year. I think if the Department wished to make use of this it would be possible in some way to connect up with C.P.R. system. Some time I meet one of the officials of the Company I will find out if this is feasible.

I have the honor to be, Sir,

Your obedient servant,

The Secretary,

Department of Indian Affairs,
Ottawa.

116963-1

Brandon, February 11, '14.
Man.

In opinion
Mr. Duncan C. Scott,
Dept. Supt. Gen., Ottawa.

453384

Dear Sir:-

Replying to your favor of the 6th, re the
site for the new building on the Morley Reserve.

Answer
Your Agent at Morley and the Rev. Mr.
Steiner and my-self gave considerable attention
to the question of the site and we decided on the
location just west of the road that leads to the
bridge. The Hospital and the tents used in connection
with this are on the other side of the road.

The question of a water supply for the ground
floor and the basement is very easily solved. There
is a beautiful spring on the high side from which
it could be piped right in the building. This would
give an unlimited supply for all purposes such as
washing, cooking and for anything that could be
accomplished on the ground floor and in the basement:
and we thought that for closet purposes in the dormitories
it could be pumped from the Bow River. The C.P.R.
have already a pump right close by, with which they
pump their water from the tank up to the station. It
might be possible to utilize this pump for a small
consideration.

Yours sincerely,

T. Ferrier

TF/JM.

Ottawa, June 2, 1914.

Sir,-

With reference to the water supply for the proposed Indian Boarding School at Morley which was discussed with you when in Ottawa recently, the Department would like some ^{additional} information as to the exact location of the proposed building and the distance to source of water supply, to enable them to complete the plans, also all information and data necessary for the building of a concrete reservoir at source of supply, with sketch plan and profile, also profile of the ground below the school for drainage purposes.

[Handwritten signature]
Encl.

It is noted in your letter of January 23rd last, that the height of water above sites is 24' 5" 19' 3" and 26' 4" . Please mark these points on your profile drawing.

It will be well, also, to mark on the sketch the exact positions of the old pipe line to hospital, the source of which is the proposed point from where the water will be taken for the school.

I am sending you herein a blue print of the C.P.R. water supply, on which I am marking in red lines ^{taken} an old pipe line which apparently shows the water from near the bridge. You might give me any information you can with respect to this.

[Handwritten signature]
I. W. Waddy, Esq.,
Indian Agent,

463291

Sir,—

In reference to your letter of the 2nd. inst., I beg to reply as follows.

I have gone into the various matters mentioned with Mr. Markle and enclose herewith plans showing general outline and profile of location, with distance marked in regards springs etc. These are of course all approximate as the definite location will not be settled until Mr. Scott decides on final site.

Re your paragraph 3 I may say that in my opinion the old hospital water source is no good for the school as the water supply is very meagre, and is much further off than other springs shown on enclosed plans.

Re your last paragraph, drawing attention to red line on blue print, this line indicates a road asked for by C.P.R. to their pump house. However as the lease gave them access to pipe line and pump house this road was not allowed them.

I have marked Mr. Ferrier site and Mr. Inspector Markle site on plan. The former seems to me to be the best, but I will explain to Mr. Scott all the advantages and dis-advantages of each place, both are very desirable.

The matter of reservoir will have to be considered after the location is decided upon, as a change of site would entail a complete change of water system, one being gravity and the other force pump or ram.

The Secretary.

Sir,-

On your visit here you instructed me to have an engineer make a report on the water-work system and sewage disposal for the new school. You suggested that probably Mr. Bennett would know of some suitable man for this work. I have the honor to report that on his recommendation I employed Mr. L.G. Casewell of Calgary and had a complete report made. Mr. Casewell has sent his plans to the Department under separate cover, copies of which I retain in this office. Spring No. 1 is the one we looked at on your visit here. The necessary head cannot be obtained by gravity from this, but I think it possible to use it. I asked Mr. Casewell to recommend some system ^{to use this spring} but he does not seem to have done so.

I have the honor to be, Sir,

Your obedient servant,

D.C. Scott, Esq;
Deputy Minister of Ind: Affs.

Ottawa, Sept. 14, 1914

Sirs,-

I beg to acknowledge the receipt of your letter of the 4th instant enclosing bill of Mr. L. G. Casewell for the Morley School waterworks and sewerage system with additional item of cost to be attached to the original estimate.

It will be necessary to provide on the plan for the disposal of the sewage other than conveying same to the Bow River and specifications are also necessary so that the work may be carried out at a later date. These should be prepared and sent into the Department as soon as possible.

nm
ok
from
It will also be necessary to render a bill in detail for the work done before this can be paid and in connection with this I have to say that while the work done is satisfactory, the account therefore, is considerably in excess of what the department has paid for similar services in other places or expected to pay for this work.

Your obedient servant,

J. D. MOLEAN

Ottawa, Sept. 11, 1914

MEMORANDUM

for
Mr. Scott.

Plans, reports and approximate estimates of cost of the proposed waterworks and sewage system for the Morley Indian Boarding School have been prepared and received from Mr. L. G. Casewell, Engineer of Calgary, Alta.

The water plans recommend a supply being taken from a spring numbered 5 on his plan situated at a distance of 6000 feet South West of the proposed school site. This spring is said to be of exceptionally good water with a discharge of 135 gallons per hour or 3,240 gallons per day which is an ample supply. Reservoir proposed will hold 110,000 gallons or a full supply for five days or a limited supply for ten or fifteen days.

The supply is by gravitation with ample head and is sufficient for all domestic and school purposes as well as affording a limited hydrant supply for fire purposes.

Springs Nos. 1, 2, 3, 4 although considerable nearer the school site are not recommended as they are not constant.

The proposed sewage disposal system is by

Indian Affairs. School Files.

2nd report sent in 1915

septic tank with a gravel filter bed in second compartment
and ~~the~~ ~~dis~~ is disposed of by discharging into the river
or by seepage into the ~~sub~~soil.

The estimated cost of water system	
is placed at-----	\$3,407.38
and sewage disposal at-----	1,285.50
or a total of -----	<u>\$4,692.88</u>

No specifications have been prepared
or sent in for this work and this should be done before the
plans are ready to use. *also plan showing the position of sewage
alter. then to Review.*

DEPARTMENT OF INDIAN AFFAIRS.
SEWAGE DISPOSAL WORKS, STONY INDIAN RESERVE,
MORLEY,
PROVINCE OF ALBERTA.

SPECIFICATION OF MATERIALS AND WORKMANSHIP.

Excavation and Backfill.

1. Take out excavation for Tank to the depth shown on the Drawings and of sufficient size to leave room for the outside forms for the Concrete. If necessary, it shall be sufficiently shored or braced to prevent any caving. Evenly level off the bottom. Backfill behind tank walls, and any parts excavated below grade to be refilled with selected gravelly material watered and thoroughly rammed. If any water is encountered in excavation, the Contractor shall remove same before proceeding with the work. Under no circumstances must concrete be placed in position under water. Any rock encountered will be paid for as an extra as hereinbefore provided. If, however, a boulder less than half a cubic yard that can be removed without blasting is encountered, that shall not be classified as rock. After completion and removal of the forms, excavation to be solidly backfilled around the walls and well rammed into place .

Concrete.

2. Concrete shall be 1 : 2½ : 4 mix, placed to forms and dimensions shown on the plans. The roof of the Tank shall be reinforced. If the foundation is found to be soft, the floor also shall be reinforced and the work paid for as an extra. Evenly float to a smooth finish the floor, roof and exposed walls and neatly round off corners. Build baffle wall with two pieces reinforcing steel as shown. Manholes to be formed in roof and other finished openings including inlet to tank, two outlets from first chamber, and outlet from tank, all as shown. Provide and set in place two 90 degree elbows as outlets from first chamber of Tank to second chamber. Build the wall around filtering material, carry the projection all round so that the sewage may overflow from all sides, as

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

shown on the Drawings. The Concrete shall consist of cement, sand and broken stone or coarse screened gravel mixed in the proportions by measure of four parts broken stone to two and a half parts sand, and one part cement by volume. Pit run gravel, if clean and well graded, may be used. The aggregates shall be measured in proper measuring boxes, except that a sack of cement shall be considered as one cubic foot. The broken stone must be capable of passing through a two inch ring. It shall be perfectly clean. No forms must be removed until the concrete deposited has stood for thirty six hours.

When the concrete is mixed by hand, the mixture of sand and broken stone or gravel is first to be spread ~~on the top~~ ^{thereof} in a thin layer on a timber platform, then the cement spread on the top thereof, then the cement mixed thoroughly whilst dry, after which the proper quantity of clean water is added gradually while the mass is being turned over, and mixed until the mortar thus formed covers the concrete or broken stone or gravel entirely, and until the concrete attains a proper consistency. If broken stone be used with gravel, it should be wet thoroughly and added to the wet mass during the mixing. Concrete shall be made with so much water that comparatively light tamping will be required to cause the mortar to fill all the interstices of the stone. Immediately after mixing, the concrete shall be conveyed to place in such manner that there shall be no separation of the different ingredients. It shall be rammed or tamped thoroughly in layers not exceeding twelve inches in thickness, and otherwise agitated by suitable tools so as to produce a thoroughly compact concrete of maximum density, and so that all interstices are filled; and so that the concrete presents a smooth, finished, unbroken mortar surface with ^{out} exposed stones when the forms are removed, whether the exterior of the mass be mortar alone or concrete. Should any concrete receive its initial set before being placed, it shall be rejected and removed. Should, during construction,

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

any surface of concrete be allowed to harden or dry before the other concrete is placed thereon, it shall be swept perfectly clean with brooms, then wetted thoroughly with clean water, and covered with a thin layer of one to one grout, so as to make a perfect contact between the old and the new work, and thus ensure that the mass will be truly monolithic. The forming of such dry surfaces shall always be prevented if practicable. If the walls are stopped below their finished height, a two by four check shall be made in the center of the wall as a key for the next layer, and a similar check in floors underneath the centre of walls. All concrete should be kept damp until thoroughly set by drenching it, or the forms containing it, twice a day. If, notwithstanding extreme care in placing and ramming the concrete, imperfections are found when the forms are removed, such imperfections to be floated over with mortar composed of one part Portland Cement, and two parts sand, but no plastering of any kind will be permitted. All surfaces of concrete which are to remain in contact with earth backfill shall receive a heavy coat of coal tar applied hot. Where iron pipes pass through concrete the coating to be scraped off the pipes.

The reinforcing steel for tank cover to be of plain round rods nine feet long and half an inch in diameter, spaced six inches centre to centre. It shall have an ultimate tensile strength of not less than sixty thousand nor more than seventy thousand pounds, and an elastic limit of not less than thirty thousand pounds, with a minimum elongation of twenty two per cent in an eight inch test piece. If displaced when pouring the concrete, or from other cause, the concrete shall be removed and the steel brought to correct position. Any rust on the steel must be removed.

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Cement.

3. All cement used on the work shall be of approved manufacture, and capable of complying with the following conditions :- Extra finely ground Portland Cement, weighing not less than 112 lbs nor more than 120 lbs per imperial striked bushel when lightly run into a measure, and when shaken through a sieve having 5776 meshes to the square inch the residue shall not exceed three per cent ; it shall be capable of maintaining a tensile ~~strength~~ strain of 400 lbs per square inch of sectional area seven days after gauging, and 500 lbs per square inch twenty eight days after gauging, the sieves being prepared from standard wire of the size .004 inch in diameter ; it shall be woven, the cloth being carefully mounted in the frame without distortion. The specific gravity of the cement shall ^{not} be less than 3.10. It shall have been freshly ground, and if it has deteriorated through age or exposure shall not be used.

Sand.

4. The sand shall be clean and sharp and not too fine. If necessary, it shall be washed.

Lead and Gasket.

5. Lead shall be No.1. Pig Lead, soft and suitable for run joints. Gaskets to be best Italian stranded hemp yarn. No oakum to be used.

Filtering Material

6. Deposit in the space enclosed by the walls in end chamber of Tank, a layer one foot deep of field stones or "niggerheads" from six to ten inches in size. Cover the layer with a second layer of stones from four to six inches in size, to a depth of one foot. Cover the whole with a final layer of small broken or field stone from one inch to two inches in size, to a depth of six inches. The whole of the filtering material to be clean and free from dirt, dust or chippings. If necessary, the material to be washed. Absolutely no dirt will be permitted in the filter.

Sludge Bed.

7. Excavate for a sludge bed where shown. fifteen feet wide by twenty five feet long on bottom, with an average depth of two feet, and side slopes one and a half to one. A layer of gravel three to four inches in size to be spread over the bottom to a depth of one foot. The excavated material to be deposited around the sides of the bed and evenly sloped off.

Extra Backfill.

8. In all cases where the depth of backfill does not cover the pipes or tank by eight feet, place extra backfilling to such depth. The amount of backfill may be determined from the drawing showing profile of sewer pipe line.

Pipe Lines.

9. Excavate for and lay six inch C.I. Sewer Pipe from connection with soil pipe at School building to Tank as shown on the plans, and thence to outlet in trenches.

Allow for connecting six inch sewer with soil pipe.

The pipes shall be of standard thickness, spigot and socket pattern, of best quality, smooth and round. Dig bell holes for the hubs so that the pipes shall rest solidly throughout. Pipes shall be jointed with hemp and lead thoroughly staved up and caulked in a workmanlike manner and perfectly tight under pressure. Properly build in, and make watertight around, the inlet and outlet pipes of tank.

Manholes.

10. Build two concrete manholes two by four from the Tank to the surface of the ground to enable a man to remove sludge from the inside of the Tank. Provide two C.I. Manhole covers to be laid to position on a bed of cement mortar. Provide two manhole covers for Tank. Provide and set two ventilating pipes in Tank of four inch Galvanized W.S. Pipe with Plain Ventilator and Cowle Ventilator as shown, properly connected, and carried up three feet above surface of ground. Excavate for, and build in, a concrete manhole two by four where shown on sewer pipe line. Provide and set C.I. Manhole cover. Form a "half pipe" channel in six inch concrete floor, eight

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

inches in diameter, from inlet to outlet, and to the same grade as the pipes, so that the flow of sewage can be openly observed.

Trenches for Liquid Sewage.

11. Excavate a series of five trenches as shown on the Drawing, not to be backfilled, as an outlet for the liquid to filter away. Form same three feet deep from surface of ground, with sides out one and a quarter to one, slopes and excavation piled evenly on both sides. The width of trenches to be one and a half feet (1.5) Excavate one foot deep to outlet of pipe in trench. The trenches will be two feet deep below sewer pipe outlet, making a total depth of three feet.

Inspection and Testing.

12. On completion, the work may be inspected and the Contractor ~~is~~ required to flush the system to determine that the same is in working order.

Completion.

13. Perform any cleaning up necessary to leave the premises tidy at completion.

Indian Affairs. School Files.

DEPARTMENT OF INDIAN AFFAIRS.

Water Supply for New Boarding School, Stony Indian
Reserve, Morley,
PROVINCE OF ALBERTA.

SPECIFICATIONS OF MATERIAL AND WORKMANSHIP.

Reservoir.

1. The Reservoir site is a natural one as shown on the Drawings, and when the Dam is completed will have a capacity of 110,000 gallons. Thoroughly clear away all dirt or matter that might be a source of pollution to the water, from the site. Grub down to solid earth.

Dam.

2. Build an earthen dam according to dimensions shown on Plans, with side slopes two to one. Excavate foundation for dam one foot, provide and set a layer of selected cobble stones from six to ten inches in size and ram solid. Provide and set in position Rip Rap to protect the sides of dam as shown on the Plans, composed of large cobble or field stones. The Dam must be formed with a puddle core kept full of water during construction, fine material to be selected and turned into the center. No concrete to be placed under water. Pound and tamp the dam into shape, and solidly. Mix concrete in the proportions (1 : 2½ : 5) one of Cement, two and a half of clean sharp sand, and five of broken stone of a size approximately two inches. Mix and perform the concrete work strictly in accordance with the conditions contained in Specification for Materials and Workmanship for Sewage Works of this Contract. The Cement and other ingredients in accordance with the same Specification. Build concrete in Dam and Spillway as shown on the drawings. The quantity of concrete is three and a half cubic yards approximately.

Spillway.

Form Spillway as shown, and provide and set in position two inch planking in slot, and form trench connecting with creek down stream for overflow from spillway.

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Excavate Pipe Trenches.

3. Excavate for pipe laying, about 2300 cubic yards to true alignment and grade as set out. Backfill and ram solidly the earth after the pipes have been laid, properly jointed and inspected. Where the pipe has not the necessary eight feet in depth of backfilling to cover, provide extra backfilling and thoroughly ram over the trenches with sides evenly sloped. The amount of backfilling extra may be ascertained from the Drawing showing profile of pipe line.

Laying Pipes.

4. Provide and lay two inch Galvanized W.I. Pipe of Standard thickness and approved manufacture. Form small pile of stones, firmly fixed, to support pipe intake as shown on the Drawing. Provide and set over end of pipe, a thin wire screen, to prevent obstructive matter entering the pipe. Build in two inch Gate Valve with valve box and key complete, and having bronze fitted valve with hub or flanged ends, and bronze spindle, to open by turning to the left, as shown on the downstream side of dam. Provide and lay one and a half inch Galvanized W.I. pipe of standard thickness from the Point "A" on plan to School Site, connected with two inch pipe by a standard reducer. All joints to be securely screwed and jointed with waterproof cement. Allow for connecting one and a half inch pipe to water service pipe in School building.

Specials. Provide and connect three 1/16th bends for two inch pipe, two 1/8th bends and one flexible joint for two inch pipe for Reservoir connection, as shown on the plans.

Testing.

5. After completion of Dam, Reservoir and pipe connection, the reservoir to be filled with water and put in working order, with the two inch planking fixed, and inspected for leakage. If any leakage occurs, the same must be remedied. The Contractor must provide for the flow of the creek during construction of the Dam, either by inserting a pipe or by other means at his disposal.

FORM OF TENDER.

To The Deputy Superintendent General of Indian Affairs,
OTTAWA.

Sir,

... the undersigned, having carefully examined the Plans, Instructions to Contractors, General Conditions and Specifications of Material and Workmanship supplied by the Department of Indian Affairs, and having ascertained the nature of the soil and sub-soil at the site of the intended works, HEREBY TENDER AND AGREE to supply all labour, materials, tools and everything necessary for the construction and completion of these works and relative works in accordance with and to the true intent and meaning of the said Plans, Instructions to Contractors, General Conditions and the Specifications of Material and Workmanship to the entire satisfaction of the Department of Indian Affairs and their duly authorised Agent in Charge for the bulk sum of (\$.....).

AND AGREE to excavate any additional trenches for pipe lines other than those shown on the plans or mentioned in the Specifications, at the rate of (.....) rate of (.....) per lineal foot, and common excavation at the rate of (.....) per cubic yard.

AND FURTHER AGREE to any deductions or additions that may be made as specified hereafter. ACCOMPANYING THIS TENDER is an accepted cheque for (\$.....)

being (10%) ten per cent of the amount of the Tender which may be held if the Contract is awarded to me by the Department of Indian Affairs, as a guarantee of good faith until the work is completed.

INSTRUCTIONS TO CONTRACTORS.

Meaning of Terms.

1. The word "Department" mentioned hereafter shall be understood to mean the Department of Indian Affairs, or such person whom the Department has authorised to be in charge of the work specified in the contract, and to whom the Contractor is directly responsible.
2. "This work" or "The Work" means all the works specified and mentioned throughout these Specifications and indicated on the various Plans or Drawings accompanying the same, or any portion of the said work covered in the contract.
3. "Contractor" means the person or persons having entered into Contract with the Department for the performance of the said work, or any portion thereof.
4. "Specification" means the Instructions to Contractors, General Conditions, and Specifications of Material and Workmanship.
5. Each Contractor shall submit his tender by filling out the Form of Tender attached hereto. Tenders shall be in the form of a lump sum, which must include everything necessary for the completion of the several portions and the whole of the work tendered for. Tenders must be in sealed covers marked plainly on the outside "Tender for Water Supply and Sewerage Works", and addressed to Duncan C. Scott Esq., Deputy Superintendent General of Indian Affairs, Ottawa. Such Tenders must be in the office of the Deputy Superintendent General before the morning of
6. Each Tender shall be accompanied by a properly verified cheque for an amount equal to at least (10%) ten per cent of the total amount of the tender. This cheque to be made payable to Duncan C. Scott Esq., Ottawa. The cheque of the successful Contractor to be deposited with the Department as a guarantee of good faith until the work is completed by him. Other cheques will be returned immediately after the contract is closed. The successful Contractor must undertake to immediately enter into Contract in writing if required to do so by the Department, otherwise will be considered irresponsible and his cheque forfeited to the Department. If the Contractor fails to comply with these instructions, or if there is any irregularity in the cheque, his tender may be rejected.
7. The Contractor shall indemnify and save harmless the Department of Indian Affairs and their Officers against all liability in respect to any loss, damage or injury to any person, persons, animals or property arising out of negligence or claim of negligence, on the part of the Contractor, his Agents, Servants, or employees, and any and every other person whatsoever through the carrying out of the work, whether any claim in respect thereof be made against the Department or other persons under any Act of Parliament or Common Law Right.

CANADA

8. For each day, Sundays included, of delay in completing the works in accordance with the terms of these Specifications and of the said Contract, the Department shall withhold permanently from the Contractor's total compensation the sum of twenty five dollars (\$25.00). The amount so withheld shall not be considered a penalty, but as ascertained and liquidated damages arising from such delay.

9. If the Contractor fails to complete the work within the time specified, the Contract may be cancelled and other persons engaged to complete the work.

10. All papers submitted to Contractors, excepting those of the successful Contractor, to be returned to the Department after they have been notified favourably or otherwise.

11. All materials used in the work shall be manufactured in Canada or within the Empire.

12. Power is reserved to reject the lowest or any tender.

WATER SUPPLY AND SEWERAGE DISPOSAL WORKS FOR NEW
BOARDING SCHOOL, STONY INDIAN RESERVE, MORLEY,

PROVINCE OF ALBERTA.

GENERAL CONDITIONS.

Plans and Specifications.

1. All work shall be executed in accordance with the Instructions to Contractors, Plans and Specifications of Material and Workmanship, and according to such other supplementary plans as the Department may consider necessary and furnish.
2. The Plans and Specifications must be taken together to explain each other. Should any discrepancy appear or misunderstanding arise as to the true intent and meaning of any part thereof, the explanation or decision of the Department shall be final and binding upon the Contractor.
3. The Department may give directions and explanations necessary to complete any of the provisions of this Contract, and correct errors or omissions in Drawings or Specifications when such is necessary for the proper fulfilment of the intentions of the Drawings and Specifications. The Department may make alterations in the line, grade, plan, form, positions, dimensions or materials of the work herein contemplated, or of any part thereof, either before or after commencement of construction. Such alterations shall not in any way affect the Contract or terms thereof except as the alterations may add to or deduct from the contract price as hereinafter specified.
4. The materials and work applied to be the best of their respective kinds, subject at all times to the inspection and approval of the Department. All material which the Department may consider unsuitable, defective or of inferior quality, to be removed and replaced at the Contractor's expense. The word "best" shall be understood to mean that there is no superior article on the market.
5. Any person or workman who is, in the opinion of the Department, or of the Indian Agent, guilty of unskilfulness or misconduct, shall be removed on request.
6. The work shall be commenced immediately on receipt of instructions in writing from the Department, and shall be completed within months from the commencement thereof.
7. All necessary lines, grades, levels and stakes will be set for the Contractor's guidance. The Contractor is responsible for their preservation.
8. The Contractor shall not assign, transfer nor sublet the Contract nor any part thereof without the written consent of the Department of Indian Affairs.
9. If the completion of the works be actually delayed by non-delivery of materials, or by circumstances beyond his control, then the Contractor may be allowed an extension of time; but the question as to whether the work is so held back would be determined by the Department.

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

10. If, in the opinion of the Department, there should be any increase or diminution in the quantities of work or material authorised herein, the cost of same shall be added to or deducted from the amount of the tender upon the basis of the actual cost to the Contractor of the materials and labour applied, plus fifteen per cent (15%) for his profit, no indirect expenses being included.

11. The Department may require the Contractor to perform work or supply materials not provided for in the Specifications, to be known as "Unclassified Work". Such work shall be paid for on the same basis as described in article 5 10, and satisfactory vouchers will be required from the Contractor for all expenses in connection with unclassified work.

12. Any defects, shrinkage or faults which may appear within six months from the completion of the work and arising, in the opinion of the Department, from materials or workmanship not in accordance with the Drawings or Specifications shall, upon directions in writing from the Department and within such reasonable time as shall be specified therein, be amended and made good by the Contractor at his own cost, and in case of default, the Department may employ and pay other persons to amend and make good such defects, and all expenses consequent thereon shall be recoverable from the Contractor.

13. Payment will be made when it is evident that the whole of the works shall have been completed to the satisfaction of the Department. Nevertheless, such payment will not relieve the Contractor of his liability to comply with Article 12 of these conditions.

14. The Department may require the Contractor to show evidence that all just claims and demands of his employees are compensated before he is fully paid for this contract.

15. Leave the premises clean and perfect at completion.

Report of L.G.Casewell, C.E. on Water Supply and
Sewerage System, New Boarding School, Stony
Indian Reserve, Morley, Province of Alberta.

To J.D. McLean Esq.,
Acting Deputy Supt: General of Indian Affairs,
OTTAWA.

Sir,

Water Supply.

Acting under instructions, I left Calgary on July 25th
for the purpose of making a Survey and collecting data with
which to formulate a scheme for Water Supply and Sewerage
Disposal in connection with the new boarding school, Morley.

LOCATION.

The School is to be built on a site approved by the Deputy
Minister of Indian Affairs, 1500 feet West of the Indian
Agency Headquarters, and 1100 feet South West of the Steel
Bridge carrying the main automobile road from East to West
over the Bow River.

This is an ideal location.

FORMATION.

The formation is of gravel, sandstone and blue shale outcrop.

DRAINAGE.

The drainage is natural, any storm water is readily absorbed
by the gravel, and the School will be built on rising table land.

SOURCES OF SUPPLY.

There are five Springs in the vicinity, as shown on the Plan

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

*Plan
filed with
Architect
R.D.*

No.1, and the Bow River traverses East and West at a distance of 1000 feet North of the School.

Springs Nos' 1, 2, 3 & 4, are inadequate in their supply. With the exception of Spring No.1, they dry up at intervals during the summer, or seep away through the gravelly formation.

The necessary amount of 'head' could not be acquired by adopting these Springs. A pumping engine would have to be used, and the supply of water would be insufficient, taking into consideration that sixty per cent goes to waste and cannot be re-used, to warrant the use of a hydraulic ram.

This Spring is a frequent halting place for Indians. Many call to drink and water their horses.

SPRING NO. 5.

This is a large Spring, situated 6000 feet Southwest of the School Site, to which I have run a line as shown on the Plan. The Chief of the Bearpaw ^{*Tribe*} ~~Society~~ of Indians on ~~this~~ Reserve states that it has never been known to fail for 18 years, that it is the best drinking water the Indians are acquainted with, and that the Indians themselves would favour this Spring being utilised as the School supply.

I have computed the discharge, and find it to be 135 gallons per hour, or 3, 240 gallons per day of 24 hours, which is more than ample.

The water forms a creek which discharges into the pond as shown on Plan No.1. This pond is generally about two feet deep, and the water finds its drainage through the gravel below.

I consider that this Spring should be utilised as the Source

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

of Supply.

RESERVOIR AND DAM.

I suggest, therefore, that an earthen dam and reservoir be constructed below the Spring as shown on the Plan No.1, details on Drawings Nos' 4, 5 & 6. The reservoir to hold 110,000 gallons, or five days supply.

PIPE LINE.

A two inch pipe line is laid from the intake, having a screen at the end, and tilted on a pile of stones as shown, to prevent silt or obstructive matter entering the pipe.

At the point "A" on the plan, or pipe line, the pipe is reduced to $1\frac{1}{2}$ inches to ensure it running full, and as a considerable amount of pressure or velocity, due to gravity, is obtained from here on, this pipe will do its work well.

OUTLET & DISCHARGE.

Assuming an elevation of 4043 feet to be well within the upper story of the School building, by the use of the formulae given on Drawing No.3, (Waterc Supply Chart), we have a discharge of 12 gallons per minute at this point.

This gives a satisfactory supply through all taps or openings within the building.

If it is desired to fix Fire Hydrants around the building there will also be a good supply, with the necessary amount of pressure for use in case of fire.

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

SEWERAGE DISPOSAL.

SEWER PIPE & SEPTIC TANK.

The disposal of sewage and other wastes can be suitably conducted by means of a six inch C.I. sewer pipe to a Septic Tank of the design shown on drawings 7, 8 & 9.

It is proposed to locate this Tank under a depth of eight feet of earth as a guard against frost, with two manholes from the the surface down, and a concrete manhole at a distance of 400 feet from the point of commencement as shown on the Profile.

DETAILS OF TANK & TREATMENT.

The sewage can be made to enter the settling chamber at a grade of 2.0%, which gives a satisfactory velocity into the tank. With this grade the pipe will be self cleansing and will not require flushing.

The sewage passes under a "baffle wall" before flowing into a second settling pocket in which it comes in contact with air and water before overflowing on to the gravel filter. The baffle wall, and the positions of the two outlets from the first chamber in relation to its inlet, ensures, when in action, a slow and steady movement of the sewage during preliminary sedimentation, and prevents splashing.

The air is excluded from this chamber when in action. Some of the industrious bacteria must live in water with a minimum amount of air, and have quiet surroundings.

The sewage now enters the second chamber with a lake-pocket for the further pleasure of the anaerobic or sea-going bugs before overflowing on the screened gravel filter.

A continual supply of fresh air enters and leaves this chamber

Indian Affairs. School Files.
(RG 10, Volume 6357, File 757-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

through the vents as shown in sectional elevation, Drawing No.8. The fresh air, and water contained in the above mentioned pocket, supplies the necessary aerobic bacteria.

When the now partly purified sewage has risen 4 feet, it runs around the concrete four inch projection shown on plan and in section, which is designed to enable the sewage to overflow on to the filter from all sides.

OUTLET AND DISPOSAL.

After filtration through a bed of four feet of screened gravel, the sewage runs through the six inch outlet at a grade of .10% and discharges into the trenches, where it seeps away through the gravel.

ALTERNATIVE.

An alternative method would be to build a Cesspool of brick set in cement mortar with open joints. As, however, the use of trenches enables the liquid to be actually seen and better investigated should any defect appear throughout the system, and it cannot be definitely assumed, at present, that the nature of the sub-soil, at that depth, would facilitate a filtering disposal of the liquid, I have in the present case projected a series of trenches on the Plan for this purpose.

SLUDGE BED.

The sludge from the Tank is emptied through the manholes on the Sludge Bed where shown on the Plan, and the amount is not great. From one to two cubic yards per million gallons of sewage

IN YOUR REPLY REFER TO
No. 2
ALSO
TO DATE OF THIS LETTER.

457094

Sir,-

With reference to the Department's letter of the 14th. inst., Nod. 117963-5, in connection with Mr. L.G. Casewell's report on the Morley School.

I have the honor to enclose herewith Report of Mr. L.G. Casewell on Water Supply and Sewerage System for the Morley School, also Forms of Tender for same, Contractors Instructions, General Conditions and Specifications, also Expenses Account in detail. With regard to the expense account, I would wish to say that the time and attention which Mr. Casewell gave to his work justifies, I think, his charges.

The Blue Prints I am forwarding under separate cover.

I have the honor to be, Sir,

Your obedient servant,

Indian Agent,

DEPT. OF INTERIOR

18th October, 1916.

To The Deputy Minister of the Interior.

Ottawa, Ont.

Dear Sir:

Would you kindly inform me as to whether the land and premises known as the McDougall Orphanage at Morley, Alberta, can be obtained under lease from the Government or whether it is already occupied.

If this land is open for lease, I am in a position to submit an offer for same, the idea being to construct a first-class fence and run sheep on the property.

Should this subject lie out of your district, I would consider it a very great favor if you would refer me to the proper Department.

Thanking you in anticipation of a reply at an early date, I am

Yours faithfully,

Hugh Ramsay

Dear Mr. Scott,-

x

x

x

The Board is agreeable to giving up the site at Red Deer and the ranch at Morley towards helping the scheme financially. Of course it is understood in doing so that the interests of our educational work at Morley shall stand on its own merits and that this sale of the ranch will in no way prejudice our educational interests in Southern Alberta. I hope that the Department will find the Red Deer farm may be purchased by the military authorities for work that they require in caring for our returned soldiers.

(forwarded to Dept June 26th 1919)

x

x

x

We also discussed the property at
Morley which consists of some fifteen hundred acres
of ranching land upon which the Methodist Church
erected the McDougall orphanage some thirty years
ago. There is also a building that has been used
for class room purposes. The other outbuildings
are not of much value. This land is owned by the
Government. There is also a section and three-
quarters of land in connection with the Red Deer
Institute. We proposed that both of these pro-
perties should be sold and that the Methodist Church
should receive credit for the same and the proceeds
be put into the new plant at Edmonton. Mr. Scott
assured us that this would have to meet the approval
of Parliament but that he would strongly recommend
that this be done.

John J. McGee,
Deputy Governor.

C A N A D A.

Victoria by the Grace of God of the United Kingdom
of Great Britain and Ireland, Queen, Defender of the Faith,
&C., &C., &C.

To all to whom these presents shall come--- GREETING:

WHEREAS the lands hereinafter described are
Dominion Lands within the meaning of "The Dominion Lands Act."

AND WHEREAS our Governor in Council under and by
virtue of powers vested in him in and by the said Act hath
authorized a grant of the said lands to the Methodist Church,
a body corporate and politic, in the terms embodied in these
presents.

NOW KNOW YE, that by these presents We do grant,
convey and assure unto the said The Methodist Church, its
successors and assigns All and Singular that parcel or tract
of land, situate, lying and being in the Morleyville Settle-
ment, in the Provisional District of Alberta, in the North
West Territories, in Our Dominion of Canada, and being
composed of Lot numbered Eight, in the Morleyville Settle-
ment aforesaid, as shewn upon a map or plan of survey of the
said Settlement, dated at Ottawa, the 11th day of January,
A. D. 1892, approved and confirmed by Edouard Deville,
Surveyor General of Dominion Lands, and of record in the
Department of the Interior, containing by admeasurement
Eleven hundred and seventy-six acres, more or less; Saving
and Reserving, nevertheless, unto Ur, Our successors and
assigns, the free uses passage and enjoyment of, in, over
and upon all navigable waters that now are or may be here-
after found on or under or flowing through or upon any part
of the said parcel or tract of land; and also reserving
thereout

Memo.

The Deputy Minister,-

In regard to the question of disposition of the McDougall Orphanage property at Morley, I beg to submit the following statement in connection therewith.

On the 28th of November, 1894, Letters Patent were issued by the Department of the Interior to the Methodist Church its successors and assigns, for all that parcel of land situate, lying and being in the Morleyville settlement, in the district of Alberta, composed of lot No. 8, as shown on plan of survey of the said settlement, dated the 11th of January, 1892, on the condition that the Methodist Church, its successors and assigns, should hold the land so long as the same should, except in case of the consent of the Superintendent General of Indian Affairs expressly given in writing to the use thereof or of any portion thereof for other purposes, be used for the purposes of an orphanage and training school for Indian children, and for no other purpose or purposes whatsoever.

On the 7th day of November, 1902, a Certificate of Title issued out of the Land Registration District for southern Alberta, to His Majesty King Edward the Seventh, for that portion of lot 7 in the settlement of Morleyville which lies to the north and west of a certain surveyed trail through said lot called the Calgary and Morley trail, as shown on plan of the said settlement. This land was paid
for

(RG 10, Volume 6357, File 757-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

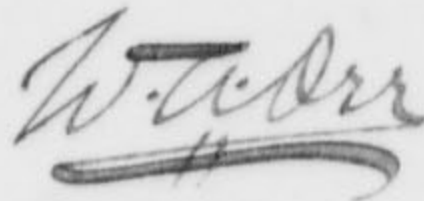

for out of school vote, under an exchange arranged with the Department of the Interior.

On the 5th of September, 1919, File 24833^{Red}, the Rev. Mr. Ferrier was advised that Mr. Wellman had forwarded the rental for this property for next year, and that the same had been accepted. It was also stated that consideration of disposition of the property could not definitely be undertaken until it was decided what was to be done, and that in any event, Mr. Wellman would be protected during the year.

On the 30th of November, 1919, Mr. F. Fletcher, Secretary-Treasurer of the Morley School District, was advised that the Department would have no objection to the Morley School District using the old school-house known as the McDougall Orphanage property, free of charge, the arrangement, however, to be subject to the land being sold at any time, File 116,963/1.

In view of the tenure of the above land, it does not appear that this Department would be in a position to give a grant thereof in case of sale. Even if a release were obtained from the Methodist Church, it would appear that the Grant should issue from the Interior Department, as the property could not be considered as Indian lands.

Attached hereto is a plan showing the properties in question, also copy of Certificate of Title and of Letters Patent referred to.

Officer in Charge.

and 24833

Ottawa, December 23, 1919.

His Excellency

The Governor General in Council.

The undersigned begs to report that, for the purposes of an orphanage and training school for Indian children, letters patent were issued by the Department of the Interior on the 28th day of November, 1894, to the Methodist Church, covering lot No. 8 in the Morleyville Settlement, in the provisional district of Alberta, in the North-West Territories, the description of the property and the conditions on which the letters patent were issued being as follows:- "Now know ye that by these presents we do grant, convey and assure unto the said The Methodist Church, its successors and assigns, all and singular that parcel or tract of land, situate, lying and being in the Morleyville Settlement, in the provisional district of Alberta, in the North-West Territories, in our Dominion of Canada, and being composed of lot No. 8, at the Morleyville Settlement aforesaid, as shown upon a map or plan of survey of the said settlement, dated at Ottawa, the eleventh day of January, A.D. 1892, approved and confirmed by Edouard Deville, Surveyor-General of Dominion Lands, and of record in the Department of the Interior, containing by admeasurement eleven hundred and seventy-six acres, more or less; saving and reserving, nevertheless, unto us, our successors and assigns, the free use, passage and enjoyment of, in, over and upon all navigable waters that now are or may be hereafter found on or under or flowing through or upon any part of the said parcel or tract of land; and also reserving thereout and therefrom all rights of fishery and fishing, and occupation in connection therewith, upon, around and adjacent to

said

said lands, and also the privilege of landing from and mooring boats and vessels upon any part of the said lands, and using the said lands in connection with the rights of fishery and fishing hereby reserved, as far as may be reasonably necessary to the exercise of such rights, also excepting and reserving thereout the public surveyed road one chain in width crossing the same.

"To have and to hold the said parcel or tract of land unto the said The Methodist Church, its successors and assigns, so long as the same shall, except in case of the consent of our Superintendent General of Indian Affairs expressly given in writing, to the use thereof, or of any portion thereof, for other purposes, be used for the purposes of an orphanage and training school for Indian children, and for no other purpose or purposes whatsoever."

In addition to the above mentioned 1176 acres, and for the same purposes, the Department of Indian Affairs acquired from Frank Ricks that portion - containing 262 acres - of lot No. 7 in the Morleyville Settlement, which lies to the north and west of a certain surveyed trail through said lot 7 called the Calgary and Morley trail, and covering which said portion of lot 7 the Department of Indian Affairs holds certificate of title from the South Alberta Land Registration District to His Majesty King Edward VII; in exchange for which portion of lot 7 Mr. Ricks was given by the Department of the Interior the north half of lot 18 and the north half of lot 20, township 25, range 5, west of the fifth meridian, for which the Department of the Interior was paid by the Department of Indian Affairs the sum of \$960.00 from the Parliamentary Appropriation for Indian Education.

In view of the fact that the said lot 8 and portion of lot 7 above referred to are no longer used for the purposes of an orphanage and training school for Indian children, the undersigned would recommend that the same be herewith relinquished by the Department of Indian Affairs to the Department of the Interior.

In the report to Council herewith it is recommended that lot 8 and part of lot 7 in the Morleyville Settlement, Alberta, - which were originally Dominion lands but were obtained for use by the Department of Indian Affairs and the Methodist Church for the purposes of an orphanage and training school for Indian children and for no other purpose or purposes whatsoever - be now relinquished to the Interior Department, as the property has ceased to be used for the purposes for which it was obtained.

Lot 8 was obtained by letters patent on the conditions above mentioned, and the portion of lot 7 referred to was acquired for the same purposes as lot 8. The property has not been used for the purposes referred to for several years and it would appear that the same should revert to the Interior Department. As the buildings have been in disuse since the school closed on the 10th November, 1908, they are now practically valueless.

The Department has decided to close the Industrial school at Red Deer, and to re-establish the institution at Edmonton. It is proposed to dispose of two school properties in Alberta, the one at Morley and the other at Red Deer. As these properties were secured for educational purposes, it is proposed to consider the avails of their sale as an offset against the expenditure at Edmonton, although we cannot use the actual money received in payment for the properties.

The attached memorandum to His Excellency in Council deals with the sale of the Morley property.

In the report to Council herewith it is recommended that lot 8 and part of lot 7 in the Morleyville Settlement, Alberta - which were originally Dominion lands but, were obtained for use by the Department of Indian Affairs and the Methodist Church for the purposes of an orphanage and training school for Indian children and for no other purpose or purposes whatsoever - be now relinquished to the Interior Department, as the property has ceased to be used for the purposes for which it was obtained.

Lot 8 was obtained by letters patent on the conditions above mentioned, and the portion of lot 7 referred to was acquired for the same purposes as lot 8. The properties ~~has~~ not been used for the purposes referred to for several years, and it would appear that the same should revert to the Interior Department. DEPUTY SUPERINTENDENT GENERAL
OTTAWA

January 3rd. 1920.

MEMORANDUM

Hon. Mr. Meighen -

In further explanation of Memorandum to Council of the 23rd. ultimo I beg give my reasons for handing over the whole property, including ^{the} Lot 7, to the Department of the Interior. This Department paid from Parliamentary appropriation for part of Lot 7, but when the lot is sold the money will go back into the Treasury and this Department will receive no benefit from it. The title of the lot is in His Majesty the King, not in the right of the Superintendent General of Indian Affairs. As the properties adjoin one another I think that they should be sold by the one Department, and we have been in the habit of handing over such property to the Department of the Interior for sale.

Deputy Superintendent General.

Certified copy of a Report of the Committee of the Privy Council, approved by His Excellency the Governor General on the 14TH JANUARY 1920

531505

The Committee of the Privy Council have had before them a report, dated 23rd December, 1919, from the Superintendent General of Indian Affairs, submitting that, for the purposes of an orphanage and training school for Indian children, letters patent were issued by the Department of the Interior on the 28th day of November, 1894, to the Methodist Church, covering lot No.8 in the Morleyville Settlement, in the provisional district of Alberta, in the Northwest Territories, the description of the property and the conditions on which the letters patent were issued being as follows:-

"Now know ye that by these presents we do grant, convey and assure unto the said The Methodist Church, its successors and assigns, all and singular that parcel or tract of land, situate, lying and being in the Morleyville Settlement, in the provisional district of Alberta, in the North-West Territories, in Our Dominion of Canada, and being composed of lot No.8, at the Morleyville Settlement aforesaid, as shown upon a map or plan of survey of the said settlement, dated at Ottawa, the eleventh day of January, A.D.1892, approved and confirmed by Edouard Deville, Surveyor-General of Dominion Lands, and of record in the Department of the Interior, containing by admeasurement eleven hundred and seventy-six acres, more or less; saving and reserving, nevertheless, unto us, our successors and assigns, the free uses, passage and enjoyment of, in, over and upon all navigable waters that now are or may be hereafter found on or under or flowing through or upon any part of the said parcel or tract of land; and also reserving thereout and therefrom all rights of fishery and fishing, and occupation in connection therewith, upon, around and adjacent to said lands, and also the privilege of landing from and mooring boats and vessels upon any part of the said lands, and using the said lands...

The Honourable
The Superintendent General of Indian Affairs.

lands in connection with the rights of fishery and fishing hereby reserved, so far as may be reasonably necessary to the exercise of such rights, also excepting and reserving thereout the public surveyed road one chain in width crossing the same.

TO HAVE AND TO HOLD the said parcel or tract of land unto the said Methodist Church, its successors and assigns, so long as the same shall, except in the case of the consent of our Superintendent General of Indian Affairs expressly given in writing, to the use thereof, or of any portion thereof, for other purposes, be used for the purposes of an orphanage and training school for Indian children, and for no other purpose or purposes whatsoever".

The Minister observes that in addition to the above mentioned 1176 acres, and for the same purposes, the Department of Indian Affairs acquired from Frank Ricks that portion, containing 262 acres, of Lot No. 7 in the Morleyville Settlement, which lies to the north and west of a certain surveyed trail through said lot 7 called the Calgary and Morley trail, and covering which said portion of lot 7 the Department of Indian Affairs holds certificate of title from the South Alberta Land Registration District to His Majesty King Edward VII; in exchange for which portion of Lot 7 Mr. Ricks was given by the Department of the Interior the north half of lot 18 and the north half of lot 20, township 25, range 5, west of the fifth meridian, for which the Department of the Interior was paid by the Department of Indian Affairs the sum of \$960 from the Parliamentary Appropriation for Indian Education.

In view of the fact that the said lot 8 and portion of lot 7 above referred to are no longer used for the purposes of an orphanage and training school for Indian Children, the Minister recommends that the same be herewith relinquished by the Department of Indian Affairs to the Department of the Interior.

The Committee concur in the foregoing recommendation, and submit the same for approval.

Arthur Meade
Clerk of the Privy Council.

Ottawa, January 21, 1920.

Sir,-

With reference to Order in Council of the 14th instant relinquishing, by the Department of Indian Affairs to the Department of the Interior, the lands set apart by letters patent, which were issued by your Department on the 28th of November, 1894, to the Methodist Church, covering Lot No. 8 in the Morleyville Settlement, Alberta, for the purposes of an orphanage and training school for Indian children, and part of Lot No. 7 also in the Morleyville Settlement, I beg to inform you that F. L. Wellman of Morley has, subject to a verbal agreement with the authorities of the Methodist Church, a lease of this land up to the 31st of October, 1920, for which he has paid an annual rental to this Department of \$500.00. The Methodist Church authorities were informed that any disposition of the property would be subject to the lease to Mr. Wellman, and that he would be protected during the term of the same.

Mr. Wellman is being informed that this land has now been relinquished to your Department.

Your obedient servant,

Asst. Deputy and Secretary.

Sir,-

I beg to inform you that, by Order in Council of the 14th instant, this Department has transferred the land in connection with the McDougall Orphanage property to the Department of the Interior.

The Interior Department is being informed that this transfer is subject to the terms of the lease made by you with the authorities of the Methodist Church and which will expire on the 31st of October, 1920. It might be well for you to communicate with the Secretary, Department of the Interior, Ottawa, should you desire to purchase this land, or in any other respect concerning the matter.

Your obedient servant,

Asst. Deputy and Secretary.

COMMISSIONER'S OFFICE,

IN YOUR REPLY REFER TO

NO. 8-12

ALSO TO DATE OF THIS LETTER

B.

REGINA, SASK. Feb. 12, 1920.

Dear Mr. Scott,-

In reference to the school property known as the "McDougall Orphanage", and which consists of a considerable area of land, a good portion of which is good hay meadow, upon the Stony Indian Reserve.

I shall be glad to learn if this land is leased at the present time, and if so, at what date the lease expires.

Owing to the impoverished condition of the range at the Peigan Reserve, it may be found necessary to retain a large portion of the Peigan cattle already at Morley, on the Stony Reserve, and in discussing the matter with Agent Yeomans he has drawn this matter of the Orphanage land to my attention.

This property could be made use of to advantage, in connection with the handling of Peigan or Blood cattle at the Stony Reserve this coming Spring, as there is said to be good pasturage and under ordinary conditions a quantity of hay can also be put up.

I am informed that this place is now vacant, and that it has not been used for some time.

I shall be glad to hear from you in this connection.

Yours truly,

For Commissioner.

D.C. Scott, Esq.,
Deputy Supt. General of Indian Affairs,

Sirs:

536503
I had some correspondence with your department last year relative to the disposal of the land comprising of some fifteen hundred acres and known as the MacDougall Indian Orphanage at Morley. Is there any way I could secure the right to dispose of this property? I have a client who is anxious to secure same and as the land has been practically idle for some years, it occurred to me that perhaps I could obtain the privilege of making a sale of this property.

Yours very truly,

E. Hunter

Ottawa, May 3, 1920.

Dear Mr. Scott,

I have received a letter from Mr. Geo. E. Hunter of 224 8th Avenue West, Calgary, who carried on a real estate and insurance business at that place. Mr. Hunter was for some years employed in the office of the Rocky Mountain Park at Banff and was later for a short time Superintendent of the Yoho Park at Field. He asks whether there is any way in which he could obtain the privilege of disposing of the old McDougall Orphanage, which he states comprises some 1500 acres of land north of the C.P.R. and east of Morley Station. He states that this property has not been used by the Indian Department for several years but has been leased to ranchers in that district, and if there is any intention of disposing of the property he would like to have an opportunity of handling the business and trying to negotiate a sale. Of course I suppose on the usual terms on which real estate men handle business of this kind. Mr. Hunter is a man of good character and considerable energy and ability and I am satisfied that he could be depended on to handle honestly and satisfactorily any business that might be given to him. I would be much obliged if you would let me know whether there is any possibility of his being considered in connection with a transaction such as he refers to.

Yours faithfully,

D. C. Scott, Esq.,
Deputy Superintendent General
of Indian Affairs,

Re Lot 8 and part of Lot 7,
Morleyville Settlement.

In reply to your letter of the 6th ultimo, requesting that Morley School District No. 172 be given permission to occupy the school house on the land known as the McDougall Orphanage property in Morleyville Settlement, I beg to say that your request is receiving consideration, and you will be further advised in due course.

I may say that this letter should not be taken as being any assurance that the permission asked for will be granted as it has not yet been decided what disposal is to be made of these lands by this Department.

Your obedient servant,

Controller.

Frank Fletcher, Esq.,
Secretary Treasurer,
Morley School District No. 172,
Morley,
Alberta.

Ottawa, 5th May, 1920.

Sir:
Re Lot 8 and part of Lot 7,
Morleyville Settlement.

I beg to enclose copy of a letter, dated 6th ultimo received from the Secretary Treasurer of Morley School District No. 172, together with copy of my reply thereto of today's date, which communications explain themselves.

Will you be good enough to advise the Department with regard to the school house in question, stating the exact position of the building and giving any other information concerning the same which may be of value to this Department in dealing with the request of the School District. If in a position to do so, I would be glad if you would furnish a tracing or blue print showing the location of the school house, as well as any other buildings which may be on the lands in question.

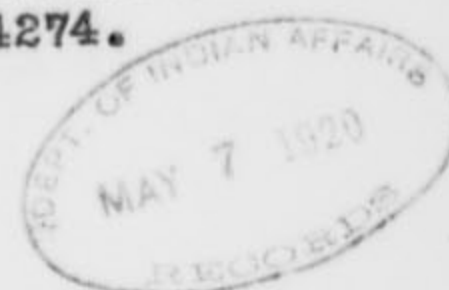

In this connection, please see your file No. 116963/22.

Ottawa, 5th May, 1920.

536963

Sir:

Adverting to your letter of the 21st of January last, file 116963/22 and to the Order in Council of the 14th idem respecting the relinquishment by your Department to the Department of the Interior of Lot 8 comprising 1176 acres and the portion of Lot 7 lying north of surveyed trail comprising 262 acres in Morleyville Settlement, I beg to say that it is considered under the circumstances that the titles to these lands should be transferred to this Department. Will you be good enough, therefore, to transmit these titles in order that this Department may be in a position to deal with the parcels as ordinary Dominion lands. It is presumed, in view of the action taken by your Department, that you hold Duplicate Certificate of Title showing Lot 8 to be vested in His Majesty King Edward VII or in His Majesty King Edward VII in the Right of Canada. It is observed from the Order in Council that you hold such Certificate of Title with respect to the said portion of Lot 7.

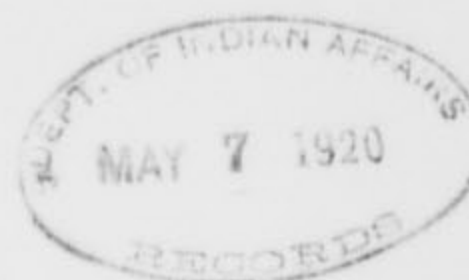

With reference to your statement that the Methodist Church authorities were informed that any disposition of the property in question would be subject to Mr. F.L. Wellman's lease, I might mention that Mr. Donald Cameron of Morley, recently advised this Department that he had purchased Mr. Wellman's right to this land. I might also mention incidentally that according to a letter received in March last from an applicant to acquire these lands, Mr. Wellman died a short time ago.

Your obedient servant,

A. O. Cote

Rev. T. Ferrier
Superintendent of Methodist
Indian Schools and Hospitals, Canada

637083

Brandon, May 3rd, 1920.
Man.

mm
Mr. Duncan C. Scott,
Deputy Superintendent General,
Department of Indian Affairs,
Ottawa, Canada.

Dear Mr. Scott,-

There is a school building on the Morley property that has been used for the class-room work. This is not the orphanage building proper but is situated a short distance behind the main building. Some time ago permission was given to the school section to hold classes there. It appears that this is not the wish of the inspector not the Department of Education. I will give you a quotation from a letter received to-day:

"This has been a matter of embarrassment and annoyance to the school inspector and to the Department of Education, who are of the opinion that the school is being held in a much better place. The inspector told me he would feel much relieved if he should hear that the building had been sold for old lumber."

We have an offer of \$150.00 for the building. The man would move it off and use it as a stable. I do not know whether the Church or the Government furnished the money to build this building. The orphanage building was built by the Church. I presume that the Church put up the money for the other building, but of this I am not sure. I think it better to sell the building and the money can be placed where it belongs. I would like your advice on the matter.

Yours sincerely,

T. Ferrier

Industrial School, Brandon.

Memo.

Mr. *Torr*,

In order to complete the transfer of the title of Lot 8, as referred to in Mr. Cote's letter of the 5th ultimo, hereunder, to the Department of the Interior it will be necessary to secure from the Methodist Church a conveyance of the said lot to His Majesty King George V. in the right of Canada. This conveyance might be dated prior to the date of the Order in Council of the 14th January, 1920. No further action is necessary in respect of the part of lot 7.

Sir:

Re Lot 8 and part of Lot 7,
Morleyville Settlement.

Referring to Mr. Orr's letter of the 14th instant, file No. 116963, I beg to say that your statement that the Certificate of Title issued to His Majesty King Edward VII covering portion of lot 7 was transferred sometime ago to the Archives, has been noted.

It would appear that my letter of the 5th of May last in so far as it concerned lot 8 was misunderstood. This Department does not require the Certificate of Title issued to the Methodist Church which, as Mr. Orr points out, is not in the possession of your Department. What is required is Certificate of Title vesting this lot in His Majesty in the Right of Canada. It is thought that your Department would scarcely have taken the action which it did in relinquishing this land to this Department by Order in Council unless title thereto had previously been vested in His Majesty.

I beg to request that you be good enough to let this Department have a reply in this matter at as early a date as possible.

Your obedient servant,

J.D. McLean, Esq.,
Assistant Deputy and Secretary,
Department of Indian Affairs,
OTTAWA.

Memo.

Mr. [Signature]

With reference to Rev. Arthur Barner's letter hereunder stating that it is not understood exactly what kind of a conveyance is required in Departmental letter of the 16th June last, and asking for the form of the conveyance required, I beg to say that the Methodist Church apparently holds a certificate of title for the lands in question issued by the Land Titles Office Calgary. The conveyance, which is required, is a Transfer according to the form prescribed by the Lands Titles Act of the Province, Chapter 24 Public Statutes Alberta, Office Consolidation 1915, being Form J in the Schedule of the said Act. The Transfer should be made by the Officers of the Church having the authority to make the transfer to "His Majesty King George V in the Right of Canada", and the transfer should be dated prior to the date of the Order in Council of the 14th January, 1920, purporting to convey the land in question from the Department of Indian Affairs to the Department of the Interior.

This transfer properly executed should be forwarded to this Department with the certificate of title now held by the Church. Accompanying this transfer also there should be a declaration by some officer of the Church competent to make it, setting forth the fact that the officers who execute this transfer are the duly authorized persons to make such transfer.

I am unable to prepare the document because I am not in possession of the necessary information.

Dear Mr. Scott:-

On the land that was used at
Morley for ranching purposes in connection with
our boarding school there, we have a building put
up by the Methodist Church. This is the main
building known as the orphanage. We are arranging
to pull down our present Mission House, Church and
outbuildings and move them further west. I would
like the consent of the Department for the taking
down of this orphanage building and using what
material may be available in assisting in putting
up our new plant. This consent will be appreciated.

Yours sincerely,

Sir: Re Lot 8 and portion of Lot 7, Morleyville
Settlement.

Referring to your letter of the 19th ultimo, file 119-1-9, on the subject of the Orphanage building erected by the Methodist Church on the above mentioned property, I beg to advise you that it is considered that the request made by the Reverend Mr. Ferrier, Principal of the Brandon Industrial School, regarding the taking down of this building is a matter which should be dealt with entirely by this Department in view of the fact that the property in this case was relinquished in January last by your Department to this Department. If you concur in this view and transmit Reverend Mr. Ferrier's letter to this Department the matter will be given prompt attention.

I may say that the Morleyville School District No. 172 was given permission in August last to temporarily utilize the McDougall Orphanage School House on lot 8, together with three acres of land immediately surrounding the building.

Your obedient servant,

W.A. Orr, Esq.,

Sir: Re Lot 8, Morleyville Settlement.

Referring to your letter of the 9th ultimo, file 119-1-9, enclosing copy of the Reverend Mr. T. Ferrier's letter in which he asks permission to take down the Orphanage building on the above mentioned property, I beg to request you to be good enough to advise this Department, if in a position to do so, whether this building was constructed at the expense of the Dominion Government or whether the Methodist Church paid for the building.

I may say that in the year 1894, the then Deputy Superintendent General of Indian Affairs advised this Department that in 1890 a new building had been erected by the Government at a cost of \$6000.00. Is the building here referred to that commonly known as the Orphanage building? In this connection please refer to the memorandum which was furnished this Department by your Department under cover of letter dated the 3rd of March, 1894, file 30698.

Your obedient servant,

N. O. Côté

Controller.

Sir: Re Lot 8 Morleyville Settlement.

Referring to your letter of the 29th ultimo, file 119-1-9, stating that the sum of \$6,000.00 was expended by your Department on the Orphanage building on the above mentioned property, I beg to inquire whether in view of this expenditure your Department would have any objection to offer to the request which has been made by Reverend T. Ferrier for permission to utilize the material in this building being granted. At the same time will you kindly state if you are aware of any reason why an application which has been received by this Department from the Secretary Treasurer of Morley School District No. 172 to purchase the school house on Lot 8 should not be favourably entertained.

Will you kindly advise the Department in this matter at your earliest convenience.

R.S. Alberta 1915*

Sir: Re part Lot 7, Morleyville Settlement, Alberta.

The enclosed copy of letter dated the 30th ultimo from the Deputy Minister, Public Archives of Canada, explains itself. Since this Duplicate Certificate of Title was deposited in the Public Archives by your Department it is thought that were you to explain to Dr. Doughty the nature of this document as well as the circumstances under which it was transferred to the Archives he would see the necessity of releasing the same to this Department. As you are aware this Certificate of Title is not an historic document but rather a document of a negotiable character.

Encl.

Please refer in this connection to Mr. Orr's letter addressed to me bearing date the 14th July, 1920, file 116963.

119-1-9.

Ottawa, May 12, 1921.

Sir,-

Some time ago, in transfer of old records from this Department to the Archives, there was included a Certificate of Title from the South Alberta Land Registration District to His Majesty King Edward the Seventh, of portion of lot 7 in the Morleyville Settlement, for Industrial School purposes.

As subsequently it was found that this land was not desired for the purpose for which it was acquired, it was decided to re-convey the property to the Department of the Interior, which was done under Order of His Excellency in Council of the 14th of January, 1920.

In connection with request made by the Department of the Interior for return of this Certificate of Title, I would call attention to the fact that under section 51, Chapter 24, Revised Statutes of Alberta, of 1915, it ~~was~~ is necessary for Certificates of Title to be returned for cancellation upon re-issue of title to a transferee.

It is, therefore, hoped that in view of the requirements of the Alberta law, you may see your way clear to accede to the request of the Department of the Interior for a return of this Certificate of Title.

Your obedient servant,

Assistant Deputy & Secretary.

Dear Sir,

Lot 8
Lot 7 & 8

Referring to your inquiry over the telephone yesterday regarding lands on the Stony Reserve formerly utilized in connection with the McDougall Orphanage, an institution for the training of Indian children, I beg to say that when this school was closed the land in connection therewith reverted to the Department of the Interior from which it was originally obtained. This action was taken by Order in Council of January 14th. 1920. The land consists of lot No. 8 in the Morleyville settlement, and a portion of lot No. 7, containing 262 acres.

I would suggest, therefore, that if you wish to make further inquiry you communicate with Mr. W. W. Cory, Deputy Minister of the Interior.

W. W. Cory

C O P Y

Orig. on 119-1-15.

Ottawa, March 14, 1925.

Sir:

I am directed to acknowledge your No. 409-11A of the 6th instant, with reference to the proposed buildings for a residential school at Morley. I note that you will prepare a rough sketch and forward it to the Department in due course. With reference to the water supply, I have to inform you that the Department had Mr. L. G. Casewell, C. E., of 33 Lineham Block, Calgary, make a report in 1914. He found four springs - marked with a red dot on the enclosed plan - which were quite close to the site that was proposed for the new buildings at that time. Concerning these four springs, the engineer reports in part as follows: "They are inadequate in their supply, with one exception. They dry up at intervals during the summer or seep away through the gravelly formation. The necessary amount of 'head' could not be acquired by adopting these springs. A pumping engine would have to be used and the supply of water would be insufficient, taking into consideration that sixty per cent goes to waste and cannot be re-used, to warrant the use of a hydraulic ram."

The engineer refers to three of these four springs as having a flow of 135, 115 and 32 gallons per hour at certain seasons. I believe the site to which he refers is one selected by Mr. Inspector Markle in 1914, which is a few hundred feet distant and considerably higher than one suggested by Rev. T. Ferrier, Superintendent of Methodist Indian Schools and Hospitals.

The engineer reports at some length concerning the advisability of securing a water supply from a large spring, situated 6000 feet southwest of the proposed site and marked with a red cross on the enclosure. This spring apparently yields excellent water and at that time had a flow of 135 gallons per hour. The engineer recommended that this spring

Esq.,
Commissioner,
Regina, Sask.

- be utilized -

Indian Affairs, School Files.
(RG 10, Volume 6357, File 757-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

- 2 -

be utilized for the school and that a reservoir and dam be built and a pipe-line laid. The cost of this scheme was estimated at approximately \$3400. The engineer drew plans in this connection and also prepared specifications for a sewerage disposal system the cost of which was estimated to be \$1285.50.

As it was decided in August 1914 not to proceed with the erection of a school, no further action was taken in connection with the water supply or disposal systems.

I wish to add that there is a possibility of securing a supply of water from the C. P. R., who own and operate, I believe, a pump at the Bow River and have a large tank at Morley station. It might be advisable in the interest of economy to approach the railway company with a view to having them supply the water for the proposed new residential school.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

Rev. T. Ferrier

INSPECTOR OF INDIAN SCHOOLS
AND HOSPITALS

United Church

Brandon, Manitoba

119-1-9

Brandon Industrial School,
May 9th, 1928.

Mr. Russell T. Ferrier, M. A.
Superintendent of Indian Education,
Department of Indian Affairs,
Ottawa, Ontario.

Dear Sir,-

Some years ago when the McDougall Orphanage was in operation at Morley there were about 1,500 acres of land which we used for pasture and we continued to use the same until we disposed of all our herd of cattle when the church gave up the right of occupancy. Since then this land has been leased to another, but I believe the lease expires in about a year.

We are now needing it for pasture in connection with the Morley Indian Residential School. The land in question is known as "Lots 7 and 8, Morleyville Settlement, Morley, P. C., Alberta." You will remember we discussed this matter in the Land Office Department when I was in Ottawa a short time ago. Would you kindly secure this for the Indian Department and thus be able to give the United Church the privilege of using it for pasture.

Yours sincerely,

GRD

Ottawa, May 25, 1928.

Sir:

I have to inform you that the Inspector of United Church Indian Schools has requested that I apply to the Department of the Interior for lots 7 and 8, Morleyville Settlement, for pasture purposes for the use of the Indian residential school. Lot 8 and a portion of lot 7 were formerly used for pasture by the McDougall Orphanage but were relinquished by the Department of Indian Affairs to the Department of the Interior in January 1920, when the land was no longer required for school purposes. Please let me have a recommendation concerning this request.

I find that our file is incomplete with reference to the land that has been set aside for the use of the Morley Indian Residential School. Will you please inform me, by description or sketch, concerning the land recognized as set apart for the use of the school.

Your obedient servant,

OFFICE OF
INDIAN AGENT

Morley, Alberta
May 29th. 1928

Sir,

In reply to your letter file 119-1-9, dated 25th. instant, regarding the application for lots 7 & 8 Morleyville settlement, for pasture for school, I beg to inform you that this land would be absolutely useless for that purpose as it is eight miles east of the school and the stock would have to make a round trip of sixteen miles per day from and to school, which is ridiculous to think of. There are four horses and eight cows at the school and they have about 110 acres of pasture fenced around the buildings, four acres loaned by this office opposite the Agency and east of the bridge at Morley, about 100 acres east of that again (Mission property), and about 80 acres (Mission property) north of the Banff trail at east end of reserve, so I think that they have plenty of pasture for the stock carried.

They may want it for some other purpose, but it is too far away from the school for a pasture. //

Your obedient servant,

Indian Agent

File - 119-1-9 (R.2)

OTTAWA, March 20th, 1947.

MEMORANDUM:

W.M. Cory, Esq.,
Departmental Solicitor.

I am enclosing herewith three volumes of Lands, Parks and Forests Branch file No. 64274 and two volumes of the same Branch file No. 156236 which were forwarded to this Branch with the advice that the Deputy Minister of Lands and Mines, Edmonton has requested that the said files be forwarded to him. Mr. Gibson has advised that if the files are forwarded to Edmonton he intends to retain all papers subsequent to the transfer of the natural resources but has asked whether we have any objection to turning over the files to Edmonton.

As you will note, various lands in the Morleyville Settlement passed to the Province of Alberta on the transfer of the natural resources but two lots Nos. 7 and 8 have been claimed by this Department to have not passed with the others and there is considerable correspondence on file with regard to the status of these lots. A great deal of the correspondence with reference to Lots 7 and 8 is subsequent to the transfer of the natural resources and will, therefore, not be forwarded to Edmonton but we are concerned whether there is anything on these files prior to the transfer aforesaid which might prejudice our claim to these lots or to any other rights the Department might have in the Morleyville Settlement and before answering Mr. Gibson's enquiry it is thought advisable that you should peruse the files with a view to advising us whether there is any objection to the correspondence prior to the date of transfer being forwarded to Edmonton and if there is objection what papers should be removed from the files before transfer is made.

Encls.

DEPARTMENT OF THE INTERIOR

Dominion Lands Administration.

5th December, 1929.

MEMORANDUM:

Mr. Spence.

The lands described in Duplicate Certificates of Title Nos. 32V22 and 32V58, Interior Nos. 905 and 919, comprising part Lot 7, Morleyville 89B, and Lot 8, Morleyville 89, are administered under the provisions of the Public Lands Act by this Division and are not properties that will go to the Province of Alberta with the natural resources.

(sgd) J. Harvie,
Director,
Ordnance, Admiralty and
Public Lands Division.

The two histories of these lots, as taken from the files, are briefly set down as follows:-

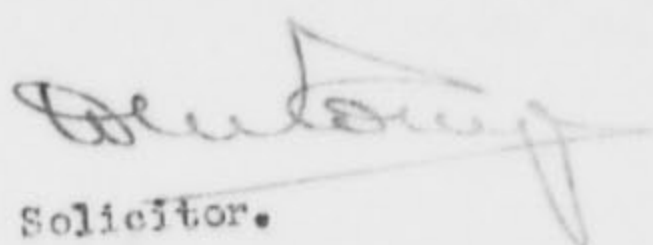

Lot 7, Morleyville, Alberta, patented by Crown (Dominion) to Frank Ricks, 7th June, 1900. Minerals were included in this patent. This lot was retransferred for which we now hold Certificate of Title 32V58. In this retransfer Ricks turned back to the Crown everything he got under the patent of the 7th June, 1900.

Lot 8, Morleyville Settlement, patented from the Crown (Dominion) to the Methodist Church on the 28th day of November, 1894. Minerals were included. Methodist Church transferred back to Crown (Dominion). There was no reservation in this transfer as to minerals, therefore, they are now back in the Crown - see Certificate of Title from Methodist Church to Crown (Dominion) 32V22, 1925.

A copy of this memorandum is being sent direct to Mr. Gibson for his information.

Appended hereto is copy of a letter which might be retained in your records. This is a memorandum, dated the 5th December, 1929. It will be noted that the statement is contained therein that part of lot 7 and lot 8, Morleyville Settlement are administered under the provisions of the Public Lands Act and are not properties that will go to the Province of Alberta with the Natural Resources. This memorandum is addressed to Mr. Spence and is signed by Mr. Harvie who was then Director, Ordnance, Admiralty and Public Lands Division of the old Department of the Interior. The Mr. Harvie signing this memorandum is the same Mr. Harvie who is now requesting the loan of the files.

The five files, above referred to, are returned herewith.

Solicitor.

GENERAL ADMINISTRATIVE OFFICES

OTTAWA 25th March, 1947.

MEMORANDUM:

Mr. Allan.

I am in receipt of your memorandum of the 20th instant, Indian Affairs Branch file 119-1-9 (R.2) together with five Lands, Parks and Forests Branch files Nos. 64274, Volumes 1, 2 and 3 and files Nos. 156236, volumes 1 and 2, together with Mr. Gibson's memorandum to Mr. Hoey of the 10th idem.

Mr. Gibson has requested that these files be examined and advised as to whether there is any objection to letting Mr. Harvie, Deputy Minister of Lands and Mines, Edmonton, have the loan of them.

As requested in your said memorandum of the 20th instant, I have examined these files and I do not find anything contained therein that might prejudice the right of the Crown (Dominion) to the two lots in question, viz., part of lot 7 and all of lot 8, Morleyville Settlement, Alberta. These two lots are held by the Crown (Dominion) by virtue of duplicate Certificates of Title Nos. 32V58 and 32V22 respectively. These Certificates were obtained from your records for examination and are returned herewith. The lots in question, by reason of the fact that the Crown had title by Certificate of Title prior to the transfer to the Province of Alberta of its Natural Resources, pursuant to the Alberta Natural Resources Agreement Act, were retained by the Dominion by virtue of Section 18 thereof which, in part, reads as follows:-

"Except as herein otherwise expressly provided, nothing in this agreement shall be interpreted as applying so as to affect or transfer to the administration of the Province (a) any lands for which Crown grants have been made and registered under the Land Titles Act of the Province and of which His Majesty the King in the right of His Dominion of Canada is, or is entitled to become the registered owner at the date upon which the agreement comes into force".

In my study of the files it was deemed advisable to determine the ownership of the minerals in these said lots and I am to advise you that the minerals underlying these lands are in the Crown (Dominion).

MEMORANDUM:

The Director
Lands, Parks and Forests Branch

I have for acknowledgment your memoranda of March 5th and March 10th with reference to lots in Worleyville Settlement.

The correspondence on the three volumes of your file No. 64274 and the two volumes of file No. 156236 has been reviewed and provided all papers subsequent to the transfer of the natural resources are removed and retained in your Branch I can see no objection to the aforesaid files being forwarded to the Department of Lands and Mines, Edmonton, Alberta.

I am returning under separate cover the five files above mentioned.

Director.

ALBERTA
DEPARTMENT OF LANDS AND FORESTS

Edmonton,
September 30th, 1949.

Dear Dr. Keenleyside:

When I was in Ottawa it was my intention to discuss with you the ownership of Lot 7, Morleyville Settlement, north of the roadway and the whole of Lot 8 in the same settlement.

By reason of the fact that this property was held under Certificate of Title it was retained by Canada upon the transfer of the natural resources. However, from the information we have we are of the opinion that the property should belong to the Province.

Upon a perusal of the records you will find that when acquiring the part of Lot 7 the consideration was the granting of patent to Frank Ricks for the North half of Section 18 and the North half of Section 20, Township 25, Range 5, West of the 5th Meridian and the sum of \$1.00. Furthermore, that Lot 8 had been transferred to the Methodist Church with the usual habendum clause that upon the lands ceasing to be used for the express purpose for which they were granted, namely for the purpose of an orphanage and training school for Indian children, that title would again become vested in the Crown. The land having ceased to be used or required by the Methodist Church it was transferred back to the Crown on the 14th of October, 1920, the consideration being the sum of \$1.00

At no time does it seem that the Indians were in any way entitled to these lands under the terms of treaty.

Yours very truly,

(Signed) J. Harvie,
Deputy Minister.

Dr. H.L. Keenleyside,
Deputy Minister,
Department of Natural Resources,
OTTAWA, Ontario.

Ottawa, 19 October, 1949

J. Harvie, Esq.,
Deputy Minister,
Department of Lands & Forests,
Edmonton, Alta.

Dear Mr. Harvie:

I have for acknowledgment your letter of 30th September with regard to Lot 7, Morleyville Settlement, north of the highway, and that portion of Lot 3 in the same settlement lying north of the severance line, and I regret that I am unable to agree with your contention that the properties should belong to the Province of Alberta.

You point out that the said Lots which originally had been transferred to the Methodist Church, were re-transferred to the Crown on 14th October, 1920, on the grounds that they were no longer required by the Church, but you are apparently not aware that in 1928 the authorities of the Morley Indian Residential School applied to the Department of the Interior to have the Lots made available to the said school for pasturage purposes. Such request would, in the ordinary course of events, have been granted; but at the time it was made, no action could be taken for the Lots had been leased for a term of years expiring in 1934, and were therefore not available to the residential school. However, following the expiration of the said lease, the 1928 application was again brought forward, and as the Lots were considered necessary to the operation of the residential school, they were reserved for the Indian Affairs Branch for the purposes of the said school, and have continued to be used by the school to this date. As you are undoubtedly aware, the Morley Indian Residential School, while operated by the United Church of Canada, is subsidized by the Government of Canada.

Indian Affairs. School Files.

- 2 -

While it is probable that at some future date the Lots in question will cease to be used for the purposes of the said school, I do not see that this would in any way alter the fact that as at the date of the transfer of the natural resources, the Lots were in an exempted class, and in any event, when the use of the Lots by the school comes to an end, it is our intention to add the Lots to the Stony Indian Reserve where they are urgently needed to provide additional grazing and agricultural land for that group of the Stony Band living north of the Bow River.

Under the circumstances above mentioned, I regret that it is impossible for us to recognize your claim that the Lots passed to the Province of Alberta under the terms of the Natural Resources Agreement.

Yours very truly,

H. L. KEENLEYSIDE

Deputy Minister.

119-1-10

Ottawa, January 29th, 1931.

Sir,-

Referring to that portion of your letter of the 20th instant in which you suggest the advisability of not permitting the girls of the Morley Indian Residential School to go home during the annual holidays, I have to say that it is the general policy of the Department to allow the pupils whose homes are within a reasonable distance of the school leave of absence for holidays and it is thought that it would be inadvisable to make exception in this case as the parents would, no doubt, strongly protest against not having their children during the holiday period. I would point out that, when the children are at their homes, they are under the care of their parents or guardians and they must accept responsibility for the children's care and conduct while under their charge.

Your obedient servant,

Russell T. Ferrier

OFFICE OF
INDIAN AGENT

Morley, Alberta, April 20th, 1933

Sir:-

I have your letter II9-I-10 of the 15th instant, advising that the certificates of health and application forms for five pupils of the Morley Indian Residential had not been forwarded with the March quarter return.

I took this matter up with Mr. Staley, and he regrets that these were inadvertently filed by him.

I now enclose the papers in question.

Your obedient servant,

Clerk in Charge.

OFFICE OF
INDIAN AGENT

119-1-10
Morley, Alberta, Sept 5th, 1933

Sir:-

Re Adam Poucette, School Pupil, Reg., No., 19.
Stony Indian Residential School

The Parents of this pupil both died when he was a child approximately two years old and since that time his home has been with a Great Uncle, Mark Poucette. Mark is now aged and suffering with Arthritis, and wants Adam to help at home. There has always been a doubt about Adams age. You will note the School Return for Sept. 1932 gave it as 15 yrs. Rev Mr. Staley, Principal of the School informs me that he has reliable information that would suggest Adam to be in his seventeenth year: that at his admission to school, his baptism record was the proof of age, and evidently he was one year of age when baptised.

Mark Poucette is a good provider, and very much attached to this boy, and I would recommend that permission be granted to discharge this pupil from school.

Yours truly,

W. B. Murray

Indian Agent.

The Secretary,
Department of Indian Affairs,

Re 119-1-10, Jan 10/34

Dear Sir,

In reply to yours of above date we
pupils 012, 033, 034 & 039 I beg to state that
all these pupils are decidedly backward as far
as actual class-room work is concerned. They had
been left far behind by pupils of the same age
and the incentive to work along with pupils much
younger was lacking.

It was my belief that they would be much
better occupied attending all the special classes we have
in cooking, sewing and various other specialities apart
from the ordinary class-room work. Accordingly their
time was spent in this way with I think profit
to themselves.

We are endeavouring to meet cases of

REV. E. J. STALEY, PRINCIPAL

June 20th 1934
MORLEY, ALTA.

The Secretary
Dept of Indian Affairs

Dear Sir

Replying to yours of June 15th 1934
I beg to state that we expect that most of
the children on our list over sixteen years of age
will be discharged in the Fall term.

With your permission we would suggest
that we delay doing as you suggested until we see
what as the parents wishes in regard to the
return of any children this Fall of sixteen years or up.
The number in any case will be negligible.

Yours Truly
E. J. Staley

Reverend Sir,-

I beg to acknowledge the receipt of your letter of the 20th instant and note that you will report later regarding the children in the Morley Indian Residential School who are sixteen years of age or over.

Please note that, in future, the Department desires you to report specially, through the office of your local Indian Agent, when children reach sixteen years of age and you consider that they should be kept longer in the school.

Your obedient servant,

Philip Phelan.

Sir:

I beg to acknowledge receipt of the June quarter return of the Morley Indian Residential School.

The return states that Tina Wildman, No. 060, entered the school in 1933. However, this is the first time that her name has been shown on the quarterly return, and no application has been received for her admission. Please advise fully regarding this girl, and, at the same time, forward the usual application form and certificate of health.

R.

Morley, Alta, July 20th, 1934

Sir:-

I beg to acknowledge your letter 119-1-10 of the 13th instant, regarding admission of Tina Wildman, No. 060 to the Indian Residential School here.

I may say that the application form and certificate of health for this girl was enclosed with the quarterly return for June, as mentioned in your letter. Tina is the daughter of Dan Wildman, Interpreter for this Agency, and previous to her admission to the Residential School, was a day school pupil, which accounts for the fact no application for admission, or certificate of health was forwarded previously.

I trust this is the necessary information.

Your obedient servant,

W. B. Murray

Indian Agent.

The Secretary,
Department of Indian Affairs,
Ottawa, Canada.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

OFFICE OF
INDIAN AGENT

R.

119-1-10
Morley, Alta, Sept 6th, 1934

Sir:-

Mrs. Morley Beaver, a Stony Indian woman, separated from her husband, has a child (a girl) four and one half years old, to support, and wishes her placed in the Indian Residential School here.

This child appears normally bright, but is unable to speak. Physically, she is normal with the exception of a slight stenosis of the pulmonary valve, probably congenital, which does not interfere with the normal activity of the child, and I judge it is not likely to do any damage.

I beg to recommend that she be admitted, although I did not want to admit her without submitting the facts to your attention. While her mother does the best a woman can for her, she will be better fed and clothed in the school, and when she becomes old enough to go to the Glass room, she will learn to write. Otherwise she will have no means of expression. My main reason for recommending the admission is that she is normal mentally.

I beg to be advised at your earliest convenience.

Your obedient servant,

W. B. Murray

Indian Agent.

The Secretary,
Department of Indian Affairs,
Ottawa, Canada.

OFFICE OF
INDIAN AGENT

R.

Morley, Alta, Oct 6th, 1934

Sir:-

Enclosed herewith find School Returns for the quarter ended September 30th, 1934.

You will notice that in the Physical Examination forms, the children as examined appear to have considerable temperature. The explanation is that there was an epidemic of colds at the time.

On the Application for Admission, Leita Powderface, you will notice Mary Dixon's name as guardian. The Child is on Harrison Powderface's ticket. Harrison is her Step-father; but she has always been under the care of Mary Dixon, her Grandmother.

Your obedient servant,

W. B. Murray

Indian Agent.

The Secretary,
Department of Indian Affairs,
Ottawa, Canada.

Indian Affairs. School Files.

119-1-10

Ottawa, October 11th, 1934.

Sir,-

With reference to your letter of the 6th instant, I beg to say that the admission of the following children to the Morley Indian Residential School is approved:-

Lena Stevens
Ivy Lefthand
Annie Pocette
Frank Lefthand
Stanley Bear
Ruby Holloway
Elsie Dixon
David Daniels

Georgie Daniels
Susan Smalleyes
Macdonald Chiniquay
Roger Bearspaw
Horace Holloway
Leita Powderface
Florence Powderface

It is noted that the children examined had considerable temperature but that you consider this is due to the epidemic of colds.

Cecil Smalleyes is only five years of age and both his parents are stated to be living. Please let me know if there are any special reasons why this boy, who is under school age, should be placed in the Morley Residential School at the present time.

Your obedient servant,

J. D. Sutherland.
Acting Supt. of Indian Education.

Dr. W. Barr Murray,
Indian Agent,
Morley, Alta.

R.

Merley, Alta, Oct 15th, 1934

Sir:-

I beg to acknowledge your letter 199-1-10 of the 11th instant, regarding Cecil Smalleyes.

You will note by the quarterly return, that this child is entered as a day school pupil, and as his parents are in very poor circumstances, the humane thing to do was to place the child in school, where it could properly be fed and clothed. He was five years old last June and is therefore in his sixth year.

Your obedient servant,

W. B. Murray
Indian Agent.

Morley, Alta, Nov 2nd, 1934

Sir:-

I beg to acknowledge your letter 119-1-10,
of the 24th ultimo, approving of the discharge of a
number of pupils from Morley Indian Residential School.

Regarding the last paragraph of your letter,
I may say that the application form and certificate of
health for B. (Pita) Piller, No 601, was forwarded from this
office under date of Jan 2nd, 1934; your letter 119-1-10
dated Jan 2th, 1934 acknowledged receipt, and approved
of Pita's and two other children's admission.

I trust this will clear the matter satisfactorily.

Yours obedient servant,

W. B. Murray
Indian Agent.

INSPECTOR'S OFFICE

PB CALGARY, ALTA. March 23rd, 1935.

IN YOUR REPLY REFER TO
409-11B.
ALSO TO DATE OF THIS LETTER

Sir:

I beg to bring to your attention that while at Morley inspecting that Agency the matter of children attending the school came up. I have known of a great many cases where Indian children were attending school and they would be much better left out of school on account of ill health; and I have often noticed that although the general surroundings and the food were better in school, when they were allowed to go back home they would pick up in a few months. The question came up that if the Doctor finds that a child is not doing well in school, and as Medical Officer he is of the opinion that by bringing it home and getting it out into the fresh air it would do better, has he the authority to discharge the child, or would this have to be taken up with the Department? I was not sure on this point.

I have known medical men to give instructions to discharge certain children. This, of course, would only come up once in awhile. There are three girls at the Morley School at present who are T.B. bed patients and in my opinion they would do much better at home; At least no worse, as I do not suppose any of the three will live. I shall be glad to be advised on this question.

Your obedient servant,

M. Christianson

Sir:

With reference to your 409-11B of the 23rd ultimo, I beg to say that, if the medical officer reports to the Indian Agent or yourself that the physical condition of a child in a residential school is a menace to the health of the other pupils, the Department considers that discharge should be immediately granted. Of course, in all such cases, the Department should be advised at once of the reasons why the pupil has been sent home.

Ottawa, December 14, 1935.

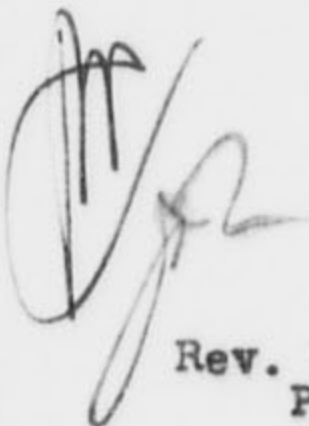

Rev. Sir:

The Department is informed that there is a girl, aged sixteen years, in the Morley Indian Residential School who is suffering from pulmonary tuberculosis. If this girl is in the school at the present time she should be discharged at once.

If the medical officer recommends that any pupil in the school be placed in hospital or sent home, owing to the pupil's physical condition, the Department expects you to carry out his instructions at once.

Yours truly,

J. D. Sutherland,
Acting Supt. of Indian Education.

Rev. E. J. Staley,
Principal,
Indian Residential School,
Morley, Alta.

Ottawa, April 15, 1937.

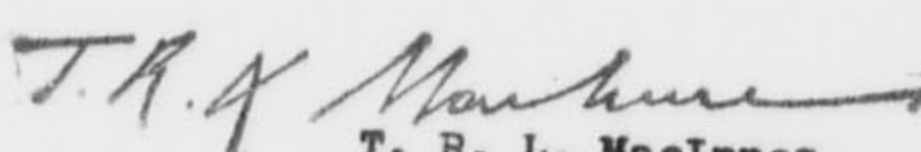

Dear Sir,-

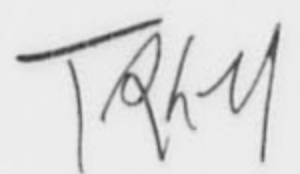

The Department is in receipt of your letter of the 6th instant, enclosing the March quarter return of the Morley Indian Residential School. Please inform the Principal that the admission of the following children is approved:-

Raymond Ear
Flora Hunter
Amos Lefthand
Freda Two Young Men
Elizabeth Two Young Men
Edith Bigstony

In view of her physical condition, the Department is not prepared to approve the admission of Mary Baptiste and she should be removed from the school at once.

Yours truly,

T. R. L. MacInnes.
Secretary.

Morley, Alta., July 14, 1937.

Dear Sir :-

I am in receipt of your letter 119-1-10, July 5, signed Philip Phelan, in which you ask for the application form and certificate of health of Cecil Smalleyes, No. 82.

This boy was admitted to Day School in Sept. 1934, and his form sent in with others of that date. He has recently been transferred to Residential School, but is not ~~admitted~~ a new admission. His admission was authorized by Dept. letter No. 119-1-10, Oct. 29, 1934, signed J.D. Sutherland.

Your obedient servant,

W. B. Murray

Indian Agent.

INDIAN RESIDENTIAL SCHOOL
UNITED CHURCH OF CANADA
REV. E. J. STALEY, PRINCIPAL

MORLEY, ALTA.

With all supplies laid in and the teachers on hand by the beginning of September, an epidemic of Black Measles became so acute that school could not be opened in September.

The full grant is respectfully requested because expenses during September have been practically as high as though the children were in residence. We have been compelled to hire all our labour during the busiest month for farm work we have. Also for the greater part of the time the school has been used as an emergency hospital, with the staff detailed to do the nursing.

E. J. Staley

OFFICE OF
INDIAN AGENT

Stony Agency.
Morley, Alta., October 7th. 1937

Sir:-

Herewith I beg to submit the Quarterly Return for Morley Indian Residential School for the quarter ended September 30th. During the above period we have had an epidemic of Measles on the Reserve & the school has been made use of as an overflow hospital, as the accommodation in the hospital proper was not sufficient to take care of all the patients who required attention. This of course entailed a great deal of extra work for the school staff & although the regular classes were not conducted there was practically the same amount of expense incurred during the quarter as would have been under ordinary circumstances. I would respectfully recommend therefore that the full amount of the grant be paid, as requested in Mr Staley's letter.

I am,

Your obedient Servant,

W. Barn Murray,
Indian Agent

The Secretary,
Indian Affairs Branch,

*Ad. Dis under
for approval*

Morley, Alta., Jan. 6, 1938.

Sir:-

I beg to enclose herewith the quarterly returns from the Morley Indian School.

Please note the admission of Kenneth Ebenezer, age 3. The father of this child is totally blind and unable to support his wife and family. He is unable to earn anything and they live entirely on a ration for two adults. The mother is a low grade moron, giving the children less care than a young coyote gets. In spite of all my efforts to the contrary, she keeps the house like a pigstye, the children are always filthy, and their inadequate clothing is in rags. Another child is expected any day.

The parents have applied for admission to the school of Kenneth, for the purpose of giving him proper food and clothing and lessening on themselves, a blind husband and half-wit wife, and I beg to urge that he be accepted.

It will be noted that this child is not included in the list for which grant is applied for. I beg to be advised as to whether he should be included in the return for the present quarter.

Your obedient servant,

W. B. Murray
Indian Agent.

The Secretary,
Dept. of Mines and Resources,
Indian Affairs Branch,
Ottawa, Ont.

Dear Sir:-

With reference to your letter of the 6th instant, you may inform the Principal of the Morley Residential School that the discharge of the following pupils is approved:

No. 39 - Gordon Labelle	No. 025 - Evelyn Stevens
40 - Willie McLean	037 - Dorothy Rider
60 - Lingstand Linnear	040 - Elsie Car
64 - John Linnear	

You may inform him that the Department approves the admission of the undermentioned children:

Murphy Two Y. Men	Phelex Pocette
Gordon Hunter	Ramona Powderface
Lester Ebenezer	Caroline Holloway
Kathleen Chiniguay	Scotty Rollingsrud
Lorraine Rider	
Freddie Salter	

The admission of Kenneth Ebenezer as a grant earning pupil from January 1, 1938, is approved.

Applications and certificates of health are required for the following pupils:

No. 088 - Georgie Rider
089 - Violet Rider
090 - Dolly Beaver

Yours truly,

W. Barr Murray, Esq.,
Indian Agent,
Morley, Alta.

Morley, Alta., Jan. 19, 1938.

Dear Sir :-

I beg to recommend the admission of Willie MacLean to the Edmonton Indian as a transfer from the Morley Indian School.

Willie has always been enthusiastic about his school work, and now that he has graduated from the local school, his parents are quite anxious that he go on further.

He is a good worker and well behaved, I am glad to see him get a chance at further education.

Yours truly,

W. B. Murray

Morley, Alta., April 5, 1938.

Sir :-

In submitting the attached application for admission to school of Gweneth Rider, age 4, I beg to explain that her Mother died leaving 7 children. The oldest child is discharged from school, 4 are now in school, a baby has been given in adoption, and the father, from the wish to keep the family together as much as possible, asks to have this child in school.

This girl is a bright healthy youngster and there is nothing against her admission except her age. I beg to recommend that she be admitted as otherwise her father will have to give her to some other family, and he is very fond of his family.

Your obedient servant,

W. B. Murray
Indian Agent.

Dear Sir:

With reference to your letter of the 5th instant you may inform the Principal of the Morley Residential School that the admission of the following children is approved:

Gweneth Rider
May Rider
May Daniel

We are approving the admission of Gweneth Rider in view of the special circumstances in her case. Her admission is not to form a precedent for the admission of other children under age.

In official letter of January 14 last you were requested to forward application forms and certificates of health for pupils 088, 089 and 090. These have not yet been received and as the pupils have been in the school for several months I would appreciate your forwarding the necessary forms immediately.

Yours truly,

Philip Phelan,
Chief, Training Division.

Georgie Rider
Violet Rider
Ruby Snow

With regard to Dolly Beaver, this child would appear to have
been a day pupil for some years & her admission, according to
Mr Staley, was approved by the Department.

If another application form is required to be filled in,
I will have this done & forwarded to the Department without
further delay.

Your obedient Servant,

W. Barr Murray

Indian Agent

Ottawa, July 18, 1938.

Dear Sir:

With reference to your letter of the 11th instant, enclosing the June quarter return of the Morley Indian Residential School, please advise the Principal that the admission of the following children is approved:-

George Rider, Violet Rider, Ruby Snow.

The name of Annie Hunter, No. 077, is shown on the March quarter return but does not appear on the June quarter return, although no application has been received for her discharge. Please advise the Department regarding this pupil.

Yours truly,

Philip Phelan,
Chief, Training Division.

Dr. W. Barr Murray,
Indian Agent,
Morley, Alberta.

INDIAN AFFAIRS BRANCH

PLEASE QUOTE
FILE 2.

Stony Agency.

Morley, Alta. July 25th, 1938

Sir:-

I am in receipt of your letter of 18th, Inst, File No. 119-1-10 & have noted contents.

With regard to Annie Hunter whose name appeared on the March quarter as having been in residence for twenty days, this child was admitted to hospital on January 20th & was later taken out by her parents against my wishes & died on Feby 13th. This incident was made the subject of a special report to the Department & this having been done, Mr Staley took it that no application for discharge was necessary, but have obtained the form from him now & beg to enclose it herewith.

Your obedient Servant.

W. B. Murray
Indian Agent.

The Secretary,
Indian Affairs Branch,
Department of Mines & Resources,
Ottawa, Canada.

APPLICATION FOR ADMISSION

To the

Director of Indian Affairs,
Ottawa, Canada

Sept

1938

Sir,—

I hereby make application for admission of the undermentioned child into the Indian Residential School Residential School; to remain therein under the guardianship of the Principal for such term as the Minister of Mines and Resources may deem proper:

Indian name of child

English name

Age

Name of Band

No. of ticket under which child's annuity is paid

Father's full name and No.

Mother's full name and No.

Parents living or dead

State of child's health

Religion

Does applicant speak English?

Previously attended

school for years

Joshua Pocette
W. H. Leppard
(Signature of father)

NOTE—If mother or guardian signs, agent must forward full explanatory note.

I hereby certify that the above application for admission has been read over and interpreted to the parent or guardian and that the contents were understood by him or her and that I witnessed his or her signature to this document.

E. H. H. H.
Signature of Missionary or other Witness

W. H. Leppard
Agent

*Principal or other official of the school must not sign as witness.

NOTE—All the above particulars must be fully given, especially the "Name of Band," "No. of ticket under which child's annuity is paid" and "Religion." The minimum age for admission is seven (7) years, except in the case of an orphan, destitute or neglected child. When application is made for the admission of such cases, full particulars should accompany the application.

Form No. I.A. 406.
